

THE SOVIET TRANSITION: From Gorbachev to Yeltsin

edited by Stephen White,
Rita di Leo and
Ottorino Cappelli

Soviet Transition From Gorbachev To Yeltsin

Gordon M. Hahn

Soviet Transition From Gorbachev To Yeltsin:

The Soviet Transition Stephen White, Rita Di Leo, Ottorino Cappelli, 1993 Scholars from eastern and western Europe and North America help to analyze the transformation of the Evil Empire into the Circus Bear in 14 papers from an April 1992 conference in Naples Gorbachev and Yeltsin as Leaders George W. Breslauer, 2002 Gorbachev and Yeltsin as Leaders also compares these men with Khrushchev and Brezhnev yielding new insight into the nature of Soviet and post Soviet politics and into the dynamics of transformational leadership more generally The book is an important contribution to the analysis and evaluation of political leadership It is well written and accessible to the nonspecialist Jacket *Special issue: the Soviet transition: from Gorbachev to Yeltsin* Stephen White, 1993 **Gorbachev, Yeltsin, and Putin** Archie Brown, 2013-01-25 This volume analyzes various aspects of the political leadership during the collapse of the Soviet Union and formation of a new Russia Comparing the rule of Mikhail Gorbachev Boris Yeltsin and Vladimir Putin the book reflects upon their goals governing style and sources of influence as well as factors that influenced their activities and complicated them too Contents Introduction Archie Brown Transformational Leaders Compared Mikhail Gorbachev and Boris Yeltsin Archie Brown Evaluating Gorbachev and Yeltsin as Leaders George W Breslauer From Yeltsin to Putin The Evolution of Presidential Power Lilia Shevtsova Political Leadership and the Center Periphery Struggle Putin's Administrative Reforms Eugene Huskey Conclusion Lilia Shevtsova Russia--lost in Transition Lilia Shevtsova, 2007 Russian history is first and foremost a history of personalized power As Russia startles the international community with its assertiveness and faces both parliamentary and presidential elections Lilia Shevtsova searches the histories of the Yeltsin and Putin regimes She explores within them conventional truths and myths about Russia paradoxes of Russian political development and Russia's role in the world Russia Lost in Transition discovers a logic of government in Russia a political regime and the type of capitalism that were formulated during the Yeltsin and Putin presidencies and will continue to dominate Russia's trajectory in the near term Looking forward as well as back Shevtsova speculates about the upcoming elections as well as the self-perpetuating system in place the legacies of Yeltsin and Putin and how it will dictate the immediate political future She also explores several scenarios for Russia's future over the next decade A History Of Russia Volume 2 Walter G. Moss, 2004-10-01 Moss has significantly revised his text and bibliography in this second edition to reflect new research findings and controversies on numerous subjects He has also brought the history up to date by revising the post Soviet material which now covers events from the end of 1991 up to the present day This new edition retains the features of the successful first edition that have made it a popular choice in universities and colleges throughout the US Canada and around the world **The Struggle for Russia** Boris Nikolayevich Yeltsin, Catherine A. Fitzpatrick, 1995 The Russian president provides an inside account of the fall of Soviet communism and Russia's turbulent and difficult journey toward democracy

Russia's Revolution from Above 1985-2000 Gordon M. Hahn, Relying on a wealth of detailed institutional policy and

elite information Hahn presents a magisterial study that fills a significant void in our understanding of USSR's destruction. While readers may at times feel overwhelmed, readers are presented with a conceptual approach that can be useful for appreciating ongoing institutional changes and often subtle elite maneuverings in the post-Soviet era. John P. Willerton, University of Arizona. This is a big book in all respects, weighty both in size and scholarship. The core is a meticulous analysis of the perestroika period of the Soviet Union, 1985-91. Followed by a concluding general chapter that applies the earlier analysis to post-Communist Russia, 1992-2000. The work is based on years of painstaking analysis, considerable archival research, and numerous interviews. *The Russian Review*. This is an important book with a number of substantive strengths. *Slavic Review*. The fall of the Soviet communist regime in 1991 offers a challenging contrast to other instances of democratic transition and change in the last decades of the twentieth century. The 1991 revolution was neither a peaceful revolution from below as occurred in Czechoslovakia nor a negotiated transition to democracy like those in Poland, Hungary, or Latin America. It was not primarily the result of social modernization, the rise of a new middle class, or of national liberation movements in the non-Russian union republics. Instead, as Gordon Hahn argues, the Russian transformation was a bureaucrat-led, state-based revolution managed by a group of Communist Party functionaries who won control over the Russian Republic (RSFSR) in the mid-1990s. Hahn describes how opportunistic Party and state officials led by Boris Yeltsin defected from the Gorbachev camp and proceeded in 1990-91 to dismantle the institutions that bound state and party. These revolutionaries from above seized control of political, economic, natural, and human resources and then separated the party apparatus from state institutions on Russian Republic territory. With the failed August 1991 hard-line coup, Yeltsin banned the Communist Party and decreed that all Union state organs, including the KGB and military, were under RSFSR control. In Hahn's account, this mode of revolutionary change from above explains the troubled development of democracy in Russia and the former Soviet republics. Hahn shows how limited mobilization of the masses stunted the development of civil societies and the formation of political parties and trade unions with real grass roots. The result is a weak society unable to nudge the state to concentrate on institutional reforms society needs for the development of a free polity and economy. *Russia's Revolution from Above* goes far in correcting the historical record and reconceptualizing the Soviet transformation. It should be read by historians, economists, political scientists, and Russia area scholars. Gordon M. Hahn is visiting scholar at the Hoover Institution, Stanford University. His articles on Soviet and Russian politics have appeared in *Europe Asia Studies*, *Problems of Post Communism*, *Russian Review*, and *Russian History*. *Histoire Russe*. **Intermarium** Marek Jan Chodakiewicz, 2017-09-08. History and collective memories influence a nation, its culture, and institutions; hence its domestic politics and foreign policy. That is the case in the Intermarium, the land between the Baltic and Black Seas in Eastern Europe. The area is the last unabashed rampart of Western Civilization in the East and a point of convergence of disparate cultures. Marek Jan Chodakiewicz focuses on the Intermarium for several reasons. Most importantly, because as the inheritor of the freedom and rights stemming from the

legacy of the Polish Lithuanian Ruthenian Commonwealth it is culturally and ideologically compatible with American national interests It is also a gateway to both East and West Since the Intermarium is the most stable part of the post Soviet area Chodakiewicz argues that the United States should focus on solidifying its influence there The ongoing political and economic success of the Intermarium states under American sponsorship undermines the totalitarian enemies of freedom all over the world As such the area can act as a springboard to addressing the rest of the successor states including those in the Caucasus Central Asia and the Russian Federation Intermarium has operated successfully for several centuries It is the most inclusive political concept within the framework of the Commonwealth By reintroducing the concept of the Intermarium into intellectual discourse the author highlights the autonomous and independent nature of the area This is a brilliant and innovative addition to European Studies and World Culture

Leadership Transition in a Fractured Bloc Woodrow Wilson International Center for Scholars,1998 *The Great Transition* Raymond L. Garthoff,2000-07-26 Raymond L Garthoff examines the fateful final decade of U S Soviet relations from the start of the Reagan administration in 1981 through the end of the Soviet era the collapse of the communist bloc the end of Gorbachev s failed perestroika and the demise of the Soviet Union itself at the end of 1991 While standing on its own the book is a sequel to the author s earlier acclaimed *Détente and Confrontation American Soviet Relations from Nixon to Reagan* which covers the period 1969-1980 This volume features a detailed examination of the perspectives and actions of both the United States and the Soviet Union and their interaction including the interrelationships of domestic factors with foreign and security policies in both countries and the involvement of both powers with other countries around the world which infringed on their direct relationship Besides analyzing the turn from confrontation to détente over the years of the Reagan and Bush administrations and Brezhnev through the Gorbachev administration it reflects on the significance of the great transition from the cold war to a new era It thus illuminates the very relevant recent history that underlines and informs American Russian relations and the new situation of a post Soviet post cold war world Garthoff has obtained access to many formerly secret Soviet documents on this period in the Russian archives as well as to a number of official American documents that have only recently been declassified In addition he has been able to interview and discuss the issues with many active or former Soviet and American officials The author concludes that the key development was the advent of a Soviet leader Mikhail Gorbachev who recognized the need to cast off a failed world view and to end the cold war and who successfully moved with the United States under the Reagan and Bush administrations and others to achieve that goal notwithstanding his failure in the parallel attempt to revitalize and transform the Soviet Union Selected by Choice as an Outstanding Book of 1994 *Russia's Stillborn Democracy?* Graeme J. Gill,Roger D. Markwick,2000-03-23 The decade and a half since Gorbachev came to power has been a tumultuous time for Russia It has seen the expectations raised by perestroika dashed the collapse of the Soviet superpower and the emergence of a new Russian state claiming to base itself on democratic market principles It has seen a political system shattered by a president

turning tanks against the parliament and then that president configuring the new political structure to give himself overwhelming power These upheavals took place against a backdrop of social dislocations as the Russian people were ravaged by the effects of economic shock therapy This book explains how these momentous changes came about and in particular why political elites were able to fashion the new political system largely independent of the wishes of the populace at large It was this relationship between powerful elites and weak civil society forces which has led to Russian democracy under Yeltsin being still born

On My Country and the World Mikhail Gorbachev, 2019-12-24 Here is the whole sweep of the Soviet experiment and experience as told by its last steward Drawing on his own experience rich archival material and a keen sense of history and politics Mikhail Gorbachev speaks his mind on a range of subjects concerning Russia's past present and future place in the world Here is Gorbachev on the October Revolution Gorbachev on the Cold War and Gorbachev on key figures such as Lenin Stalin and Yeltsin The book begins with a look back at 1917 While noting that tsarist Russia was not as backward as it is often portrayed Gorbachev argues that the Bolshevik Revolution was inevitable and that it did much to modernize Russia He strongly argues that the Soviet Union had a positive influence on social policy in the West while maintaining that the development of socialism was cut short by Stalinist totalitarianism In the next section Gorbachev considers the fall of the USSR What were the goals of perestroika How did such a vast superpower disintegrate so quickly From the awakening of ethnic tensions to the inability of democrats to unite to his own attempts to reform but preserve the union Gorbachev retraces those fateful days and explains the origins of Russia's present crises But Gorbachev does not just train his critical eye on the past He lays out a blueprint for where Russia needs to go in the twenty first century suggesting ways to strengthen the federation and achieve meaningful economic and political reforms In the final section of the book Gorbachev examines the new thinking in foreign policy that helped to end the Cold War and shows how such approaches could help resolve a range of crises including NATO expansion the role of the UN the fate of nuclear weapons and environmental problems On My Country and the World reveals the unique vision of a man who was a powerful actor on the world stage and remains a keen observer of Russia's experience in the twentieth century This anniversary edition features a new foreword by William Taubman award winning biographer of Khrushchev and Gorbachev

Russia's Transition to Democracy G D G Murrell, 1996-01-01 A concise account of the collapse of the USSR and the turbulent first years of Yeltsin's Russia

Russia at War Timothy C. Dowling, 2014-12-02 This easy to use reference explores the people and events that shaped Russian military history and impacted Europe Asia and the world over the past eight centuries Russian military history is an often overlooked field Yet Russia is and has long been an important player in global politics and its military exploits have been central to its role on the world stage This study of Russia's military past provides insights into European and U S history including the conduct of the two World Wars and the Cold War and will help readers better appreciate the current geopolitical situation This work covers major events and figures in Russian military history from the end of Mongol

domination in the 14th century to the present day More than 650 entries by scores of expert contributors detail events individuals organizations and ideas that have influenced Russian warfare over 800 years Two alphabetically arranged volumes explore such conflicts as the Russo Polish Wars the Great Northern War the Russo Turkish Wars the Napoleonic Wars the Crimean War the Russo Japanese War World War I World War II and the Cold War including the Soviet invasion of Afghanistan Cross references and further readings in each entry serve as jumping off points for further exploration **A**

History of the Soviet Union from the Beginning to the End Peter Kenez,2006-05-01 An examination of political social and cultural developments in the Soviet Union The book identifies the social tensions and political inconsistencies that spurred radical change in the government of Russia from the turn of the century to the revolution of 1917 Kenez envisions that revolution as a crisis of authority that posed the question Who shall govern Russia This question was resolved with the creation of the Soviet Union Kenez traces the development of the Soviet Union from the Revolution through the 1920s the years of the New Economic Policies and into the Stalinist order He shows how post Stalin Soviet leaders struggled to find ways to rule the country without using Stalin s methods but also without openly repudiating the past and to negotiate a peaceful but antipathetic coexistence with the capitalist West In this second edition he also examines the post Soviet period tracing Russia s development up to the time of publication **Russia's Economic Transitions** Nicolas Spulber,2003-04-10

Russia s Economic Transitions examines the three major transformations that the country underwent from the early 1860s to 2000 The first transition under Tsarism involved the partial break up of the feudal framework of land ownership and the move toward capitalist relations The second following the Communist revolution of 1917 brought to power a system of state ownership and administration a sui generis type of war economy state capitalism subjecting the economy s development to central commands The third started in the early 1990s and still unfolding is aiming at reshaping the inherited economic fabric on the basis of private ownership The three transitions originated within different settings but with a similar primary goal namely the changing of the economy s ownership pattern in the hopes of providing a better basis for subsequent development The treatment s originality impartiality and historical breadth have cogent economic social and political relevance *Russia's Workers in Transition* Paul Thomas Christensen,1999 How is it that the Soviet superpower became the economically dependent Russia of the late 1990s Based upon archival research and extensive fieldwork this study compares the policies of Gorbachev and Yeltsin as each attempted to come to grips with the Soviet economic legacy Russia s Workers in Transition will spark spirited debate among those interested in Soviet and Russian history and politics labor policy and democratic transitions **BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved**

Russian Leaders Alexander Dragomiroff,2002 Russian Leaders A Bibliography With Indexes Radical Reform in Yeltsin's Russia Julie Nelson,Irina Y. Kuzes,2016-09-16 This work examines the political and organizational factors that have shaped Russian economic reforms since the demise of the Soviet Union The author draws on a variety of sources including

interviews conducted in Ekaterinburg Voronezh and Smolensk to present a multilayered portrait of the successes failures and unintended consequences of the reforms The book covers the consequence of dissolving the USSR and Russia s role in the CIS political transition economic reform assessment of the political and social implications of neo liberal monetarism and of the voucher privatisation programme and both regional and federal structures and processes
