Soviet Scholasticism:

Soviet Scholasticism J.E. Blakeley, 2012-12-06 The present work is a study of the method of contemporary Soviet philosophy By Soviet philosophy we mean philosophy as published in the Soviet Union For practical purposes we have limited our attention to Soviet sources in Russian in spite of the fact that Soviet philosophical works are also published in other languages see B 2029 21 38 The term method is taken in the sense usual in Western books on methodology 1 In view of the content of the first chapter it will be useful to explain the last term a little more fully By method we mean a procedure and it is obvious that the principles according to which a procedure is carried out are rules i e imperatives which tell us not what is but what should be done Such imperatives may or may not be connected with and founded on certain descriptive statements the fact that every rule of formal logic is based on a corresponding law has been well known since Husserl's *Logische Untersuchungen* and is generally accepted in contemporary logic but such a foundation is irrelevant to a methodological study The object of such a study is to find out what these rules are why they are accepted and how they are interconnected and applied This is how methodology the science of method is conceived in Western treatises on the subject and this is also the standpoint assumed here

Soviet Historiography of Philosophy Evert van der Zweerde, 2013-06-29 Scientific history of philosophy was one of the professional branches of Soviet philosophy and a place where philosophical culture was preserved in an often hostile environment Situated between the ideological exigencies of the Soviet system with its Marxist Leninist theoretical foundation and the need for an objective account of philosophy's past Soviet history of philosophy displays the characteristic features of Soviet philosophy as a whole including a forceful reappearance of its Hegelian background This book is the only Western monograph on this important part of Soviet philosophy thus filling the last main gap in Western Philosophical Sovietology At the same time it offers the first survey of Soviet philosophy after the disappearance of the Soviet system itself embarking on an historical and meta philosophical investigation of Soviet philosophical culture The book will be of interest to students of Soviet and Russian philosophy historians of philosophy and specialists in Soviet studies

The Philosophical Foundations of Soviet Aesthetics Edward M. Swiderski, 1979-07-31 0 1 GENERAL DESCRIPTION OF THE PROBLEMATIC This study is devoted to an examination of a concept of crucial significance for Soviet aesthetics the concept of the aesthetic esthetics Soviet aestheticians have for some time already been trying to design a concept of the aesthetic that would satisfy on the one hand the requirements of aesthetic phenomena and on the other hand the principles of the Marxist Leninist world view The first part of this work shows how the concept of the aesthetic has been and continues to be problematic for Soviet aestheticians This task is carried out by dwelling first of all on the controversies among Soviet aestheticians concerning meta aesthetic issues viz the nature and scope of aesthetics as well as its place among other philosophical and non philosophical disciplines A particularly clear view of the problems that have traditionally preoccupied Soviet aestheticians is provided by an examination of what they standardly call the method of aesthetics where method is understood in the sense of an explanatory framework rather than in the strict logico scientific sense of the term This discussion will provide the occasion to pass in review the main periods of Soviet aesthetics and the characteristic aspects of each The chapter on the sources of contemporary Marxist Leninist aesthetics brings into relief the lack of a homogeneous tradition in the question of the nature of the aesthetic and other related problems

The Soviet Critique of Neopositivism W.F. Boeselager, 2012-12-06 The first of the people to be thanked for their help during the composition of this work is Professor I M Bochenski under whom I had the good fortune to study for an extended period of time Without his help it is doubtful that this work would have been written at all Among the other professors who helped along the way I would like to cite in particular Professors A F Utz M D Philippe and N Luyten of the University of Fribourg Many friends were present at the birth of the ideas contained in this book By naming K G Ballestrem T I Blakeley and M F Gagern I do not want to slight any of the rest It was A Spiekermann in Hollinghofen who saw to it that other preoccupations did not rob me of all the time needed for the study of the subject matter and to the composition of this treatise Of particular help in getting sources from the libraries of the world were Miss Lifschitz

of the Institute of East European Studies and Mr Uldry of the Cantonal Library in Fribourg Switzerland Finally my patient typist Mrs Frey in Munster deserves special mention for her beautiful work **Studies in Soviet Thought** J.M.

Bochenski, J.E. Blakeley, 2012-12-06 Early in 1958 a number of research projects on Soviet philosophy were started at the Institute of East European Studies at the University of Fribourg Switzerland under the direction of the undersigned At present they are all completed or nearly so and their results are described in 18 different volumes In spite of the fact that all of them have been already published or soon will be mostly in German it has been thought worthwhile to present their main conclusions in the form of short English reports This book contains in the main these reports Only the two programmatic papers my own and that of Dr Buchholz and the study of Dr Dahm are not direct results of the above mentioned projects But it will be clear to everyone that they too are closely connected with the subject envisaged and are written from a similar point of view It will perhaps be convenient to briefly formulate this standpoint All the writings included here are concerned with recent i e mainly post Stalinist developments in Soviet philosophy where Soviet is taken in the wide meaning of the word covering also Marxism Leninism in Communist countries other than the Soviet Union All the authors started with the assumption that there are interesting aspects to these more recent developments There was also a common assumption that only specialized work on first hand sources can be of relevance in this field Soviet Russian Dialectical Materialism

[Diamat] J.E. Blakeley, 2012-12-06 This book offers a critical outline of the sources of the history of the spirit and of the doctrines of present day Soviet Russian Dialectical Materialism Diamat i e of the philosophical foundations of Marxism Leninism It is scarcely necessary to stress the usefulness of a short outline of this kind as Russian sources are not easily accessible in the West and as it is of considerable interest to know the doctrines which make up the faith of the Communists in all countries The material for this book was first made public in a series of lectures at the University of Fribourg Switzerland first in French in the summer term of 1949 later in English at the Summer School in the same year The French text slightly expanded was translated into German by Miss M Hoerkens Dipl rer pol Various imperfections in the wording of the text and in the bibliography can be explained by the process of formation of this book The author hopes that such imperfections will not prove disturbing The New Scholasticism Edward Aloysius Pace, James Hugh Ryan, 1963 Includes section Book Reviews

Themes in Soviet Marxist Philosophy J.E. Blakeley, 2012-12-06 The Soviet philosophical scene has experienced remarkable growth since the innovations of the 50 s and the renovations of the 60 s This volume of Sovietica is intended by the editors as a finger on the pulse of the Marxist Leninist corpus philosophicum as we enter the 1970 s Published in the years between 1960 and 1970 the Filosofskaja en ciklopedija FE has replaced the Kratkij filosofskij slovar Short Philosophic Dictionary 1939 1941 1951 and 1954 and the Filosofskij slovar Philosophic Dictionary 1963 It is an impressive work 2994 pages in five volumes I 1960 504 pp II 1962 575 pp III 1964 584 pp IV 1967 591 pp V 1970 740 pp with the editors and authors representing all the contemporary Soviet philosophers of note The FE has been extensively

reviewed in *Kommunist* 1972 5 119 127 and in *Studies in Soviet Thought* beginning with SST 12 1972 4 Restrictions of space have forced us to omit much that was originally to be included The same limitations have obliged us to deviate from the initial methodological rule which was to include only complete un abridged articles in order to avoid distortion by selection Only two articles have been shortened only the basic portion of science has been included we have dropped natural science sciences on man and society and classification of sciences a total of thirteen pages in Russian this last with regret and with apologies to Professor Kedrov

Marxist Ethical Theory in the Soviet Union P.T. Grier, 2012-12-06 A survey of the intellectual history of Marxism through its several phases and various national adaptations suggests for any of at least three reasons that the attempt to provide a widely acceptable summary of Marxist ethics must be an enterprise with little prospect of success First a number of prominent Marxists have insisted that Marxism can have no ethics because its status as a science precludes bias toward or the assumption of any particular ethical standpoint On this view it would be no more reasonable to expect an ethics of Marxism than of any other form of social science Second basing themselves on the opposite assumption an equally prominent assortment of Marxist intellectuals have lamented the absence of a coherently developed Marxist ethics as a deficiency which must be remedied Third less commonly Marxism is sometimes alleged to possess no developed ethical theory because it is exclusively committed to advocacy of class egoism on behalf of the proletariat and is thus rooted in a prudential not a moral standpoint The advocacy of proletarian class egoism or revolutionary morality may strictly speaking constitute an ethical standpoint but it might be regarded as a peculiar waste of time for a convinced and consistent class egoist to develop precise formulations of his ethical views for the sake of convincing an abstract audience of classless and impartial rational observers which does not happen to exist at present

Marx's Scientific Dialectics Paul Paolucci, 2007 This book examines both problems in traditional readings of Marx's texts and how he used several methods of science to inform his dialectical thinking historical materialist research political economic analyses and his communist project A case is made for Marx's continuing methodological relevance

Short Handbook of Communist Ideology H. Fleischer, 2012-12-06 We have once again decided to publish in our series a source text for the study of Communist ideology This synopsis of *Principles of Marxism Leninism* 1 published at the end of 1959 and widely distributed in the Soviet Union appears as a sequel to that of the *Principles of Marxist Philosophy* which I published in 1959 as *The Dogmatic Principles of Soviet Philosophy* This book is a corporate work done by some forty Soviet philosophers sociologists economists Party theoreticians and propagandaists under the direction of O V Kuusinen member of the Praesidium of the Communist Party of the Soviet Union Except for a few clarifications we have restricted ourselves to presenting the most important parts of the original text in an original translation which provides the material in an authentic and handy form for our Institute's courses in Sovietology In comparison to the other parts the philosophical portions Sections 1 and 2 have been held to a minimum since they repeat for the most part material which is already available in the synopsis of the *Principles of Marxist*

Vladimir Solovyev and Max Scheler: Attempt at a Comparative Interpretation Helmut Dahm, 2012-12-06 This comparative study of the works of Vladimir Solovyev and Max Scheler explores some of the areas in which their thoughts seem to bear a direct relation to one another The author shows however that such a correlation is not based on any factual influence of the earlier Russian on the later philosophy of Scheler The similarities in their spiritual and philosophical development are significant as the author demonstrates in his chapter on systematic philosophy This comparison is not just of historical interest It is meant to contribute to a better understanding between the East and the West The author provides a basis for future discussions by establishing a common area of inquiry and by demonstrating a convergence of viewpoints already in regard to these problems The author also discusses the potential role of the ideas of Solovyev and Scheler in the formation of a consciousness which he sees now emerging in the Soviet Union a consciousness critical of any misrepresentation both of non Marxist Russian philosophy as well as of Western philosophy in general In regard to the translation itself three things should be mentioned First of all the distinction between the important German words Sein and Seiendes is often difficult to preserve in translation Unless otherwise noted all references to being refer to Seiendes Second the abbreviations of the works of Solovyev and Scheler used in the footnotes are clarified in the summary of the works of these authors found on page 31 Off below Russia and Eastern Europe, 1789-1985 Raymond Pearson, 1989

Soviet scholasticism Thomas J. Blakeley, 1961 **An Historical Introduction to Western Constitutional Law** R. C. van Caenegem, 1995-03-23 Professor van Caenegem's new book addresses fundamental questions of constitutional organization democracy versus autocracy unitary versus federal organization pluralism versus intolerance by analyzing different models of constitutional government through a historical perspective The approach is chronological constitutionalism is explained as the result of many centuries of trial and error through a narrative that begins in the early Middle Ages and concludes with contemporary debates focusing on Europe the United States and the Soviet Union

The Problem of Freedom in Marxist Thought J.J. O'Rourke, 2012-12-06 This study seeks to present the theory of freedom as found in one line of the Marxist tradition that which begins with Marx and Engels and continues through Lenin to contemporary Soviet philosophy Although the primary goal is simply to describe how freedom is conceived by the thinkers of this tradition an attempt is also made to ascertain whether or not their views are strongly deterministic as has often been presumed by Western commentators is in order regarding the scope of the term contemporary A remark Soviet philosophy The Soviet stage in Marxist philosophy stretches back to the 1917 revolution However for the purposes of this study only works published after 1947 were examined and the vast majority of them date from the 1960s Apart from the fact that most

works of previous periods were not available bibliographical indications such as the titles of the articles in Pod znamenem marksizma did not suggest that the theory of freedom was then a major concern In fact even 1947 there was little development of this theme until the upsurge after of works in philosophical anthropology during the last decade On the other hand it is not being suggested that the conception of freedom found in recent writings is representative of earlier Soviet philosophy during the Stalinist dead period or earlier Only further research could establish that This work was presented as a doctoral dissertation at the University of Fribourg Switzerland under the direction of Professor J M

The Rise and Fall of Communism in Russia Robert V. Daniels, 2008-10-01 Distinguished historian of the Soviet period Robert V Daniels offers a penetrating survey of the evolution of the Soviet system and its ideology In a tightly woven series of analyses written during his career long inquiry into the Soviet Union Daniels explores the Soviet experience from Karl Marx to Boris Yeltsin and shows how key ideological notions were altered as Soviet history unfolded The book exposes a long history of American misunderstanding of the Soviet Union leading up to the grand surprise of its collapse in 1991 Daniels s perspective is always original and his assessments some worked out years ago are strikingly prescient in the light of post 1991 archival revelations Soviet Communism evolved and decayed over the decades Daniels argues through a prolonged revolutionary process combined with the challenges of modernization and the personal struggles between ideologues and power grabbers
