Soviet Non-Capitalist Development Ismael Hossein-zadeh, 1989-04-10 The sense one gets from this most interesting book is that the change Nasser wrought in the Egyptian economy was more out of expediency than out of ideological commitment According to Hosseinzadeh those who argue that Nasser's development path was noncapitalist or socialist are wrong he presents their arguments and refutes them Indeed Egypt's path he argues was closer to state capitalism than to any other path Highly recommended for faculty advanced undergraduates and graduate students Choice This clear comprehensive book examines the theoretical ideological and political aspects of the official Soviet approach to Third World economic development Of particular interest is the analysis of the so called theory of non capitalist NCD path to socialism which is studied both theoretically and empirically The author traces the history of thought leading to successive versions of this theory and provides a persuasive critique of it This history begins with Marx and Lenin continues with Trotsky and the resolutions of the Comintern Congresses of the 1920s and leads through the Stalin era to the influence of Soviet experiences with national and social movements in the Third World The book ends with recent reassessments of the Soviet approach to Third World developments under Gorbachev and his co thinkers This definitive work is of value to all those interested in Soviet studies Third World especially Middle East studies and the study of Soviet Third World relations in general The author challenges Soviet Third World experts by examining the substance of their theories and the relevance of their policies from a Marxist point of view The claims of these experts are tested against the actual developments of Nasser's Egypt the most frequently cited case of non capitalist development The study of the case of Egypt focuses on the extensive nationalizations that were implemented under the Free Officers rule the philosophy of those nationalizations the character of state capitalist regimes and their tendency toward expanding the public sector the differences between socialism and state capitalism and the like
