Soziologie Des Sozialismus:

The Alienated Mind (Routledge Revivals) David Frisby, 2013-10-08 This book first published in 1983 with a second edition in 1992 investigates the emergence of the sociology of knowledge in Germany in the critical period from 1918 to 1933. These years witnessed the development of distinctive paradigms centred on the works of Max Scheler, Georg Lukács and Karl Mannheim. Each theorist sought to confront the base superstructure models of the relationship between knowledge and society which originated in Orthodox Marxism. David Frisby illustrates how these and other themes in the sociology of knowledge were contested through a detailed account of the central sociological debates in Weimar Germany. This reissue of *The Alienated Mind* will be of particular interest to students and academics concerned with the development of an important tradition in the sociology of knowledge and culture, social theory and German history. **Georg Simmel** Horst Jürgen

Helle, 2014-10-09 Georg Simmel is and will continue to be one of the most important authors for all the humanities. This is true because hardly anyone else has foreseen the enormous changes in culture, politics and in the social conditions in general that would occur in the course of the 20th century like he did. It is also true because he discovered a new way of thinking one which made this premonition of dramatic change possible. Georg Simmel ist und bleibt ein wichtiger Autor für den ganzen Bereich der Geisteswissenschaften. Nicht nur weil Simmel die gewaltigen kulturellen, politischen und allgemeinen sozialen Umwälzungen des zwanzigsten Jahrhunderts wie kaum ein anderer vorausgesehen hat, sondern auch weil er die Art zu denken entwickelt hat, ohne die eine Voraussicht nicht möglich war. Scientific Atheism in East Germany (1963-1990) Eva

Guigo-Patzelt, 2024-12-02 This book offers an in-depth archive-based analysis of scientific atheism focused on the development of the field in the German Democratic Republic (GDR). Scientific atheism was established as a Soviet import in 1963 at Jena University with a presence in East German universities, propaganda and politics for nearly 30 years. The chapters explore the sociological work done by scientific atheists such as Olof Klohr, how they defined religion and atheism and their role as actors of atheisation in various fields. As well as reflecting on the specific religious and political context in East Germany, the author makes comparison with other communist-ruled countries. Drawing on extensive and unique documentation, this book will be of interest to scholars of atheism and secularism, religion and politics, religious history, German history and East European studies. Einführung in den Jugoslawischen Marxismus-Leninismus L. Vrtacic, 2012-12-06 Die vorliegende Arbeit gehört zur Reihe der Untersuchungen über den Marxismus-Leninismus in den nicht sowjetischen kommunistischen Ländern Europas, welche im Auftrag des Osteuropa-Instituts an der Universität Freiburg/Schweiz in Angriff genommen sind. Im Gegensatz zu den früher veröffentlichten Werken handelt es sich jedoch nicht um eine vollständige Monographie, sondern um eine Vorarbeit. Sie besteht im wesentlichen in einer Bibliographie des jugoslawischen philosophischen Schrifttums seit 1945 und in einer

Übersicht sowohl des organisatorischen Rahmens als auch der Literatur. Der Verfasser bereitet jetzt auf Grund der hier zusammengefaßten Ergebnisse eine umfassende Monographie der genannten Art vor. Die Veröffentlichung erfolgt in der Hoffnung, daß diese meines Wissens erste und bisher einzige Einführung in den jugoslawischen Marxismus-Leninismus auch den anderen Forschern auf diesem Gebiet sowohl in Jugoslawien als auch im Ausland nützlich sein dürfte. Es ist für mich eine angenehme Pflicht, jenen Personen und Institutionen zu danken, ohne deren Hilfe dieses Buch nicht hätte geschrieben werden können. Ich danke dem Osteuropa-Institut der Universität Freiburg Schweiz für den Auftrag der Rockefeller Foundation, welche meine Arbeit großzügig unterstützt hat, der Schweizerischen Landesbibliothek in Bern, der Freiburger Universitätsbibliothek und der Bibliothek des Schweizerischen Osteuropa-Instituts in Bern für die Hilfe, die ich bei der Zusammenstellung der Bibliographie von ihnen erhalten habe. Vor allem möchte ich meinem verehrten Lehrer Prof. J. M. Bochenski meinen Dank aussprechen, ich habe von ihm ebensoviel Anregung wie zahlreiche Weisungen und ständige Hilfe bei meiner Arbeit erhalten.

Essays in German History F. L. Carsten, 1985-07-01. F. L. Carsten has probably been the most influential historian of Germany writing in English over the past forty years. His work is remarkable for its ability to span the course of German history from the late middle ages to the present. This book brings together a substantial collection of Professor Carsten's work that has appeared as articles.

Unruly Masses, Fin de siècle Vienna has become the glorified icon of innovative modernism in the arts and letters. This detailed account of the suburban life worlds presents a very different image: one of harsh struggles for subsistence and survival, disparities between the social classes resulting in spatial and cultural segregation.

Robert Michels, Political Sociology and the Future of Democracy Juan Linz, 2017-07-05. These essays by the brilliant historian of political science Juan Linz comprise a remarkable intellectual review of the life and work of Robert Michels, his major book *Political Parties and the Dimensions of Democracy* as a

functioning system Linz elucidates the importance of Michels in a way that offers more than a mechanical view of political parties as some sort of precisely ordered system of authority and influence Instead Michels offers a view of politics that is bottom up and untidy what he calls a reciprocal deference structure Michels is not simply the father of the iron law of oligarchy but the idea of politics as a less than orderly network of responsiveness responsibility and accountability Linz demonstrates with magisterial power why Michels must be ranked as a foremost thinker in classical political sociology The remaining three segments of the volume cover areas with which Linz has also long been identified Each in its own way illumines aspects of Michels as well Time and Regime Change articulates differences between change within a regime and change of a regime sometimes hard to identify because of the elongated time frames involved The next essay explains why Spain is neither a traditional society nor a successful modern nation The reliance upon central authority displaced the hoped for evolution of a society based on representative democratic institutions The final section Freedom and Autonomy of Intellectuals and Artists is a topic that gripped Michels and Linz alike Freedom as a goal of the intelligentsia has been frustrated by those who provide ideological justification for repression of ideas and actions in the name of higher values This segment provides a bridge between Michels and Weber not to mention both of these major figures with Linz himself The role of state power in mediating intellectual freedom is the leitmotif that blankets the twentieth century The work is graced by a full length bibliography o

Totalitarianism and Political Religions Volume III Hans Maier, 2008-03-25 Available for the first time in English language translation the third volume of Totalitarianism and Political Religions completes the set It provides a comprehensive overview of key theories and theorists of totalitarianism and of political religions from Hannah Arendt and Raymond Aron to Leo Strauss and Simone Weill Edited by the eminent Professor Hans Maier it represents a major study examining how new models for understanding political history arose from the experience of modern despotic regimes Where volumes one and two were concerned with questioning the common elements between twentieth century despotic regimes Communism Fascism National Socialism Maoism this volume draws a general balance It brings together the findings of research undertaken during the decade 1992 2002 with the cooperation of leading philosophers historians and social scientists for the Institute of Philosophy at the University of Munich Following the demise of Italian Fascism 1943 45 German National Socialism 1945 and Soviet Communism 1989 91 a comparative approach to the three regimes is possible A broad field of interpretation of the entire phenomenon of totalitarian and political religions opens up This comprehensive study examines a vast topic which affects the political and historical landscape over the whole of the last century Moreover dictatorships and their motivations are still present in current affairs today in the twenty first century The three volumes of Totalitarianism and Political Religions are a vital resource for scholars of fascism Nazism communism totalitarianism comparative politics and political theory

Ideology and Utopia Karl Mannheim, 2013-07-04 Ideology and Utopia argues that ideologies are mental fictions whose function is to veil the true nature of a given society They originate unconsciously in

the minds of those who seek to stabilise a social order Utopias are wish dreams that inspire the collective action of opposition groups which aim at the entire transformation of society Mannheim shows these two opposing elements to dominate not only our social thought but even unexpectedly to penetrate into the most scientific theories in philosophy history and the social sciences This new edition contains a new preface by Bryan S Turner which describes Mannheim s work and critically assesses its relevance to modern sociology The book is published with a comprehensive bibliography of Mannheim s major works

Nationalism on the Internet Christian Fuchs,2019-09-17 In this timely book critical theorist Christian Fuchs asks What is nationalism and what is the role of social media in the communication of nationalist ideology Advancing an applied Marxist theory of nationalism Fuchs explores nationalist discourse in the world of contemporary digital capitalism that is shaped by social media big data fake news targeted advertising bots algorithmic politics and a high speed online attention economy Through two case studies of the German and Austrian 2017 federal elections the book goes on to develop a critical theory of nationalism that is grounded in the works of Karl Marx Rosa Luxemburg and Eric J Hobsbawm Advanced students and scholars of Marxism nationalism media and politics won t want to miss Fuchs latest in depth study of social media and politics that uncovers the causes structures and consequences of nationalism in the age of social media and fake news

The Theory of Social Democracy Thomas Meyer,2013-09-30 The ascendancy of neo liberalism in different parts of the world has put social democracy on the defensive Its adherents lack a clear rationale for their policies Yet a justification for social democracy is implicit in the United Nations Covenants on Human Rights ratified by most of the worlds countries The covenants commit all nations to guarantee that their citizens shall enjoy the traditional formal rights but they likewise pledge governments to make those rights meaningful in the real world by providing social security and cultural recognition to every person This new book provides a systematic defence of social democracy for our contemporary global age The authors argue that the claims to legitimation implicit in democratic theory can be honored only by social democracy libertarian democracies are defective in failing to protect their citizens adequately against social economic and environmental risks that only collective action can obviate Ultimately social democracy provides both a fairer and more stable social order But can social democracy survive in a world characterized by pervasive processes of globalization This book asserts that globalization need not undermine social democracy if it is harnessed by international associations and leavened by principles of cultural respect toleration and enlightenment The structures of social democracy must in short be adapted to the exigencies of globalization as has already occurred in countries with the most successful social democratic practices
