legislation adopted within the CIS framework makes to the process of legal reform and voluntary legal harmonization

occasion of the author's 65th birthday and the 40th anniversary of his publishing debut **Crime and Punishment in Soviet Officialdom** William A. Clark, 1993 This study of official corruption and the politics of anti corruption campaigns offers a comprehensive empirical comparative and theoretical analysis of this phenomenon as both system and symptom It highlights the structure impact and function of political elite corruption from 1965 1990 Moscow's Road to Nuremberg George Ginsburgs, 2023-07-24 Recent events in former Yugoslavia and Rwanda have revived diplomatic interest in measures contemplating concerted action directed at the suppression and punishment of war crimes Indeed steps have already been initiated to set up war crimes tribunals to prosecute those responsible for such atrocities Not to be outdone Yeltsin's Foreign Minister has also issued a call for public discussion of the idea of creating a system of international criminal justice with regard to crimes against peace and humanity other international violations of the law The precedents of the Second World War in this venue thus seem relevant once again Since the Soviet Union played a leading role in paving the way for the Nuremberg trial and respective proceedings before national tribunals and Russia as self proclaimed heir and successor to the USSR continues to exercise a great deal of influence in these matters today a look at Moscow's doctrinal and practical scorecard may prove useful for future reference The present study explores the Soviet regime's contribution to the prehistory of the Nuremberg trial i.e. the repertory of official acts and pronouncements as well as scholarly treatment of issues which ultimately shaped the legal complexion of the Nuremberg test Our focus in this case is on the mode of development of the style and substance of the bill of indictment until the day of the court's opening session from the standpoint of Moscow's stake in the operation The views recorded during the trial in primary or secondary sources or those expressed later are taken into account only if they shed light on the preparatory stages of the drama The subsequent evolution of Moscow's thoughts on the subject deserves a separate full scale analysis *Legal Change in Post-Communist States* Kaja Solomon, Peter Gadowska, 2019-09-30 Reformers had high hopes that the end of communism in Eastern Europe and the former Soviet Union would lead to significant improvements in legal institutions and the role of law in public administration However the cumulative experience of 25 years of legal change since communism has been mixed marked by achievements and failures advances and moves backward This book written by a team of socio legal scholars probes the nuances of this process and starts the process to explain them It covers developments across the former Soviet Union and Eastern Europe and it deals with both legal institutions courts and police and accountability to law in public administration including anti corruption activities In explaining their findings the authors probe the impact of such factors as the type of political regime democratic to authoritarian international influences such as the European Union and culture legal and political The volume's contributors are Mihaela Serban Kim Lane Scheppele Kriszta Kovacs Alexei Trochev Peter Solomon Olga Semukhina Maria Popova Vincent Post Marina Zaloznaya William Reisinger Vicki Hesli Claypool Kaja Gadowska and Elena Bogdanova
