Soviet East European Relations Consolidation And Conflict 1968 1980:

Soviet-East European Relations Robert L. Hutchings,1987 **Soviet-East European Relations** Robert L. Hutchings,1987 **Continuity And Change In Soviet-east European Relations** Marco Carnovale,2019-04-10 This book is originated from the 1985 Rome conference on Soviet East European Relations Implications for the West which explored the elements of continuity and change especially the trends in intra Warsaw Pact relations It contains revised versions of the papers presented at the conference **Soviet-East European Relations as a Problem for the West** Richard D. Vine,2022-12-28 Soviet East European Relations as a Problem for the West 1987 analyses the evolution of Eastern Europe both internally and in its relationship with the Soviet Union the development of relations between the two superpowers and the equilibrium between the two security systems It examines how these changes have altered Western policy options how internal Western frictions arising from differing interpretations of these developments can best be managed and the most appropriate future policies both to achieve Western goals and to benefit Eastern Europe *The Rise and Fall of the Brezhnev Doctrine in Soviet Foreign Policy* Matthew J. Ouimet,2003-01-01 Ouimet argues that the now famous reforms of Soviet bloc policy of the mid 1980s were not the instigation but rather the climax of a fundamental transformation in Soviet policy toward Eastern Europe that had its origins in the Brezhnev era **Soldiers and Politics in Eastern Europe, 1945-90** Zoltan D. Barany,1993-07-27 *The Soviet Concept of 'Limited Sovereignty' from Lenin to Gorbachev* Robert A. Jones,2016-07-27 The book examines the origins development and contemporary significance of the Soviet doctrine of limited sovereignty Brezhnev Doctrine with particular reference to the Doctrine s implications for the Soviet Union s relations with Eastern Europe The author identifies and considers the multiple functions served by the Soviet Union s essentially dualistic or bi axial approach to sovereignty which embraces notions derived from both general international law and from Soviet Marxist Leninist doctrine The book also includes a comparative analysis of the US Monroe Doctrine The author argues that although in the Gorbachev era of new thinking the Soviet doctrine of sovereignty may be developing a third axis Western predictions of the imminent or actual demise of the Brezhnev Doctrine are premature **The Sovietization of Eastern Europe** Balzs Apor,Péter Apor,Rees E. A.,2008-04-21 This essay anthology offers enlightening perspectives on how East Central Europe was transformed into the other Europe during the Cold War era When the Second World War ended a new conflict arose between world powers jockeying for supremacy The Soviet Union pursued a policy of exporting its system of government in a process known as sovietization But there were also governments that sought to adopt a Soviet way of life on their own accord Dictated by ideological imperatives both styles of sovietization employed socialist strategies of state and nation building This volume not only examines the imposition of new forms of government but also the socialist response to modernity as reflected in approaches to new technology and management consumption and leisure patterns religious and educational policy political rituals and attitudes to the past The essays explore the diversity and the tensions within the

sovietization process in the countries of the region This collection is a bold and timely attempt at shedding light on a rather insufficiently researched topic the diverse approaches ranging from socio cultural and economic history to psycho history Dr Dragos Petrescu University of Bucharest Grenada And Soviet/Cuban Policy Jiri Valenta,2019-03-05 The turmoil in the Caribbean and Central America does not have a single cause it results from both indigenous factors and outside intervention Some liberals see revolution as the result of poverty and injustice and ignore the East West security dimensions of the problem the role of Leninist ideology and the actions of the Soviet Union and its a A Companion to Europe Since 1945 Klaus Larres,2014-01-07 A Companion to Europe Since 1945 provides a stimulating guide to numerous important developments which have influenced the political economic social and cultural character of Europe during and since the Cold War Includes 22 original essays by an international team of expert scholars Examines the social intellectual economic cultural and political changes that took place throughout Europe in the Cold War and Post Cold War periods Discusses a wide range of topics including the Single Market European American relations family life and employment globalization consumption political parties European decolonization European identity security and defence policies and Europe s fight against international terrorism Presents Europe in a broad geographical conception to give equal weighting to developments in the Eastern and Western European states East Central Europe Lawrence D. Orton,1989 **Cold War Cultures** Annette Vowinckel,Marcus M. Payk,Thomas Lindenberger,2012-03-01 The Cold War was not only about the imperial ambitions of the super powers their military strategies and antagonistic ideologies It was also about conflicting worldviews and their correlates in the daily life of the societies involved The term Cold War Culture is often used in a broad sense to describe media influences social practices and symbolic representations as they shape and are shaped by international relations Yet it remains in question whether or to what extent the Cold War Culture model can be applied to European societies both in the East and the West While every European country had to adapt to the constraints imposed by the Cold War individual development was affected by specific conditions as detailed in these chapters This volume offers an important contribution to the international debate on this issue of the Cold War impact on everyday life by providing a better understanding of its history and legacy in Eastern and Western Europe The Warsaw Pact and Nuclear Nonproliferation, 1963-1965 Douglas Eugene Selva,2001 **The Soviet Union under Gorbachev (Routledge Revivals)** David A. Dyker,2013-09-13 Gorbachev s accession to General Secretary promised great changes to the Soviet Union and its relationship with the rest of the world This book first published in 1987 discusses the problems faced by Gorbachev when he entered office and how he planned to tackle them Gorbachev was a figure of genuine debate in the mid 1980s raising doubts from Western specialists regarding his radicalism and ability to reform the Soviet economic system in particular Here Dyker and his colleagues assess the changes Gorbachev had already made to consolidate his power base alongside those that he was proposing to make to agriculture industry and foreign relations at the time of publication The book speculates about how

Gorbachev might implement his proposed political and economic reforms what opposition he might encounter and how successful he would be A fascinating insight into Soviet economic and political policy in the years leading up to the Union's collapse this work will be of particular importance to students and academics researching the personality of Gorbachev and the political and economic history of the Soviet Union Khrushchev and Khrushchevism Martin McCauley,1987-05-01

Soviet Society And Culture Terry L Thompson,Richard Sheldon,Edward J Brown,Michael P Sacks,2019-07-11 Academic analysis has not always kept pace with the dramatic changes that have occurred in the USSR since Stalin's time for objective study has often been overshadowed especially in the 1980s by publicity concerning the negative aspects of the Evil Empire Recently however because of reforms initiated by Gorbachev the dynamics of the Soviet system have come into sharper focus This book provides a wide ranging detailed view of economic social ideological and literary aspects of the Soviet system leading up to the Gorbachev era The essays include both historical and contemporary perspectives on the sources of stability and stagnation in the post Stalin years Examining the intricate fabric of Soviet society the contributors provide insights into the social and cultural motivations for Gorbachev's restructuring policies Their themes echo the work of Vera S Dunham who for more than four decades has focused on diverse aspects of Soviet society and culture particularly on the noncoercive means of social control that have often been overlooked but that are a vital component of the Soviet system **From**

German Königsberg to Soviet Kaliningrad Jamie Freeman,2020-11-10 This book explores how the Soviet Union after capturing and annexing the German East Prussian city of Königsberg in 1945 and renaming it Kaliningrad worked to transform the city into a model of Soviet modernity It examines how the Soviets expelled all the remaining German people repopulated the city and region with settlers from elsewhere in the Soviet Union destroyed the key remaining German buildings and began building a model Soviet city a physical manifestation of the societal transformation brought about by communism However the book goes on to show that over time many of the model Soviet buildings were uncompleted and that the citizens aware of their Polish and Lithuanian neighbours to both the east and the west and appreciating their place in the wider Baltic region came to view themselves as something different from other Soviet and Russian citizens The book concludes by assessing present developments as the people of Kaliningrad are increasingly rediscovering the city's pre Soviet past and forging a new identity for themselves on their own terms **Mastering Twentieth-Century Russian History**

Norman Lowe,2020-08-29 Mastering Twentieth Century Russian History presents a vivid and informative account of the events which befell the Russian people during the course of the twentieth century Explores the major developments of the last century from the revolution of 1905 to the First and Second World Wars to the Cold War and the rise and fall of the USSR Examines key figures and their actions from Nicholas II Lenin Trotsky Stalin Khrushchev Brezhnev Gorbachev and Yeltsin to Putin Deals with events right up to 2000 enabling the Soviet experiment to be placed in context a decade after its collapse Incorporates the latest research from British American and Russian historians examining key controversies and

debates Includes primary source material maps photographs posters and a full chronology of events This text is the ideal companion for anyone seeking a clear yet detailed introduction to the fascinating events of twentieth century Russian history

Ideology and National Identity in Post-communist Foreign Policy Rick Fawn, 2004-03-01 A comparative analysis of the foreign policies of eight post communist states which considers the extent to which official communist ideology has been replaced by nationalism and establishes how these states express their national identities through foreign policy **Eastern Europe Bibliography** , 1993 A selective work that documents the formative impact of the region s earlier history Includes reference aids and bibliographies general and descriptive histories of the land peoples and economies and works depicting intellectual and cultural life
