The Soviet West Ralph S. Clem, 1975 *Problems of Communism*, 1991 Language, Ethnicity and the State, Volume 2 C. O'Reilly, 2001-09-05 The political and social upheavals following 1989 have had a significant impact on the minority languages of Eastern Europe There have been attempts at enlightened treatment of minority linguistic groups in some of the new states but in others such groups have been openly oppressed This volume draws on sociologically and ethnographically oriented work from a number of disciplines to allow the reader to compare developments in the different states and to examine the interplay of language issues ethnic nationalism and processes of state formation and restructuring in the various political and historical contexts of Central and Eastern Europe A companion volume 0 333 92925 X examines the status of minority languages in the European Union Guide to the Study of the Soviet Nationalities Stephan M. The Soviet West. Interplay Between Nationality and Social Organization. Ed. by R.C. Clem. Forew. by E. Allworth R. C. Clem, E. Allworth, 1975 **A Reader's Guide to the Baltic States**, 1991 The Modern Jewish Experience Jack Wertheimer, 1993-01-01 The pace of scholarly research and academic publication in fields of Judaica has quickened dramatically in the second half of the twentieth century The major consumers and producers of this new scholarship are found in Jewish Studies programs that have proliferated at institutions of higher learning around the world since the 1960s From the vantage point of the nineties it is difficult to fathom that until thirty years ago Jewish studies courses were mainly limited to a few elite universities rabbinical seminaries and Hebrew teachers colleges Today there are few colleges at public or private insitutions of higher learning that do not sponsor at least some courses on aspects of Jewish study In light of this explosion of research on Jewish topics non specialists and educators can benefit from guidance through the thicket of new

monographs source anthologies textbooks and scholarly essays The Modern Jewish Experience the result of a multi year collaboration between the International Center for the University Teaching of Jewish Civilization and the Jewish Theological Seminary of America offers just such guidance on a range of issues pertaining to modern Jewish history culture religion and society With contributions from two dozen leading scholars The Modern Jewish Experience presents practical information and guidelines intended to expand the teaching repertoire for undergraduate courses on modern Jewish life as well as a means for college professors to enrich and diversify their courses with discussions on otherwise neglected Jewish communities social and political issues religious and ideological movements and interdisciplinary perspectives Sample syllabi are also included for survey courses set in diverse linguistic settings An indispensable resource for undergraduate instruction this volume may also be used to great profit by educators of adults in synagogue and Jewish communal settings as well as by individual students engaged in private study

Globalisation of Nationalism Liah Greenfeld, 2020-08-01 Organised as an experiment testing the hypothesis that behind the hottest political issues of the quarter century after the Cold War lies globalisation of national consciousness this collection of essays unites authors from the four corners of the world They focus on democratisation and its failure in Russia transformations of identity in Eastern and Western Europe Africa North and South America and South East Asia the rise of militant and political Islam and the eruption of China onto the world stage The volume makes the argument that globalisation we are witnessing is for the most part the globalisation of competitive and antagonistic nationalism which spreads to areas where it was not known earlier and into the sphere of religion ostensibly indifferent to it Collectively these essays prove that nationalism remains the organising principle of politics inside nations as well as at transnational and international levels

Understanding Soviet Society Michael Paul Sacks, Jerry G. Pankhurst, 1988 First Published in 1988 Routledge is an imprint of Taylor Francis an informa company

Intermarium Marek Jan Chodakiewicz, 2017-09-08 History and collective memories influence a nation its culture and institutions hence its domestic politics and foreign policy That is the case in the Intermarium the land between the Baltic and Black Seas in Eastern Europe The area is the last unabashed rampart of Western Civilization in the East and a point of convergence of disparate cultures Marek Jan Chodakiewicz focuses on the Intermarium for several reasons Most importantly because as the inheritor of the freedom and rights stemming from the legacy of the Polish Lithuanian Ruthenian Commonwealth it is culturally and ideologically compatible with American national interests It is also a gateway to both East and West Since the Intermarium is the most stable part of the post Soviet area Chodakiewicz argues that the United States should focus on solidifying its influence there The ongoing political and economic success of the Intermarium states under American sponsorship undermines the totalitarian enemies of freedom all over the world As such the area can act as a springboard to addressing the rest of the successor states including those in the Caucasus Central Asia and the Russian Federation Intermarium has operated successfully for several centuries It is the most inclusive political concept within the framework of

the Commonwealth By reintroducing the concept of the Intermarium into intellectual discourse the author highlights the autonomous and independent nature of the area This is a brilliant and innovative addition to European Studies and World Culture

Immigrants and Nationalists Gershon Shafir,1995-10-06 Recent years have witnessed a swell of intense opposition to immigration in the developed world In this empirical and theoretical study of nationalism ethnicity immigration and internationalism Gershon Shafir examines and compares the reception of large numbers of immigrants to four regions at opposite ends of Europe that are relatively overdeveloped but that at the same time possess distinct cultures and nationalist movements of their own Catalonia and the Basque Provinces in Spain and the Republics of Latvia and Estonia on the Baltic What makes the comparison of these regions illuminating is the divergence and reversals in the policies and attitudes adopted by their nationalist movements during the past century This study shows that immigrants attitudes toward integration into their host societies cannot explain the divergence in the nationalists positions toward them The imbalance between the immigrants readiness to integrate into their new societies and the measure of the nationalist opposition indicates that the causes of anti immigrant hostility are usually found among the hosts Shafir argues that hostility toward immigrants in developed regions is rooted not in the threat of denationalization or economic competition but in the danger they pose to the privileges of traditional and modern political elites who transform regional nationalist sentiments into anti immigration movements

The Moldovans Charles King,2013-09-01 The first English language book to present a complete picture of this intriguing East European borderland The Moldovans Romania Russia and the Politics of Culture illuminates the perennial problems of identity politics and cultural change that the country has endured

Russia, the Roots of Confrontation Robert Vincent Daniels,1985 This book examines the historical contrasts between East and West and elucidates the Russian enigma It springs from the thesis that Russia s national character and its international relations can be understood only in light of the traumas and triumphs privation and privileges that the country weathered under the tsars and the Soviets

Nationalism in Eastern Europe S. Bollerup,C. Christensen,1997-06-17 Nationalism in Eastern Europe offers a thorough application of theories of nationalism in an analysis of the recent national revivals and conflicts in Eastern Europe The book discusses both microsociological theories from social psychology and economics and macrosociological theories from sociology and political science In a comprehensive comparative analysis these theories are applied to the late Twentieth century experiences of Estonia Moldova Croatia and the former Czechoslovakia In doing so the authors arrive at generalizable explanations of both the prevalence and the potential fatality of nationalism
