Microgravity Research in Support of Technologies for the Human Exploration and Development of Space and Planetary Bodies National Research Council,Commission on Physical Sciences, Mathematics, and Applications,Space Studies Board,Committee on Microgravity Research,2000-08-03 The frontier represented by the near solar system confronts humanity with intriguing challenges and opportunities With the inception of the Human Exploration and Development of Space HEDS enterprise in 1995 NASA has acknowledged the opportunities and has accepted the very significant challenges Microgravity Research in Support of Technologies for the Human Exploration and Development of Space and Planetary Bodies was commissioned by NASA to assist it in coordinating the scientific information relevant to anticipating identifying and solving the technical problems that must be addressed throughout the HEDS program over the coming decades This report assesses scientific and related technological issues facing NASA s Human Exploration and Development of Space endeavor looking specifically at mission enabling and enhancing technologies which for development require an improved understanding of fluid and material behavior in a reduced gravity environment To Reach the High Frontier Roger D. Launius,2002 Most towns did not have hospitals of their own before the mid twentieth century and Kentucky towns were no exception Kentucky s first real hospital opened in 1823 but it was in Louisville too far away to serve many Kentucky communities especially in cases of emergency For this and other reasons the lifespan of the average Kentuckian in the 1800s was only 40 years Today it has grown to 75 and trained medical professionals are available to most communities throughout the state Healing Kentucky tells how medical care changed in Kentucky over 200 years and became the much safer and better system we know today It also describes early healing practices and methods used to care for the sick in the days before safe hospitals even on Civil War battlefields From cholera epidemics to polio and plastic surgery readers will learn much about the people who shaped medicine in Kentucky The Goals of the Committee on Commerce, Science, and Transportation for the 101st Congress ,1989 **Resources in education** ,1989-04 **Strategic Considerations for Support of Humans in Space and Moon/Mars Exploration Missions** NASA Advisory Council,1992 *Navy's Needs in Space for Providing Future Capabilities* National Research Council,Division on Engineering and Physical Sciences,Naval Studies Board,Committee on the Navy's Needs in Space for Providing Future Capabilities,2005-07-18 The United States must operate successfully in space to help assure its security and economic well being The Department of the Navy is a major user of space capabilities although those capabilities are now primarily provided by DOD the Air Force and NOAA Following a

DOD assessment of national space security management in 2001 the Navy commissioned a Panel to Review Space to assess Navy space policy and strategy As an extension of that review the NRC was requested by the Navy to examine its needs in space for providing future operational and technical capabilities This report presents a discussion of the strategic framework of future space needs the roles and responsibilities for meeting those needs an assessment of Navy support to space mission areas and a proposed vision for fulfilling Naval forces space needs *Scientific and Technical Aerospace Reports* ,1995 Lists citations with abstracts for aerospace related reports obtained from world wide sources and announces documents that have recently been entered into the NASA Scientific and Technical Information Database **Management, a Bibliography for NASA Managers** ,1989 NASA SP-7500 United States.
