Soviet Union And Eastern Europe In The Global Economy:

The Soviet Union and Eastern Europe in the Global Economy Marie Lavigne, 1992-07-09 The Soviet Union and Eastern Europe are moving away from a centrally planned economy toward integration within the global economy How did this transition begin Is this an aim which all the countries can afford What conditions are to be met so that the countries will achieve a level of development comparable with the average level of their industrial partners In this 1992 volume leading international political economists from both the East and West provide an in depth analysis of these questions The contributors assess how the transition to the market requires liberalizing foreign trade introducing convertibility and transforming property structures all of which are also part of the ongoing domestic reform They also examine how these countries overcome their development lag and implement a restructuring policy

The New Eastern Europe And The World Economy Jozef M. Van Brabant, 2019-08-21 The unprecedented economic political and social changes that have followed the east European revolutions of late 1989 rank among the epochal events of the twentieth century The end of the cold war has opened up far reaching possibilities for international economic cooperation which may be able to stimulate economic growth in the region and revive interactions with the global economy This collection of essays comes to grips with the problems of repositioning the new Eastern economies in the global arena The contributors address four main themes freeing up foreign economic sectors through trade liberalization currency convertibility and greater access to markets for international capital the disintegration of the trade payment pricing and settlements systems based on the transferable ruble active participation in the key organizations entrusted with international financial monetary and trading regimes and strategies for using international economic assistance to alleviate adjustment costs with ongoing transition policies

Eastern Europe and the Soviet Union in the World Economy Susan Margaret Collins, Dani Rodrik, 1991 Assesses likely effects of the emerging market economies on world trade

The Soviet Bloc And The Third World Brigitte Schulz, William W. Hansen, Robin A Remington, Istvan Dobozi, 2019-07-11 This volume deals with the nature of the relationship between the countries of Eastern Europe and the Soviet Union and those of the Third World offering some background to the decline in the Soviet Union's international position both politically and economically

Integrating Eastern Europe into the Global Economy: J.M. Van Brabant, 2012-12-06 This book is designed as a modest contribution to the ongoing deliberations about how to ease the fairly tight constraints on the external payments of many countries of the eastern part of Europe In the first instance this inquiry is addressed to those that have embarked on wide ranging systemwide reforms External constraints have been markedly hampering the introduction of market oriented economic mutations thereby raising the cost of transition far above levels expected at the outset of the present wave of uniquely restructuring the countries involved I explore here several angles of this discussion But three stand out One is the disintegration of the postwar framework for economic cooperation in that part of the world Another is the disarray brought about by incisive economic transformations in the area Finally various national

regional and international interest groups are at work there hoping to mold somehow the drift of the reform or at least key components thereof in their own image In the process it is often forgotten as Ralf Dahrendorf 1990 p 41 so pointedly remarked that all systems mean serfdom including the natural system of a total market order in which no one tries to do anything other than guard certain rules of the game discovered by a mysterious sect of economic advisers Eastern Europe in the World Economy Csaba, 1990 in this authoritative study of international economic relations first published in 1991 L. szl Csaba examines the power structures economic reforms and economic developments within Eastern Europe He explores the history of intra regional cooperation and conflicts and international trade evaluating the changes within the system created by the standards and requirements of the world economy **Eastern Europe and the Soviet Union in the World Economy** Susan M. Collins, Dani Rodrik, 1991 **The East European Economy in Context** David Turnock, 2003-09-02 Since 1989 the former communist countries of Eastern Europe have witnessed a profound and dramatic upheaval The economic coherence of this region formerly maintained through the adoption of the Soviet system of government has fractured In *The East European Economy in Context* Communism and Transition David Turnock examines the transition from communist to free market economies both within and between the states of Eastern Europe As well as containing an informative survey of the impact of communism *The East European Economy in Context* provides Political profiles of individual countries A clear study of the contrasts between northern and balkan groups Summaries of regional variations in the transition process An exploration of the new state structures and resources Discussion of political stability inter ethnic tensions and progress in economic change The Soviet Union, Eastern Europe, and the New International Economic Order Christopher Coker, 1984 **Economic Adjustment and Reform in Eastern Europe and the Soviet Union** Franklyn D. Holzman, 1988 Economic reform structural adjustment macroeconomic stabilization and participation in the world economy are interconnected aspects of the same issue the long term economic viability of centrally planned economies in the rapidly changing economic environment of the modern world Any economic strategy that focuses on only one or two of these aspects at the expense of the others is likely to fail yet even strategies that build on all of these bases may well fail unless political leaders can muster exceptional skill garner international support and enjoy some good luck The contributions to this volume reflect the recent research on this issue by various specialists on the economies of the Soviet Union and Eastern Europe Each author emphasizes macroeconomic stabilization structural adjustment participation in the larger world economy or economic reform *Australia in the Global Economy* Barrie Dyster, David Meredith, 2012-09-13 Explores the evolution of Australia's position in the global economy from the start of the twentieth century through to today **Russia and the World Economy** Alan H. Smith, Alan Smith, 1993-05-20 Russia and the World Economy analyses the major economic historical and political obstacles to the successful integration of the Russian economy into the world economy Alan Smith examines the role of Western assistance and advice in this process and the potential implications of

failure of reforms in Russia for global stability and international **The Food Revolution In The Soviet Union And Eastern Europe** Robert Deutsch, 2019-07-11 The first study in the Western world to compare the relationship between food and politics in the countries of Eastern Europe this book views the current food revolution as part of the modernization process Robert Deutsch argues that the communist leaders in the Comecon countries increasingly link political stability and preservation of power to the problem of satisfying consumer demand He also assesses the various social forces that have brought about the food revolution The most important is the expanded working class which is no longer willing to defer consumer demands to a hypothetical communist future The CMEA countries thus face the dilemma of either gradually liberalizing their economies in order to meet growing consumer demands or resorting to repression Neither of these options promises a long term solution for implementing economic policies prescribed by Marxist Leninist doctrine Robert Deutsch presents case studies of Hungary Bulgaria and the German Democratic Republic as examples of the relative success of economic reforms To a greater or lesser extent these countries have opted for economic decentralization by liberalizing private ownership and pricing policy and by integrating planning with market oriented concepts The author compares this with the economic problems of the Soviet Union Poland Romania and Czechoslovakia The study is enhanced by an exhaustive bibliography arranged topically and drawn from the specialized literature in several languages *Parameters*, 1984

Soviet Natural Resources in the World Economy Robert G. Jensen, Theodore Shabad, Arthur W. Wright, 1983-08 Russia is a huge storehouse of natural resources including oil gas and other energy sources which she can trade with the rest of the world for advanced technology and wheat In this book leading experts evaluate the Soviet potential in major energy and industrial raw materials giving special attention to implications for the world economy to the end of the twentieth century The authors examine the mineral and forest resources that the Soviet Union has developed and may yet develop to provide exports during the 1980s They discuss the regional dimension of these resources especially in Siberia and the Soviet Far East individual mineral raw materials such as petroleum natural gas timber iron ore manganese and gold and finally the role of raw materials in Soviet foreign trade The authors representing the United States Canada and Great Britain are primarily geographers but they include economists political scientists and a geologist Their work is based on primary sources for most of these reports current information is no longer being released to researchers and on interviews with Soviet officials U.S. Trade Relationships with the Soviet Union and Eastern Europe, the Implications of "Europe 1992" on American Direct Investment, and Foreign Investment in the United States United States. Congress. House. Committee on Ways and Means, 1990 East European Economic Assessment, 1981 *The Impact of International Economic Disturbances on the Soviet Union and Eastern Europe* Egon Neuberger, Laura D'Andrea Tyson, 2013-09-03 The Impact of International Economic Disturbances on the Soviet Union and Eastern Europe Transmission and Response focuses on the transmission of economic disturbances to the Soviet Union and Eastern Europe as well as the policy responses of both to

such disturbances Topics covered include external inflation balance of trade and resource allocation along with the impact of the world economic crisis on intra CMEA trade This book is comprised of 16 chapters and begins with an overview of major international economic disturbances during the first half of the 1970s and their transmission to the Soviet Union and Eastern European countries The following chapters examine the adjustment made by East European economies to external disturbances external inflation balance of trade and resource allocation in small centrally planned economies whether the Soviet Union was affected by the international economic disturbances of the 1970s and the relationship between foreign trade and the Soviet economy The transmission of international disturbances to Yugoslavia Hungary and Poland and the responses of each country are also discussed The final chapter assesses how the energy crisis and Western stagflation have affected the nature of Soviet East European political relations in the years 1956 1973 This monograph will be of interest to economists and economic policymakers
