Soviet Sources:

Reading Russian Sources George Gilbert, 2020-01-20 *Reading Russian Sources* is an accessible and comprehensive guide that introduces students to the wide range of sources that can be used to engage with Russian history from the early medieval to the late Soviet periods Divided into two parts the book begins by considering approaches that can be taken towards the study of Russian history using primary sources It then moves on to assess both textual and visual sources including memoirs autobiographies journals newspapers art maps film and TV enabling the reader to engage with and make sense of the burgeoning number of different sources and the ways they are used Contributors illuminate key issues in the study of different areas of Russia's history through their analysis of source materials exploring some of the major issues in using different source types and reflecting recent discoveries that are changing the field In so doing the book orientates students within the broader methodological and conceptual debates that are defining the field and shaping the way Russian history is studied Chronologically wide ranging and supported by further reading along with suggestions to help students guide their own enquiries *Reading Russian Sources* is the ideal resource for any student undertaking research on Russian history

Sources of Financing the Stages of the Research, Development, and Innovation Cycle in the U.S.S.R. Louvan E. Nolting, 1973 *The 1965 Western Hemisphere Agricultural Situation* Dewain H. Rahe, Frank Downer Barlow, Otis Halbert Goolsby, Susan Ariel Libbin, 1965 *ERS-foreign*, 1965 **Beyond Sovietology** Susan Gross Solomon, 2019-07-03 This volume a product of the Soviet Domestic Politics workshop sponsored by the Social Science Research Council marks an end and a new beginning The end of course is that of Sovietology now permanently overtaken by events The beginning encompasses not only a radical multiplication of subjects for analysis the post Soviet states but also the arrival of a new generation of scholars entering the field at its turning point As the essays in this collection demonstrate they bring fresh contemporary social scientific questions and methods to an unprecedentedly accessible universe of diverse social groups and societies once subsumed under the Soviet rubric Their work enriches not only post Soviet studies but the entire range of comparativist work in the social sciences Among the authors included here are Jane Dawson Ellen Hamilton Joel Hellman Mark Saroyan Joseph Schull and Michael Smith *Reports* United States Information Agency. Office of Research, 1976

Military Review, 1976 *Technical Report* Cold Regions Research and Engineering Laboratory (U.S.), 1950 *The Red Army and the Second World War* Alexander Hill, 2017 A major new account of the Soviet Union at war which charts the development successes and failures of the Red Army *The JAG Journal*, 1961 **Foreign Agricultural Economic Report**, 1961 *Stumbling Colossus* David M. Glantz, 1998 Drawing on evidence never before seen in the West including combat records of early engagements David Glantz claims that in 1941 the Red Army was poorly trained inadequately equipped ineptly organized and consequently incapable of engaging in large scale military campaigns and both Hitler and Stalin knew it He provides a complete and convincing study of why the Soviets almost lost the war that summer dispelling

many of the myths about the Red Army that have persisted since the war and soundly refuting Viktor Suvorov's controversial thesis that Stalin was planning a preemptive strike against Germany **Zhukov's Greatest Defeat** David M. Glantz, 1999

One of the least known stories of WWII was Operation Mars a Soviet operation designed to dislodge the German Army from its position west of Moscow This account of a catastrophe censored from postwar Soviet histories reveals key players and details major events using sources in German and Russian archives to reconstruct the historical context of Operation Mars and review the entire operation from High Command to platoon level Includes bandw photos and maps Annotation copyrighted by Book News Inc Portland OR *Foreign Economic Reports* Economic Analysis Bureau, 1973 The Road To Berlin John Erickson, 2019-07-11 This book traces Russian campaigns from the counterattack at Stalingrad to the fall of Berlin and the capture of Prague It explores in detail Stalin's wartime relations with Roosevelt and Churchill and examines the evolution of his policies toward Poland and the Balkans Northern European Overture to War, 1939-1941 , 2013-05-24

While the German invasion of Poland in September 1939 was a pivotal moment in European history and precipitated the outbreak of the Second World War western historiography has largely neglected Northern Europe Two questions dominated the course of events the Anglo German contest for control of the access to the Atlantic Ocean and the Soviet German contest for control of their former territories as a precursor to the future Total War they expected to wage against each other This anthology of 23 essays considers both these issues collectively and provides a new international perspective on the region's transition from the relative peace of the interwar era to the all out war following the German invasion of the Soviet Union in 1941 Contributors are Azar Gat Michael Epkenhans Andrew Lambert Tom Kristiansen Rolf Hobson Gunnar selius J rg Hillmann Werner Rahn S awomir D bski Ole Kristian Grimnes eslovas Laurinavi ius Alfred Erich Senn Lars Ericson Wolke Karl Erik Haug Boris Vadimovich Sokolov Toomas Hiio Magnus Ilmj rv Palle Roslyng Jensen Hans Christian Bjerg Valters erbinskis Michael H Clemmesen and Marcus Faulkner **The Myth of Triumphalism** Beth A. Fischer, 2019-12-03 This historical study dismantles the myth of Reagan's hardline victory and sheds light on his true diplomatic success in cooperation with Gorbachev Did President Reagan's hawkish policies destroy the Soviet Union and enable the United States to win the Cold War Many Americans believe this to be the case In this view known as triumphalism Reagan's denunciations of the evil empire and his military buildup compelled Moscow to admit defeat The president's triumph demonstrates that America's leaders should stand strong and threaten adversaries into submission Drawing on both US and Soviet sources this study demonstrates that triumphalism is based on a series of falsehoods about President Reagan's intentions his policies and the impact his administration had on the Soviet Union In reality the president's initially hardline posture undermined US interests and brought the superpowers to the brink of war Success only came when Reagan changed his approach to one of cooperation Together President Reagan and General Secretary Gorbachev were able to accomplish what no one at the time thought possible the peaceful conclusion of the Cold War The president's opposition to nuclear weapons his determined

leadership and his dedication to diplomacy are his most enduring legacies Papers Relating to the Foreign Relations of the
