**Ideology and Utopia** Karl Mannheim, 2013-07-04 Ideology and Utopia argues that ideologies are mental fictions whose function is to veil the true nature of a given society They originate unconsciously in the minds of those who seek to stabilise a social order Utopias are wish dreams that inspire the collective action of opposition groups which aim at the entire transformation of society Mannheim shows these two opposing elements to dominate not only our social thought but even unexpectedly to penetrate into the most scientific theories in philosophy history and the social sciences This new edition contains a new preface by Bryan S Turner which describes Mannheim's work and critically assesses its relevance to modern sociology The book is published with a comprehensive bibliography of Mannheim's major works Revelations of Ideology: Apocalyptic Class Politics in Early Roman Palestine Anthony Keddie, 2018-09-11 In Revelations of Ideology G Anthony Keddie proposes a new theory of the social function of Judaeo-apocalyptic texts produced in Early Roman Palestine 63 BCE 70 CE In contrast to evaluations of Jewish and early Christian apocalyptic texts as literature of the oppressed or literature of resistance against empire Keddie demonstrates that scribes produced apocalyptic texts to advance ideologies aimed at self-legitimation By revealing that their opponents constituted an exploitative class scribes generated apocalyptic ideologies that situated them in the same exploited class as their constituents Through careful historical and ideological criticism of the Psalms of Solomon Parables of Enoch Testament of Moses and Q source Keddie identifies an internally diverse tradition of apocalyptic class rhetoric in late Second Temple Judaism **Jews in a Graeco-Roman Environment** Margaret Williams, 2013 A collection of articles published previously **The Theory and Analysis of Drama** Manfred Pfister, 1988 Manfred Pfister's book is the first to provide a coherent comprehensive framework for the analysis of plays in all their dramatic and theatrical dimensions The material on which his analysis is based covers all genres and periods His approach is systematic rather than historical combining more abstract categorisations with detailed interpretations of sample texts **Text, Image, and Christians in the Graeco-Roman World** Aliou Cissé Niang, Carolyn Osiek, 2011-11-03 Twenty-four scholars join their efforts to congratulate David Lee Balch for a long career of dedication to scholarship and teaching Topics range from the life of early Christian house churches to the kinds of challenges that early Christians needed to negotiate in their artistic and literary worlds as they established their own identity Contributors Edward Adams Frederick E Brenk Warren Carter John R Clarke Everett Ferguson John T Fitzgerald Richard A Freund Ronald F Hock Robin M Jensen Davina C Lopez Margaret Y MacDonald Abraham J Malherbe Aliou Cisse Niang Peter Oakes Todd Penner Leo G Perdue Turid Karlsen Seim Dennis E Smith Yancy W Smith Stephen V Sprinkle Hal Taussig Oliver Larry Yarbrough **Jewish and Christian Communal Identities in the Roman World** Yair Furstenberg, 2016-06-21 Jews and Christians under the Roman Empire shared a unique sense of community Set apart from their civic and cultic surroundings both groups resisted complete

assimilation into the dominant political and social structures However Jewish communities differed from their Christian counterparts in their overall patterns of response to the surrounding challenges They exhibit diverse levels of integration into the civic fabric of the cities of the Empire and display contrary attitudes towards the creation of trans local communal networks The variety of local case studies examined in this volume offers an integrated image of the multiple factors both internal and external which determined the role of communal identity in creating a sense of belonging among Jews and Christians under Imperial constraints

**The Austrian Mind** William M. **The Alienated Mind (Routledge Revivals)** David Frisby, 2013-10-08 This book first published in 1983 with a second edition in 1992 investigates the emergence of the sociology of knowledge in Germany in the critical period from 1918 to 1933 These years witnessed the development of distinctive paradigms centred on the works of Max Scheler Georg Lukacs and Karl Mannheim Each theorist sought to confront the base superstructure models of the relationship between knowledge and society which originated in Orthodox Marxism David Frisby illustrates how these and other themes in the sociology of knowledge were contested through a detailed account of the central sociological debates in Weimar Germany This reissue of *The Alienated Mind* will be of particular interest to students and academics concerned with the development of an important tradition in the sociology of knowledge and culture social theory and German history

**Athletics and Literature in the Roman Empire** Jason König, 2005-04-21 From the first to third century AD Greek athletics flourished as never before This book offers exciting readings of those developments Drawing on a wide range of evidence it sheds light on practices of athletic competition and athletic education in the Roman Empire In addition it examines some of the ways in which athletic activity was represented within different texts and contexts Most importantly the book shows how discussion and representation of

athletics could become entangled with many other areas of cultural debate and used as a vehicle for many different varieties of authorial self presentation and cultural self scrutiny It also argues for complex connections between different areas of athletic representation particularly between literary and epigraphical texts It offers re interpretations of a number of major authors especially Lucian Dio Chrysostom Pausanias Silius Italicus Galen and Philostratus *The Aesthetics of Kinship* Heidi Schlipphacke,2023-01-13 The Aesthetics of Kinship intervenes critically into rigidified discourses about the emergence of the nuclear family and the corresponding interior subject in the eighteenth century By focusing on kinship constellations instead of family plots in seminal literary works of the period this book presents an alternative view of the eighteenth century literary social world and its concomitant ideologies Whereas Enlightenment and post Enlightenment philosophy and political theory posit the nuclear family as a microcosm for the ideal modern nation state literature of the period offers a far more heterogeneous image of kinship structures one that includes members of various classes and is not defined by blood Through a radical re reading of the multifarious kinship structures represented in literature of the long eighteenth century The Aesthetics of Kinship questions the inevitability of the dialectic of the Enlightenment and invokes alternative futures for conceptions of social and political life *The Holy Roman Empire and the Ottomans* Mehmet Sinan Birdal,2011-07-30 Charles V s Holy Roman Empire and Suleyman I s Ottoman Empire were the most significant empires of the early modern era Both rulers exercised global power as the leaders of the universal res publica Christiana and dar es Islam respectively both subject to exploits of lavishness extravagance and self indulgence with respect to their demonstrations of power and world dominance The most obvious example of this was Charles V s crowning as the Holy Roman Emperor by Pope Clement V which included a procession of 20 cardinals 400 papal guards and 300 knights as well as a commemorative painting by Parmigianino that depicted Charles being handed the globe by the infant Hercules while being crowned with laurel by Fame The modality of power reflective of aristocratic society and exhibited by both Charles V and Suleyman I is one of many different style of leadership and Mehmet Sinan Birdal here explores how these power modalities determine the performance of a state in foreign politics and the emergence of the dominant unit in the state system This book examines the Habsburgs and Ottomans transformation from medieval empires with claims of global domination to absolutist nations that recognized the sovereignty of others In fact the Austro Hungarian Empire and Austria s Enlightened Despotism developed from the Holy Roman Empire while the Ottoman Empire through modernization and reform became the present day Republic of Turkey Drawing upon the teachings of Habermas and the Frankfurt School as well as original historical sources Birdal uses the doctrine of legitimation as the theoretical basis for political authority in The Holy Roman Empire and the Ottomans creating a revisionist work that is an invaluable read for historians international relations specialists and political scientists alike

**Hellenistic and Roman Sparta** Paul Cartledge,Antony Spawforth,2020-09-23 In this new edition Paul Cartledge and Antony Spawforth have taken account of recent finds and scholarship to revise and update their authoritative overview of

later Spartan history and of the social political economic and cultural changes in the Spartan community This original and compelling account is especially significant in challenging the conventional misperception of Spartan decline after the loss of her status as a great power on the battlefield in 371 BC The book s focus on a frequently overlooked period makes it important not only for those interested specifically in Sparta but also for all those concerned with Hellenistic Greece and with the life of Greece and other Greek speaking provinces under non Roman rule     Sport in the Greek and Roman Worlds

Thomas Francis Scanlon,2014 From the Minoan bull leaping to the ancient Olympics and the enigmas of their contests this first volume of Sport in the Greek and Roman Worlds contains nine articles and chapters of enduring importance to the study of sport in ancient Greece a field located at a crucial intersection of social history archaeology literature and other aspects of Greek culture The studies have been updated with addenda by the original authors and two of the articles that were originally published in German or French have been translated into English here for the first time The studies selected for breadth and importance of historical topics include Greek sport in its epic heroic and Bronze Age origins the ancient Olympics in its relation to religion politics and diversity of competitors Greek events in track and field and equestrian events A companion second volume complements this one with studies on the social and economic aspects of Greek sport the role of Greek sport in the Roman era and forms functions and venues of Roman spectacles The articles in both volumes offer an excellent starting point to inspire newcomers to the study of ancient sport and to give students and scholars an informative set of models for present knowledge and future research
