Essays on some of the difficulties in the writings of the Apostle Paul, and in other parts of the New Testament Richard Whately, 1854 The Life and Thought of Filaret Drozdov, 1782-1867 Nicholas S. Racheotes, 2018-10-25 The Life and Thought of Filaret Drozdov 1782 1867 The Thorny Path to Sainthood is an intellectual biography of the foremost historical figure in the religious world of nineteenth century Russia The product of decades of archival research most of which was in the Russian language this is the first book length study of St Filaret in English The volume is designed for specialists engaged in imperial Russian history students in upper level undergraduate or graduate courses and for readers interested in Eastern Orthodox spirituality and observers of the contemporary Russian scene who wish to understand traditional church state relations Deeply researched and including a formidable bibliographic component the volume also serves as a reference guide to scholars desiring to study at greater length one of the many topics raised Racheotes argues that Filaret was far more than a neo patristic theologian steeped in the tradition of the Eastern fathers He was simultaneously a valued monarchical apologist and a guardian of the privileges of the Russian Orthodox Church to the point of subtly resisting the state By means of translation select passages from sermons letters and official reports are available in English for the first time Often preaching before three reigning tsars writing or editing such monumental documents as Alexander I s will and Alexander II s decree emancipating the Russian serfs leading the drive for a Russian translation of the Bible and preparing Orthodox catechisms are but a few examples of St Filaret s historical importance His centrality to policy formation with respect to the so called Old Believers his incessant campaigns for clerical education reform and for translation into Russian of the seminal works of Eastern theologians account for the enduring influence attributable to this Archbishop Today his pronouncements are enjoying a revival among a new generation of religious historians in Russia and are often adduced by a host of contemporaries arguing for Russian exceptionalism *Elenchus bibliographicus biblicus of Biblica*, 1984 **Further Essays in Early Roman Liturgy** Geoffrey Grimshaw Willis, 1964 Handbook of Religious Culture in Nineteenth-Century Europe Anthony Steinhoff, Jeffrey Zalar, 2024-12-30 This handbook offers a guide to research on religious culture during Europe s long nineteenth century 1800 1914 Grounded in the latest theoretical approaches and in line with trends that have produced a religious turn in the study of modern Europe the volume assesses the state of the field

while making provocative recommendations for its enlargement Unique and ambitious in its thematic breadth it addresses the histories of all five of Europe's main religious traditions Eastern Orthodox Christianity Judaism Islam Protestantism and Roman Catholicism and brings these histories into comparative analysis This analysis extends to a wide range of subjects from popular belief and practice education and modern knowledge formation and the arts to the intersections between religion and urbanization civil society and politics and missions and imperialism It also evaluates recent developments in work on religion vis vis both gender and nationalism while calling attention to newer research that proposes secularism as a form of belief in its own right Presenting the scholarship of eighteen leaders in their respective fields the volume explains why religion as a topic of research has moved from the periphery to the center of modern European historiography
