Soviet Political Thought An Anthology:

Soviet political thought Michael Jaworskyj, 1967 **Soviet Political Thought. An Anthology. Selected, Transl., and Ed** Michael Jaworskyj, 1967 **Soviet Political Thought** Michael Jaworskyj, 1967 World Communism, 1964-1969, a Selected Bibliography United States. Congress. Senate. Committee on the Judiciary, 1971 **1974 Annual Supplement** Joan Schmitz Bergholt, 2013-12-21 **Russia and Eastern Europe, 1789-1985** Raymond Pearson, 1989 **Evgeny Pashukanis** Michael Head, 2007-09-12 A thorough examination of Pashukanis writings this book is a significant contribution to a proper assessment of Pashukanis work the value of his theoretical legacy and the contemporary relevance of Marxist legal theory Interest in the best known Soviet legal scholar Evgeny Pashukanis remains widespread and his work retains considerable relevance His writings provide a rich source of material on the Marxist theory of law and the state as well as the attempts to apply that doctrine in Soviet Russia In this book Michael Head considers Pashukanis work both within its historical context and in relation to contemporary legal theory answering a range of questions including How and why did Pashukanis emerge as the pre eminent Soviet jurist from 1924 to 1930 Why did he come under only minor criticism from 1930 to 1936 and then be denounced and executed in 1937 as a Trotskyite saboteur Why have many Western scholars generally praised the quality and originality of Pashukanis work yet also drawn the conclusion that his fate illustrates the intrinsic impossibility of the entire communist project Serving as an introduction to Pashukanis and Marxist legal theory and a timely contribution in light of the universal assault on civil liberties in the indefinite War on Terror and the constant escalation of law and order measures in Western societies this volume is an invaluable resource for those interested in jurisprudence and critical thought **The SAGE Handbook of Marxism** Beverley Skeggs, Sara R. Farris, Alberto Toscano, Svenja Bromberg, 2021-11-17 The past decade has witnessed a resurgence of interest in Marxism both within and without the academy Marxian frameworks concepts and categories continue to be narratively relevant to the features and events of contemporary capitalism Most crucially an attention to shifting cultural conditions has lead contemporary researchers to re confront some classical and essential Marxist concepts as well as elaborating new critical frameworks for the analysis of capitalism today The SAGE Handbook of Marxism showcases this cutting edge of today s Marxism It advances the debate with essays that rigorously map and renew the concepts that have provided the groundwork and main currents for Marxist theory and showcases interventions that set the agenda for Marxist research in the 21st century A rigorous and challenging collection of scholarship this book contains a stunning range of contributions from contemporary academics writers and theorists from around the world and across disciplines invaluable to scholars and graduate students alike Part 1 Reworking the critique of political economy Part 2 Forms of domination subjects of struggle Part 3 Political perspectives Part 4 Philosophical dimensions Part 5 Land and existence Part 6 Domains Part 7 Inquiries and debates The A to Z of Marxism David Walker, Daniel Gray, 2009-08-13 Marxism one of the few philosophies that turned into an effective movement not so

long ago was the official ideology in one form or another of much of humanity It was promulgated initially by the Soviet Union then imposed on much of Central and Eastern Europe later emerged in the People s Republic of China and gradually spread to other parts of Asia and even bits of Africa and Latin America Although declining in its initial popularity it still remains strong in several countries and is supported by numerous communist and other parties and countless individuals around the world The A to Z of Marxism covers the history of Marxism and all its thinkers and schools of thought in a comprehensive manner This is done through a chronology an introductory essay a bibliography and hundreds of cross reference dictionary entries on basic terms and concepts significant thinkers and doers and also the parties and countries that followed it

Legal Naturalism Olufemi Taiwo,2015-11-12 Legal Naturalism advances a clear and convincing case that Marx s theory of law is a form of natural law jurisprudence It explicates both Marx s writings and the idea of natural law and makes a forceful contribution to current debates on the foundations of law Olufemi Taiwo argues that embedded in the corpus of Marxist writing is a plausible adequate and coherent legal theory He describes Marx s general concept of law which he calls legal naturalism For Marxism natural law isn t a permanent verity it refers to the basic law of a given epoch or social formation which is an essential aspect of its mode of production Capitalist law is thus natural law in a capitalist society and is politically and morally progressive relative to the laws of preceding social formations Taiwo emphasizes that these formations are dialectical or dynamic not merely static so that the law which is naturally appropriate to a capitalist economy will embody tensions and contradictions that replicate the underlying conflicts of that economy In addition he discusses the enactment and reform of positive law law established by government institutions in a Marxian framework

European Dictatorships 1918-1945 Stephen J. Lee,2012-11-12 European Dictatorships 1918 1945 surveys the extraordinary circumstances leading to and arising from the transformation of over half of Europe s states to dictatorships between the first and the second World Wars It describes the course of dictatorship in Europe before and during the Second World War and examines the phenomenon of dictatorship itself and the widely different forms it can take From the notorious dictatorships of Mussolini Hitler and Stalin to less well known states and leaders this book scrutinizes the experiences of Russia Germany Italy Spain and Portugal and Central and Eastern European states This third edition has been revised throughout to include recent historical research and contains a completely new chapter on the meaning of dictatorship Including new tables maps and diagrams this is the perfect survey for all students of the period To view the companion website please visit www.routledge.com/textbooks/9780415454858

Legal Form and the End of Law Cosmin Cercei,Gian-Giacomo Fusco,Przemyslaw Tacik,2024-10-14 Following the 100th anniversary of Pashukanis General Theory of Law and Marxism 1924 this volume aims to breathe new life into the main category of Pashukanian legacy the concept of legal form This book offers new deeper and more general ways in which the concept of legal form can be used to push forward Marxist post Marxist or hauntingly Marxist legal theory Accordingly this book does not pledge allegiance to reconstructing and

reconsidering the official interpretative legacy of the legal form. Instead it mobilises the revolutionary conceptual potentialities that this term contains. When investigated thoroughly and in many dimensions the legal form becomes a privileged vantage point not only into the greatest law related riddles of Marxism such as the relation between economy and the state or withering away of statal apparatuses but the whole of modernity as the epoch determined by if not overlapping with capitalism. This book aims to think with the legal form rather than explain this concept. In so doing it offers a panoply of theoretical perspectives that address legal subjectivity, abstraction, autonomy of the law and last but not least withering away of the law. This contemporary interrogation of the relevance of the concept of legal form will be of considerable interest to scholars and students of legal and political theory.

Dictatorship Dimitrios Kivotidis, 2021-02-23. This book analyses the institution and concept of dictatorship from a legal, historical and theoretical perspective, examining the different types of dictatorship, their relationship to the law as well as the analytical value of the concept in contemporary world. In particular it seeks to codify the main theories and conceptions of dictatorship with the goal of unearthing their contradictions. The book's main premise is that the concept of dictatorship and the different types of the dictatorial form have to be assessed and can only be understood in their historical context. On this basis the elaborations on dictatorship of such diverse thinkers as Carl Schmitt, Donoso Cortes, Karl Marx, Ernst Fraenkel, Franz Neumann, Nicos Poulantzas and V. I. Lenin are discussed in their historical context: classical and Caesaristic dictatorship in ancient Rome; dictatorship in revolutionary France of 1789 and counterrevolutionary France of 1848; fascist dictatorship in Nazi Germany and dictatorship of the proletariat in Russia of 1917. The book contributes to the theory of dictatorship as it outlines the contradictions of the different typologies of the dictatorial form and seeks to explain them on the basis of the concept of class dictatorship. The book's original claim is that the dictatorial form as a modality of class rule that relies predominantly on violence and repression has been essential to the reproduction of bourgeois rule and consequently of capitalist social relations. This function has given rise to different types and conceptualisations of dictatorship depending on the level of capitalist development. This book is addressed to anyone with an interest in law, political theory, political history and sociology. It can serve as core text for courses that seek to introduce students to the institution or theory of dictatorship. It may also serve as a reference text for post graduate programs in law and politics because of its interdisciplinary and critical approach.

The New Labor Radicalism and New York City's Garment Industry Leigh David Benin, 2019-02-21. First published in 2000. This study examines how Progressive Labor, an antirevisionist offshoot of the Communist Party USA, attempted to revolutionize the labor front in New York City's garment industry during the 1960s. An ideologically driven group whose founders were loyal to Stalinism and attracted by Maoism, Progressive Labor set out in 1962 to become the vanguard of the American working class.

The New Underworld Order: Triumph of Criminalism, the Global Hegemony of Masonic Intelligence Christopher Story, 2006.

Historical Dictionary of Marxism Elliott Johnson, David Walker, Daniel Gray, 2014-09-09. The second edition of the Historical Dictionary

of Marxism covers of the basics of Karl Marx s thought the philosophical contributions of later Marxist theorists and the extensive real world political organizations and structures his work inspired that is the myriad political parties organizations countries and leaders who subscribed to Marxism as a creed This text includes a chronology an introductory essay and an extensive bibliography The dictionary section has over 500 cross referenced entries on important personalities both thinkers and doers political parties and movements and major communist or ex communist countries This book is an excellent access point for students researchers and anyone wanting to know more about Marxism *Major Legal Systems in the World Today* René David, John E. C. Brierley, 1978 A significant introduction to the study of comparative law and a notable scholarly work Major Legal Systems in the World Today analyzes the general characteristics which lie behind the development of the four principal legal systems of the world the Civil law the Common law the Socialist law primarily Soviet and those based on religious or philosophical principles Muslim Hindu Chinese Japanese and African Providing unique insights into the spirit of each legal family the book presents a total view of the historical foundation and the sources and structure of the law in each system China's Legal Awakening Carlos Wing-hung Lo, 1995-07-01 After decades of nihilistic rule under Mao Zedong can legal order be restored in China How successful is Deng Xiaoping s initiative in developing a socialist legal system Where is China on its road to the rule of law This book illustrates through the analysis of more than two hundred criminal cases selected from Minzhu yu fazhi Democracy and the Legal System in the period 1979 89 that the establishment of a formal criminal justice system and the development of an embryonic socialist theory of law in China reflect a genuine and widespread legal awakening A rudimentary legal culture has taken hold among Party leaders cadres judicial personnel intellectuals and the general public Nevertheless the contradiction between legal order and Party supremacy remains as demonstrated by the June Fourth incident in Beijing and the ensuing trials of the 1989 dissidents **Rediscovering Fire** Guinevere Liberty Nell, 2010 In this book Guinevere Liberty Nell visits this historical laboratory of social science to study the lessons in basic economics that it teaches Nell observes that the founders of the Soviet experiment Lenin and other Bolshevik leaders wrote volumes of articles and books on Marxist theory and then proceeded to enact the very policies that they promised Therefore the Soviet experiment provides an ideal lens through which to view the consequences of various interpretations of economic theories and Marxist theories However despite the wealth of information available on the Soviet experiment few writers have closely analyzed this historical process and what lessons it might offer for market economies In this book Nell carefully considers Soviet theory and practice and draws out the lessons that Soviet planners learned Each chapter considers one theory the experience in the Soviet Union of policies based on this theory and the reforms that planners implemented as the system evolved as well as in response to changes in the local and international conditions and the lessons for market economies that this experience offers Nell s lessons capture the dynamic nature of the economy and illustrate insights from the debate between socialists and Austrian economists They should be useful and informative not only

for readers interested in basic economics but also for economists interested in heterodox approaches to economic modeling and theory as well as for the citizen interested in rethinking the assumptions underlying mainstream policy debates

A Treatise of Legal Philosophy and General Jurisprudence Enrico Pattaro, Corrado Roversi, 2016-07-13

A Treatise of Legal Philosophy and General Jurisprudence is the first ever multivolume treatment of the issues in legal philosophy and general jurisprudence from both a theoretical and a historical perspective. The work is aimed at jurists as well as legal and practical philosophers. Edited by the renowned theorist Enrico Pattaro and his team, this book is a classical reference work that would be of great interest to legal and practical philosophers as well as to jurists and legal scholars at all levels. The work is divided in two parts. The theoretical part, published in 2005, consisting of five volumes, covers the main topics of the contemporary debate. The historical part, consisting of six volumes, Volumes 6-8 published in 2007, Volumes 9 and 10 published in 2009, Volume 11 published in 2011, and Volume 12 forthcoming in 2016, accounts for the development of legal thought from ancient Greek times through the twentieth century.

Volume 12: Legal Philosophy in the Twentieth Century: The Civil Law World. Volume 12 of A Treatise of Legal Philosophy and General Jurisprudence, titled Legal Philosophy in the Twentieth Century: The Civil Law World, functions as a complement to Gerald Postema's volume 11, titled Legal Philosophy in the Twentieth Century: The Common Law World, and it offers the first comprehensive account of the complex development that legal philosophy has undergone in continental Europe and Latin America since 1900. In this volume, leading international scholars from the different language areas making up the civil law world give an account of the way legal philosophy has evolved in these areas in the 20th century, the outcome being an overall mosaic of civil law legal philosophy in this arc of time. Further, specialists in the field describe the development that legal philosophy has undergone in the 20th century by focusing on three of its main subjects: namely, legal positivism, natural law theory, and the theory of legal reasoning, and discussing the different conceptions that have been put forward under these labels. The layout of the volume is meant to frame historical analysis with a view to the contemporary theoretical debate, thus completing the Treatise in keeping with its overall methodological aim, namely, that of combining history and theory as a necessary means by which to provide a comprehensive account of jurisprudential thinking.

Thank you for reading **Soviet Political Thought An Anthology**. Maybe you have knowledge that, people have search numerous times for their favorite novels like this Soviet Political Thought An Anthology, but end up in infectious downloads. Rather than enjoying a good book with a cup of coffee in the afternoon, instead they are facing with some infectious virus inside their desktop computer.

Soviet Political Thought An Anthology is available in our digital library an online access to it is set as public so you can get it instantly.

Our book servers saves in multiple locations, allowing you to get the most less latency time to download any of our books like this one.
