

Soviet Shadow Over Africa

G. W. Choudhury

Soviet Shadow Over Africa:

Soviet Shadow Over Africa Walter F. Hahn, Alvin J. Cottrell, 1976 The Soviet Union and the Horn of Africa during the Cold War Radoslav A. Yordanov, 2016-03-17 At the height of the Cold War Soviet ideologues policymakers diplomats and military officers perceived the countries of Africa Asia and Latin America as the future reserve of socialism holding the key to victory over Western forces The zero sum nature of East West global competition induced the United States to try to thwart Soviet ambitions The result was predictable the two superpowers engaged in proxy struggles against each other in faraway little understood lands often ending up entangled in protracted and highly destructive local fights that did little to serve their own agendas Using a wealth of recently declassified sources this book tells the complex story of Soviet involvement in the Horn of Africa a narrowly defined geographic entity torn by the rivalry of two large countries Ethiopia and Somalia from the beginning of the Cold War until the demise of the Soviet Union At different points in the twentieth century this region arguably one of the poorest in the world attracted broad international interest and large quantities of advanced weaponry making it a Cold War flashpoint The external actors ultimately failed to achieve what they wanted from the local conflicts a lesson relevant for U S policymakers today as they ponder whether to use force abroad in the wake of the unhappy experiences in Iraq and Afghanistan *Communist Nations' Military Assistance* John F Copper, 2019-03-01 This book looks at the military aid given by communist bloc countries to other bloc countries and to Third World nations The authors analyze the military aid capabilities of communist donor nations their specific motivations for offering military aid and the policies and guidelines that govern arms assistance They also discuss competition **Controls on Exports to South Africa** United States. Congress. House. Committee on Foreign Affairs. Subcommittee on International Economic Policy and Trade, 1983

Problems of Communism, 1981 **Eastern Europe, the Soviet Union, and Africa** Chris Saunders, Helder Adegas Fonseca, Lena Dallywater, 2023-04-27 It is now widely recognised that a Cold War perspective falls short in unfolding the complex geographies of connections and the multipolarity of actions and transactions that were shaped through the movement of individuals and ideas from Africa to the East and from the East to Africa in the decades in which African countries moved to independence Adopting an interdisciplinary transregional perspective this volume casts new light on aspects of the role of Eastern Europe and the Soviet Union in the decolonisation of Africa Taking further themes explored in a collection of essays published by the editors in 2019 the twelve case studies by authors from South Africa Czech Republic Portugal Russia Hungary Italy Canada Serbia and Germany draw on new sources to explore the history of the ties that existed between African liberation movements and the socialist bloc some of which continue to influence relationships today Chapters contribute to three relevant main themes that resonate in a number of scholarly fields of inquiry ranging from Global Studies Transregional Studies Cold War Studies Global History to African Studies Eastern European Russian and Slavic Studies Reconsiderations Resources and Reverberations Drawing upon newly opened archives and combining

transregional perspectives with sources in different languages chapters explicitly point out the shortcomings of past research and debates in the respective field They highlight new avenues which have been developing and which need to be further developed Reconsiderations Selected case studies address the resources of those being active and involved in decolonisation processes be it in East North West and South They reveal Which resources both material and intellectual are the actors drawing upon On the other hand From which resources are individuals on one side or the other reciprocally or intermittently intentionally kept away Resources Finally the third theme puts an emphasis on the historicity of the processes depicted Studies point to the gaps and dead ends of international support the paths that peter out but also to repercussions and reverberations up until today Reverberations Taken these three themes together the individual chapters contribute to the overall question of Which general historical narratives about the second half of the 20th century are changing based on these new research findings In the Shadows of the Kremlin and the White House Charles Quist-Adade,2001 In the Shadows of the Kremlin and the White House provides the first comparative study of the Soviet Russian and Western press coverage of Africa It analyzes Africa s image in the ex Soviet and Western press by comparing news coverage of Africa in general under the two press systems For this purpose three Soviet publications Pravda Izvestia Novoe Vremya and three Western print media the Daily Telegraph Britain New York Times and Newsweek were content analyzed for a 16 year period 1982 1998

Historical Dictionary of Angola Martin W. James,2004-05-27 Angola is a large and populous African country well endowed with natural resources such as petroleum and diamonds but a country whose people have experienced long and destructive domination and civil war resulting in tremendous political economic and social struggle Now however Angola is at peace and making progress and this Dictionary presents the history of this land and its people and its potential for the future through more than 500 entries This resource features a detailed chronology of the significant events that have taken place throughout the centuries an extensive list of acronyms and abbreviations in both English and Portuguese maps and an introductory essay that explains the richness of the land its early history and the current political social and economic conditions of its people The more than 500 dictionary entries profile the significant persons places and events as well as the political institutions and the economic and social achievements that are important to understanding Angola s history For additional information three appendices provide the name changes of places in Angola the portfolios of the government and an overview of Angola s oil production The comprehensive bibliography concludes and complements this work with a selection of older works and an emphasis on newer works written after 1990 as well as a useful selection of Internet sources private sources newspapers and journals Congressional Record United States. Congress,1985 The Congressional Record is the official record of the proceedings and debates of the United States Congress It is published daily when Congress is in session The Congressional Record began publication in 1873 Debates for sessions prior to 1873 are recorded in The Debates and Proceedings in the Congress of the United States 1789 1824 the Register of Debates in Congress 1824 1837 and the Congressional Globe 1833

1873 *China In World Affairs* G. W. Choudhury, 2019-03-01 This up to date textbook reviews China's foreign policy goals since the PRC's active reemergence in world affairs following the Cultural Revolution of 1966-1969 covering China's quest for security the breakthrough in China-U.S. relations and the course of Sino-Soviet rivalry

Atlantic Community in Crisis Walter F. Hahn, Robert L. Pfaltzgraff, 2013-09-24 *Atlantic Community in Crisis: A Redefinition of the Transatlantic Relationship* focuses on the findings of a project on the variety of strains that affected the Atlantic Community completed by the Institute for Foreign Policy Analysis under an original grant from the Fritz Thyssen Stiftung Cologne the Federal Republic of Germany. The selection first offers information on the conceptual history of the Atlantic Community as well as Atlantic confederation and partnership European Union problem of political will and the Nixon doctrine and Atlantic partnership. The book also examines the movement toward a new North Atlantic Treaty Organization (NATO) consensus. Topics include divergences in the NATO military political balance in Europe and criteria for an improved NATO position. The manuscript reviews the U.S. European strategic linkage and the shifting Euro-Atlantic military balance. Considerations include Soviet measures to sever the transatlantic linkage Soviet Warsaw Pact military doctrine and force posture and Soviet theater doctrine and European attack strategy. The text also takes a look at U.S. European technological collaboration and defense technology and the Atlantic modes of collaboration as well as political challenge and Finlandization and monetary policies in the Atlantic Community. The book is a vital reference for readers interested in the issues that affect the Atlantic Community.

The War in Southern Africa Miguel Júnior, 2018-07-11 South Africa a country rich in natural resources had a singular mission with the arrival of the Cold War: Get the world to embrace apartheid. The strategy was remarkable in the sense that it was seeking to preserve a society that almost everyone condemned. As a result South Africa found itself at odds with other states in the region including Mozambique Lesotho Zimbabwe Botswana Zambia Tanzania and Angola. The conflicts were part of the overall Cold War but they differed from other wars on the African continent. Miguel Júnior a general officer of the Angolan armed forces and a military historian examines the war in this extended analysis. He highlights how belligerent states prepared for war and used force opposing interests played a role in conflicts strategic thinking drove South Africa's overall strategy and battles led to significant consequences. Get a detailed analysis of the political economic diplomatic and security related factors that drove South Africa to develop a strategy that allowed apartheid to survive almost fifty years.

The United States and the Global Struggle for Minerals Alfred E. Eckes, 2014-09-10 In 1973-1974 soaring commodity prices and an oil embargo alerted Americans to the twin dangers of resource exhaustion and dependence on unreliable foreign materials suppliers. This period seemed to mark a watershed in history as the United States shifted from the era of relative resource abundance to relative materials scarcity. Alfred E. Eckes's comprehensive study shows that resource depletion and supply dislocations are not concerns unique to the 1970s. Since 1914 the quest for secure and stable supplies of industrial materials has been an important underlying theme of international relations and American diplomacy. Although the United

States has been blessed with a diversified materials base it has pursued a minerals strategy designed to exploit low cost high quality ores abroad Eckes demonstrates how this policy has led to official protection for overseas private investments involving a role for the Central Intelligence Agency Some modern historians have neglected the importance of resources in shaping diplomacy and history This book based on a vast variety of unutilized archival collections and recently declassified government documents helps to correct that imbalance In the process it illuminates an important and still timely aspect of America s global interests

Soviet Politics In The 1980s Helmut Sonnenfeldt,2019-07-11 The Soviet Union in the aftermath of the Brezhnev era may well stand at a crossroads in its history According to the authors of this volume the Chernenko administration and the new generation of political leaders now on the threshold of power must steer through a difficult period in the USSR s international relations especially where the U S is concerned continuing to assert what they regard as the legitimate Soviet role as a world superpower while coping with an inflexible and aging political system a stagnant economy and growing social problems The contributors provide a careful consideration of the choices confronting the USSR as this new era begins and analyze the paths its leaders may take as they grapple with the challenges of the 1980s

Cuba's International Relations H. Michael Erisman,2019-04-02 From its inception Fidel Castro s revolution has exerted an impact on the international scene far out of proportion to Cuba s modest size and limited resources This phenomenon became more pronounced in the mid 1970s as Havana s foreign policies took on truly global parameters that involved the dispatch of large combat forces to Angola and Ethiopia the initiation of ambitious military and developmental aid programs for Third World nations and the assumption of leadership of the Nonaligned Movement Today Cuba remains a significant actor on the world scene giving top priority to Caribbean and Central American affairs Critics especially in the United States have insisted that Cuban globalism is not a nationalist expression that Cuba is but a surrogate for the Soviet Union Such charges however ignore or seriously underestimate the role that nationalism has always played in the Cuban Revolution This book explores the nature and development of Castro s foreign relations in general and Cuban globalism in particular with primary attention devoted to nationalism s influence on Havana s policies toward the United States the Soviet Union and especially the developing mostly nonaligned African Asian and Latin countries of the Third World To give the reader an in depth Cuban perspective on crucial international issues excerpts from Castro s major speeches and press interviews are included Erisman concludes that the nationalistic dimension of Havana s foreign policies has definitely not been fully appreciated and this omission obscures the complexity and true essence of Cuban globalism

Bibliographic Guide to Soviet and East European Studies ,1981 **Cuba** Julia Sweig,2016 Informative pithy and lucidly written Cuba What Everyone Needs to Know 3rd edition is the best compact reference on Cuba s internal politics its often fraught relationship with the United States and its shifting relationship with the global community Cuba Julia E. Sweig,2016-05-25 Ever since Fidel Castro assumed power in Cuba in 1959 Americans have obsessed about the nation ninety miles south of the Florida

Keys America's fixation on the tropical socialist republic has only grown over the years fueled in part by successive waves of Cuban immigration and Castro's larger than life persona Cubans are now a major ethnic group in Florida and the exile community is so powerful that every American president has curried favor with it But what do most Americans really know about Cuba itself In this third edition of the widely hailed *Cuba What Everyone Needs to Know* Julia Sweig updates her concise and remarkably accessible portrait of the small island nation This edition contains a new foreword that discusses developments since Obama and Raul Castro announced the normalization of US Cuba relations and restored formal diplomatic ties A new final chapter discusses how normalization came to pass and covers Pope Francis visit to Cuba where he met with Fidel and Raul Castro Expansive in coverage and authoritative in scope the book looks back over Cuba's history since the Spanish American War before shifting to recent times Focusing equally on Cuba's role in world affairs and its own social and political transformations Sweig divides the book chronologically into the pre Fidel era the period between the 1959 revolution and the fall of the Soviet Union the post Cold War era and finally the post Fidel era Informative pithy and lucidly written it is the best compact reference on Cuba's internal politics its often fraught relationship with the United States and its shifting relationship with the global community *What Everyone Needs to Know* is a registered trademark of Oxford University Press

Department of State News Letter United States. Department of State, 1980 *Africa's Challenge to International Relations Theory* K. Dunn, T. Shaw, 2001-02-20 Africa has been noticeably absent in international relations theory This new collection of essays by contemporary Africanists convincingly demonstrates the importance of the continent to every theoretical approach in international relations This collection breaks new ground in how we think about both international relations and Africa re-examining such foundational concepts as sovereignty the state and power critically investigating the salience of realism neo liberalism liberalism in Africa and providing new thinking about regionalism security and identity
