Soviet Withdrawal From Afghanistan:

The Soviet Withdrawal from Afghanistan Amin Saikal, William Maley, 1989-04-06 Nearly ten years of bloodshed and political turmoil have followed the Soviet invasion of Afghanistan in 1979 Soviet occupation not only proved a major trauma for the people of Afghanistan invasion ended the growth in superpower dentents that had characterised the late 1970s and in the Soviet Union the effects of escalating military costs and over 13 000 young military casualties have been felt at every level of society The decision to withdraw combat forces under the provisions of the Geneva Accords of April 1988 is one of the most dramatic developments in the international system since the end of the Second World War The effects of this decision will be felt not only in Afghanistan but in the Soviet Union in Southwest Asia and in the wider world The Soviet Withdrawal from Afghanistan has been designed to explore the background to the decision to withdraw and its broader implications The authors all established specialists examine the Geneva Accords the future for post withdrawal Afghanistan and the impact of withdrawal on regional states Soviet foreign and domestic policies the Soviet armed forces Sino Soviet relations and world politics They write from diverse disciplinary traditions while bringing together a shared sensitivity to the issues which complicate the Afghan question

Out of Afghanistan Diego Cordovez, Selig S. Harrison, 1995-06-29 When the Soviet Union pulled its forces out of Afghanistan the American media had a simple explanation Soviet troops had been hounded out of the mountains by U S armed guerrillas the skies cleared of Soviet aircraft by Stinger missiles until the Kremlin was forced to cry uncle But Diego Cordovez and Selig S Harrison shatter this image Out of Afghanistan shows that the Red Army was securely entrenched when the Soviet Union agreed to withdraw American weaponry and Afghan bravery raised the costs for Moscow but it was six years of skillful diplomacy that gave the Russians a way out Cordovez and Harrison provide the definitive account of the Soviet blunders that led up to the invasion and the bitter struggles over the withdrawal that raged in the Soviet and Afghan Communist parties and the Reagan Administration The authors are particularly well suited to their task Cordovez was the United Nations mediator who negotiated the Soviet pullout and Harrison is a leading South Asia expert with four decades of experience in covering Afghanistan Their story of the U N negotiations is interwoven with a gripping chronicle of the war years complete with palace shootouts in Kabul turf warfare between rival Soviet intelligence agencies and the CIA role in building up Islamic fundamentalist guerrilla leaders at the expense of Afghan moderates Cordovez opens up his diaries to take us behind the scenes in his negotiations and Harrison draws on interviews with Mikhail Gorbachev former Secretary of State George Shultz and other key actors The result is a book full of surprises For example the authors demonstrate that the Soviets intervened not out of a desire to drive to the Indian Ocean but out of a fear of a U S supported Afghan Tito Rebuffs by hardline bleeders in the Reagan Administration undermined efforts by Yuri Andropov to secure a settlement before his death in 1983 Even more startling Gorbachev resumed the search for a negotiated withdrawal more than a year before the first American supplied Stinger missiles were deployed in the war The

Soviet intervention in Afghanistan was one of the pivotal events of recent history. Out of Afghanistan destroys many of the myths surrounding the Afghan war and will have a profound impact on the emerging debate over how and why the Cold War ended. *A Long Goodbye* Artemy M. Kalinovsky, 2011-05-16 Chronicles the Soviet Union's nine year struggle to extricate itself from Afghanistan in the 1980s and compares it to the challenges the United States may face in withdrawing from the region.

Changing Course Sarah Elizabeth Mendelson, 1998 In *Changing Course* Sarah Mendelson demonstrates that interpretations which stress the impact of the international system and particularly of U.S. foreign policy or which focus on the role of ideas or politics alone fail to explain the contingent process of change. Mendelson tells a story of internal battles where misfit ideas, ones that severely challenged the status quo, were turned into policies. She draws on firsthand interviews with those who ran Soviet foreign policy and the war in Afghanistan and on recently declassified material from Soviet archives to show that both ideas and political strategies were needed to make reform happen.

The Soviet Withdrawal From Afghanistan Tom Rogers, 1992-11-18 This reference analyzes and chronicles the Soviet occupation of and withdrawal from Afghanistan in the period from 1973 to 1990 by an observer in the area who relied on a variety of sources and cross-checked them carefully. The analysis of events leading to the Soviet withdrawal covers the important negotiations and relates them to the historic changes that were taking place in the Soviet Union and in its relationships to the rest of the world. This analysis and chronology is indispensable to students and researchers assessing the final years of the Soviet Union, events in Afghanistan, and current problems. A brief introduction precedes a discussion of the international implications of Soviet policy in Afghanistan, a description of the negotiations following years of crisis from 1973 to 1986, an analysis of the Soviet decision to withdraw, and the final years from 1988 to 1990. The chronology covering the Soviet intervention and withdrawal is detailed and occupies the main portion of this reference. An index makes important detail easily accessible to students and researchers in history, political science, military studies, and Soviet and Asian affairs.

Explaining Change in Foreign Policy Sarah Elizabeth Mendelson, 1993 *Afghanistan, Soviet Occupation and Withdrawal*, 1988

Dominoes and Bandwagons Robert Jervis, Jack Snyder, 1991-05-02 Fearing the loss of Korea and Vietnam would touch off a chain reaction of other countries turning communist, the United States fought two major wars in the hinterlands of Asia. What accounts for such exaggerated alarm, and what were its consequences? Is a fear of the domino effect permanently rooted in the American strategic psyche, or has the United States now adopted a less alarmist approach? The essays in this book address these questions by examining domino thinking in United States and Soviet Cold War strategy and in earlier historic settings. Combining theory and history in analyzing issues relevant to current public policy, *Dominoes and Bandwagons* examines the extent to which domino fears were a rational response, a psychological reaction, or a tactic in domestic politics.

The Soviet Withdrawal from Afghanistan, 1988 Organizations at War in Afghanistan and Beyond

Abdulkader H. Sinno, 2011-03-15 After we had exchanged the requisite formalities over tea in his camp on the southern edge of Kabul's outer defense perimeter the Afghan field commander told me that two of his bravest mujahideen were martyred because he did not have a pickup truck to take them to a Peshawar hospital. They had succumbed to their battle wounds. He asked me to tell his party's bureaucrats across the border that he needed such a vehicle desperately. I double-checked with my interpreter that he was indeed making this request. I wasn't puzzled because the request appeared unreasonable but because he was asking me a twenty-year-old employee of a humanitarian organization to intercede on his behalf with his own organization's bureaucracy. I understood on this dry summer day in Khurd Kabul that not all militant and political organizations are alike from Organizations at War in Afghanistan and Beyond. While popular accounts of warfare particularly of nontraditional conflicts such as guerrilla wars and insurgencies favor the roles of leaders or ideology, social scientific analyses of these wars focus on aggregate categories such as ethnic groups, religious affiliations, socioeconomic classes, or civilizations. Challenging these constructions, Abdulkader H. Sinno closely examines the fortunes of the various factions in Afghanistan, including the mujahideen and the Taliban that have been fighting each other and foreign armies since the 1979 Soviet invasion. Focusing on the organization of the combatants, Sinno offers a new understanding of the course and outcome of such conflicts. Employing a wide range of sources, including his own fieldwork in Afghanistan and statistical data on conflicts across the region, Sinno contends that in Afghanistan the groups that have outperformed and outlasted their opponents have done so because of their successful organization. Each organization's ability to mobilize effectively, execute strategy, coordinate efforts, manage disunity, and process information depends on how well its structure matches its ability to keep its rivals at bay. Centralized organizations, Sinno finds, are generally more effective than noncentralized ones, but noncentralized ones are more resilient absent a safe haven. Sinno's organizational theory explains otherwise puzzling behavior found in group conflicts: the longevity of unpopular regimes, the demise of popular movements, and efforts of those who share a common cause to undermine their ideological or ethnic kin. The author argues that the organizational theory applies not only to Afghanistan, where he doubts the effectiveness of American state-building efforts, but also to other ethnic revolutionary, independence, and secessionist conflicts in North Africa, the Middle East, and beyond.
