American Imperialism Vol. 1 Philip S. Foner,1972 This major work by Philip Foner the well known historian has as its chief object the re definition of the conflict known in the U S historiography as the Spanish American war This very name in his view reflects the bias of two generations of historians who relegated Cuba to the passive position of a prize in a struggle between Spain and the United States It is his contention that the Cuban nation by virtue of its prolonged and successful rebellion of 1895 1898 treated in Vol 1 was a central protagonist of the conflict its role ending when it was subjected to neocolonial status by the United States In pursuing this new outlook Professor Foner studied the sources available in the United States the rich materials in the Archivo Nacional and the Library of the City Historian in Havana and enlisted help and documentary evidence furnished by the leading historians and historical institutes of Cuba These sources have enabled him to deal at length with the occupation and subjugation of Cuba by the United States and reconstruct the story in richer detail and in a more realistic interpretation than has ever been done before Volume II begins with the war in Cuba after U S intervention in 1898 and covers the imposition of U S domination of Cuba through the Platt Amendment which marked the

Western Visions of the Far East in a Transpacific Age, 1522-1657 Christina H. Lee,2016-02-17 Bringing to bear the latest developments across various areas of research and disciplines this collection provides a broad perspective on how Western Europe made sense of a complex multi faceted and by and large Sino centered East and Southeast Asia The volume covers the transpacific period after Magellan s opening of the transpacific route to the Far East and before the eventual dominance of the region by the British and the Dutch In contrast to the period of the Enlightenment during which Orientalist discourses arose this initial period of encounters and conquest is characterized by an enormous curiosity and a desire to seize not only materially but intellectually the lands and peoples of East Asia The essays investigate European visions of the Far East particularly of China and Japan and examine how and why particular representations of Asians and their cultural practices were constructed revised and adapted Collectively the essays show that images of the Far East were filtered by worldviews that ranged from being on the one hand universalistic and relatively equitable towards cultures to the other extreme unilaterally Eurocentric **The Evolving Project of Cormac McCarthy** Jonathan Elmore,Rick Elmore,2024-12-11

The Evolving Project of Cormac McCarthy presents eleven essays of original scholarship that undertake a programmatic reassessment of McCarthy s literary and philosophical worldview Examining issues of race morality history metaphysics law economics and ecology in McCarthy s writing reveals how these themes intersect in an overarching positive gesture that characterizes his work Taken together the essays offer a more expansive understanding of McCarthy s critique of contemporary society while providing new clarity on his vision of alternate ways of living and community beyond their present life denying manifestations The Publishers' Circular and Booksellers' Record ,1927 **The Statesman's**
