

The background of the entire cover is a photograph of the Starship Enterprise from the original Star Trek series. The ship is shown from a low angle, flying towards the right, just above the blue and white horizon of the Earth. The ship's red and blue paint is clearly visible. The sky is a deep black, suggesting outer space.

Space Trek , *Space Trek* Jerome Glenn, George Robinson, 1980-01-01 **NASA EP.** United States. National Aeronautics and Space Administration, 1982 Beyond Identities: Human Becomings in Weirder Worlds Jim Dator, 2022-08-31 This book is an argument for moving beyond culturally historically ethnically biologically grounded identity as the necessary foundation of an authentic self It highlights examples of people who are attempting to inhabit identities they feel are more appropriate to themselves by deploring the damage done via claims about authentic identity The sole theme of this book is becoming beyond identity We are not fixed human beings but rather perpetually dynamic human becomings As intelligence is enabled or recognized beyond the merely human we should welcome our continuing evolution from hominids into many varieties of intelligences on Earth and the cosmos This book builds from tiny ripples into a tsunami of examples from conventional identity studies to Confucian human becomings to apotemnophilia to DIY biohacking to cyborgs to artifacts to hive minds to intelligence in animals plants and fungi from the Holocene through the beginnings of the precarious climate change driven Anthropocene Epoch with hints far beyond and throughout the cosmos From a lifetime of work in future studies anticipation science and space studies the author balances frank tales of his own experiences and beliefs concerning his uncertain and fluid identities with those of others who tell their stories In addition to material from academic and popular sources a few poems further illuminate the scene *Space of Service to Humanity* G. Haskell, Michael J Rycroft, 2013-03-11 G Haskell Symposium Convenor Vice President for Academic Services and Outreach International Space University By taking Space of Service to Humanity as the theme for the inaugural event in its series of annual symposia the International Space University ISU is asserting that this application of space technology requires special attention at this time Future symposia will examine the issues of the day from different perspectives In keeping with the fundamental principles of ISU the symposium took a global perspective as distinct from national or regional perspectives and treated both technical and non technical topics Oral and poster presentations were delivered in the scientific engineering economic legal political and philosophical domains All oral papers were delivered in plenary session to encourage cross fertilization between specialties and posters were readily available for viewing throughout the three day event As an international and interdisciplinary forum for the sharing of experience and for discussion and debate the symposium proved to be a stimulating and worthwhile event for the 135 participants from 25 countries and 5 international organizations with backgrounds in industry government and academia *Come Fly with Me!* David C.
