Spaceships Of Ezekiel:

The Spaceships of Ezekiel Joseph Blumrich, 2017-12-20 Not a description of a meeting with God but with ancient astronauts in a shuttlecraft The Spaceships of Ezekiel is about a ship that was supposedly observed by the prophet Ezekiel It was written while the author Josef Blumrich was chief of NASA's systems layout at the Marshall Space Flight Center After ufologists such as Erich von Däniken pointed to the possibility of interpreting Ezekiel's vision as a report of an extraterrestrial spacecraft Blumrich decided to disprove the hypothesis However a thorough examination convinced him that Ezekiel had in fact seen a spaceship He then made detailed drawings of the alien craft concluding that the technology of the builders must have been somewhat higher than mankind's at the present Blumrich asserts that Ezekiel's account in the Bible was not a description of a meeting with God in a prophetic vision but one of several encounters with ancient astronauts in a shuttlecraft from another planet Blumrich analyzes six different translations of the Bible in conjunction with his experience in engineering and presents one possible version of Ezekiel's visions of how God described as riding in an elaborate vehicle capable of seeing supposedly showed him the future and gave him various messages to deliver In the appendices to the book Blumrich presents technical specifications of the hypothesized spacecraft He proposed a wheel that is capable of rotating not only in the forward backward direction but also sideways based on his interpretation of the description in Ezekiel and patented it The wheel is now known as the Omni wheel and it is used in special applications **The Spaceships of Ezekiel**
