Soviet Strategic Conduct And The Prospects For Stability:

Soviet Strategic Conduct and the Prospects for Stability Benjamin S. Lambeth, 1980-01-01 Throughout the past decade the Soviets have refused to entertain SALT proposals that would require the Soviet Union to become an active partner in increasing its own vulnerabilities. They have also revealed a penchant for immoderate levels of arms acquisition which raises disturbing questions about their willingness to settle for a strategic posture essentially equivalent to that of the United States These features of Soviet strategic style constitute major obstacles in the path of achieving a cooperative solution to the security dilemma traditionally espoused by Western theories of mutual assured destruction If the United States is to endure as a respectable player in the strategic arms competition it will have to begin imposing measures conducive to stability through a strategy that appeals primarily to Soviet sensitivities rather than to the doubtful prospect of eventual Soviet convergence with the preferred concepts of the West Soviet Nuclear Weapons Policy William C. Green, 2019-07-11 This research guide is intended primarily for two groups of specialists. The first consists of Sovietologists interested in acquiring a more complete knowledge of Soviet strategic and military policy The second includes strategic analysts interested in expanding their expertise to cover Soviet strategy and thinking However it was assembled so as to be useful as well for non specialists interested in investigating Soviet nuclear weapons policy Future of Strategic Deterrence Christoph Bertram, 1981-06-18 European Peace Movements and the Future of the Western Alliance Walter Lagueur, 2017-09-08 This extraordinary compendium concerns the future of the Western alliance and the development of the peace movements in Europe and in the United States The peace movement is an old phenomenon given new life by NATO decisions concerning nuclear deployment in Europe and the Soviet responses along the same lines After a long postwar marriage Europeans and Americans alike are reexamining the premises of the Western alliance The contributors provide a variety of scenarios extending from the maintenance of the status quo to the complete dismantling of the Western alliance or at least of its NATO component In a context of rapid change and new challenges to the democratic bloc the editors and authors argue for higher levels of economic integration and caution that competition might spill over into political collapse The work deals with thorny security issues in a frank and policy oriented way While each contributor expresses a unique standpoint a surprising consensus emerges The need for democratic nations to move toward a higher policy ground in order to preserve the fundamental alliance that led to the postwar consensus to begin with Some contributors feel this is still possible others that the time has passed and that national rather than regional interests will once more prevail The work contains an extraordinary array of talent from both the American and European perspectives Among the major contributors and their themes are Henry Kissinger on A Plan to Reshape NATO William G Hyland on The European Peace Movement and NATO Irving Kristol on What's Wrong with NATO Theodore Draper on The Western Misalliance Niels Haagerup on The Nordic Peace Movements Martin Ceadel on The British Nuclear Disarmers and Jeffrey Herf on The SPD and the Peace

Movement in West Germany This is a well integrated text with no random essays **Democracy and Deterrence** Philip Bobbitt, 1988-01-01 **Military Technology, Armaments Dynamics and Disarmament** Hans Gunter Brauch, 1989-01-13
