**Soviet Strategy and the New Military Thinking** Derek Leebaert, Timothy Dickinson, 1992 This book first published in 1991 analyses the unprecedented changes as well as the troubling continuities that characterized Soviet military thinking during the early 1990s      The Third World in Soviet Military Thought Mark Katz, 2012-07-26 First published in 1982 this study traces the development of Soviet military thinking on the Third World and assesses its importance for the conduct of Soviet foreign policy Changes in Soviet military thought often reflect changes in Soviet attitudes towards and expectations from involvement in Third World conflicts This work from Dr Katz meditates upon the changing role of the USSR in post war Third World conflicts with particular emphasis upon the Brezhnev era and the way in which US setbacks in the Third World impacted upon Soviet foreign policy and changing attitudes to the Third World

Adelman, Cristann Lea Gibson, 2021-01-26 This book first published in 1989 is a comprehensive examination of the profound impact of World War II on Soviet military affairs It systematically assesses the costs and lessons of the war and their substantial impact on Soviet military and Party leaders in the Cold War era and particularly in the 1980s Starting with the experiences of the war and its influence on the development of Soviet military thinking the book addresses the relationship between the military and the Soviet political system threat perception decision making and crisis and risk assessment Also discussed are the war's influence on the structure and operations of the military in the 1980s focusing on doctrine conventional forces the defence industry and historiography      **Military Review** , 1993

**Soviet Strategic Thought, 1917-91** Andrei A. Kokoshin, 1998-01-15 During the Cold War Westerners were obsessed with the military policies of the Soviet Union Until the demise of the Soviet Union however few details of Moscow's thinking on military matters were available In this book Andrei Kokoshin reveals how Soviet military theorists developed and debated

the concepts that provided the basis for the Kremlin's defense policies. Drawing on Soviet era archives and unpublished materials he sheds light on this important chapter in the history of Russia and the world. The book covers three main themes: the relationship between politics and military strategy in the Soviet Union; how the Soviet political and military leadership assessed threats to Soviet security; the nature of future wars and methods of warfare; and the relationship between offense and defense in Soviet military strategy. Kokoshin places the strategic concepts behind Moscow's military policies in the context of internal and international struggles for power and assesses the future role of military power in Russia's national security strategy. **Russia's Military Revival** Bettina Renz, 2018-04-27 Russian annexation of Crimea and the subsequent air campaign over Syria took the world by surprise. The capabilities and efficiency of Moscow's armed forces during both operations signalled to the world that Russia was back in business as a significant military actor on the international stage. In this cutting edge study Bettina Renz provides an in depth and comprehensive analysis of Russia's military revival under Putin's leadership. Whilst the West must adjust to the reality of a modernised and increasingly powerful Russian military she argues that the renaissance of Russian military might and its implications for the balance of global power can only be fully understood within a wider historical context. Assessing developments in Russian Great Power thinking, military capabilities, Russian strategic thought and views on the use of force throughout the post Soviet era, the book shows that rather than signifying a sudden Russian military resurgence, recent developments are consistent with longstanding trends in Russian military strategy and foreign policy.

**Gorbachev's Third World Dilemmas** Kurt M. Campbell, S. Neil Macfarlane, 2022-12-28 Gorbachev's Third World Dilemmas 1989 examines the strategic political and ideological criteria which shaped Soviet policies toward the developing world. Organized around particular themes and issues it pays attention to both theoretical fundamentals in Soviet doctrine and to Soviet actions in specific regions. The topics range widely and include the Soviet conception of regional security, Soviet arms transfers and military aid to the developing world, the developing world in Soviet military thinking, the USSR and crisis in the Caribbean, Soviet policy towards Southern Africa, notably Angola and Mozambique, and Soviet policy towards Southwest Africa. It looks at the activist foreign policy that Gorbachev inherited and explores the elements of change and continuity that Gorbachev and the Soviets faced.

**Practical Soldiers: Israel's Military Thought and Its Formative Factors** Avi Kober, 2015-11-16 This book suggests a general framework for the analysis of formative factors in military thought and offers an account of the Israel Defense Force's state of intellectualism and modernity. This account is followed by an attempt to trace the factors that have shaped Israeli military thought. The explanations are a mixture of realist and non realist factors which can be found at both the systemic and the state level of analysis. At the systemic level, realist evaluations focus on factors such as the dominance of the technological dimension and the pervasiveness of asymmetrical low intensity conflict, whereas at the state level one can find realist explanations, cultural

factors and societal influences Moral and legal constraints also factor into both the systemic and state levels      **Soviet**
