Spanish Books in the Europe of the Enlightenment (Paris and London) Nicolás Bas Martín, 2018-02-12 In *Spanish Books in the Europe of the Enlightenment* Paris and London Nicol s Bas examines the image of Spain in eighteenth century Europe and in Paris and London in particular His material has been scoured from an exhaustive interrogation of the records of the book trade He refers to booksellers catalogues private collections auctions and other sources of information in order to reconstruct the country s cultural image Rarely have these sources been searched for Spanish books and never have they been as exhaustively exploited as they are in Bas book Both England and France were conversant with some very negative ideas about Spain The Black Legend dating back to the sixteenth century condemned Spain as repressive and priest ridden Bas shows however that an alternative more sympathetic vision ran parallel with these negative views His bibliographical approach brings to light the Spanish books that were bought sold and ultimately read The impression thus obtained is likely to help us understand not only Spain s past but also something of its present

Literary Censorship in Francisco Franco's Spain and Getulio Vargas' Brazil, 1936-1945 Gabriela de Lima Grecco, 2020-04-14 This book presents two systems of censorship and literary promotion revealing how literature can be molded to support authoritarian regimes The issue is complex in that at a descriptive level the strategies and methods new states use to control communication through the written word can be judged by how and when formal decrees were issued and how publishing media whether in the form of publishing companies or at the individual level engaged with political overseers But equally literature was a means of resistance against an authoritarian regime not only for writers but for readers as well From the point of view of historical memory and intellectual history stories of people without history and the production of their texts through the literary underground can be constructed from subsequent testimony from books sold in secret to the writings of women in jail to books that were written but never published or distributed in any way and to myriad compelling circumstances resulting from living under fascist authority A parallel study on two fascist movements provides a unique viewpoint at literary social and political levels Comparative analysis of literary censorship literary reward allows an understanding of the balance between dictatorship official policy and what literary acts were deemed acceptable The regime need to control its population is revealed in the ways that a particular type of literature was encouraged in the engagement of propaganda promotion and in the setting up of institutions to gain international acceptance of the regime The work is an important contribution to the history of twentieth century authoritarianism and the development fascist ideas
