A Study of Spanish Colonial Silver in New Mexico Leona Davis Boylan, 1970 Spanish Colonial Silver Michael Haskell, Santa Barbara Historical Society, 1996 **A Study of the Mary Lester Field Collection of Spanish Colonial Silver** Leona Davis Boylan, 1967 Seventeenth-Century Metallurgy on the Spanish Colonial Frontier Noah H. Thomas, 2018-11-13 A unique contribution to the archaeological literature on the Southwest Seventeenth Century Metallurgy on the Spanish Colonial Frontier introduces a wealth of data from one of the few known colonial metal production sites in the Southwest Archaeologist Noah H Thomas draws on and summarizes ten seasons of excavation from the Pueblo of Paa'ko to provide a critical analysis of archaeological features and materials related to metal production during the early colonial period AD 1598 1680 Extrapolating from the data Thomas provides a theoretical interpretation of these data that is grounded

in theories of agency practice and notions of value shaped in culture In addition to the critical analysis of archaeological features and materials this work brings to light a little known aspect of the colonial experience the production of metal by indigenous Pueblo people Using the ethnography of Pueblo peoples and seventh century European manuals of metallurgy Thomas addresses how the situated agency of indigenous practitioners incorporated within colonial industries shaped the metallurgy industry in the Spanish colonial period The resulting analysis investigates how economic technical and social knowledge was communicated contested and transformed across the social and cultural boundaries present in early colonial communities Viewing these transformations through an ethnohistorical lens Thomas builds a social and historical context within which to understand the decisions made by colonial actors at the time Silver, Trade, and War Stanley J. Stein, Barbara H. Stein, 2021-04-27 A look at the interaction of America Spain and Europe between 1500 and 1750 focusing on Spain's role in Europe's expansion across the Atlantic The 250 years covered by this book marked the era of commercial capitalism bridging late medieval and modern times In 1500 Spain brought American silver back home across the Atlantic in exchange for European goods Spanish colonialism the authors suggest was the cutting edge of the early global economy America's silver enabled Spain to bring elements of capitalism into its late medieval society However the authors argue silver gave Spain illusions of wealth security and dominance while its system of managed transatlantic trade failed to monitor silver flows that were beyond government control While Spain's intervention reinforced Hapsburg efforts at hegemony in Europe it also led to proto nationalist state formations notably in England and France 1714's Treaty of Utrecht emphasized the lag between developing England and France and stagnating Spain and the persistence of Spain's late medieval structures These were basic elements of what the authors term Spain's Hapsburg legacy Over the first half of the eighteenth century Spain under the Bourbons tried to contain expansionist France and England in the Caribbean and to create policies competitors seemed to apply successfully to their overseas possessions namely a colonial compact Spain's policy planners *proyectistas* scanned abroad for models of modernization adaptable to Spain and its American colonies without risking institutional change The second part of the book analyzes the projectors' works and their minimal impact on the changing Atlantic scene until 1759 By then despite its efforts Spain could no longer compete with England and France in the international economy *Silver Trade and War* is about markets national rivalries diplomacy conflict and the advancement or stagnation of states

globalization The Archaeology of Manila Galleons in the American Continent Scott S. Williams, Roberto Junco, 2021-07-26 This is the first book devoted to the topic of Manila galleon shipwrecks in North America previous research on Manila galleons either has focused on the economics of the Manila galleon trade or has been limited to reports of the galleon wreck sites in the western Pacific salvaged for their cargoes All three North American shipwrecks are protected under the historic preservation laws of the United States or Mexico and each shipwreck site has been investigated by professional archaeologists seeking to answer research questions posed in peer reviewed research designs The majority of Manila galleon wrecks are found in the western Pacific and were salvaged by treasure hunters rather than recovered by archaeologists The three North American shipwrecks represent the most protected Manila galleon archaeological sites so their potential for future archaeological research is higher than for many of the extant shipwrecks of the western Pacific **ARS Shipwreck Projects Dominican Republic Volume I** Robert H. Pritchett III, William K. Scott, 2015 This Handbook re examines the concept of early modern history in a European and global context The term early modern has been familiar especially in Anglophone scholarship for four decades and is securely established in teaching research and scholarly publishing More recently however the unity implied in the notion has fragmented while the usefulness and even the validity of the term and the historical periodisation which it incorporates have been questioned The Oxford Handbook of Early Modern European History 1350 1750 provides an account of the development of the subject during the past half century but primarily offers an integrated and comprehensive survey of

present knowledge together with some suggestions as to how the field is developing It aims both to interrogate the notion of early modernity itself and to survey early modern Europe as an established field of study The overriding aim will be to establish that early modern is not simply a chronological label but possesses a substantive integrity Volume II is devoted to Cultures and Power opening with chapters on philosophy science art and architecture music and the Enlightenment Subsequent sections examine Europe beyond Europe with the transformation of contact with other continents during the first global age and military and political developments notably the expansion of state power Silver, Trade, and War Stanley J. Let There Be Towns Gilbert R. Cruz, 1988 Three pillars supported the empire of New Spain The first two the presidio and the mission have lived on in history and the popular imagination The third less studied and less understood has lived on in the traditions of local self governance and the distinctive cultural and social patterns of the Southwest That third pillar is the civil settlement or town with its distinctive governmental institutions Town councils or cabildos brought to the northern frontier a high degree of law and order patterns of local government a rough democracy and the principle of justice based on rule of law The towns populated the Borderlands introduced industry and contributed to the economy and defense of Hispanic territories Let There Be Towns presents the origins and contributions of six of the early settlements of New Spain San Antonio and Laredo in Spanish Texas Santa Fe and El Paso in Nuevo Mexico and San Jose and Los Angeles in Alta California In Let There Be Towns Gilbert R Cruz carefully assesses their importance as part of the Spanish government's policy for implanting in North America the linguistic social religious and political values of the crown Ten years of archival study as well as travel through Spain and Mexico researching the origins of colonial towns in parent institutions have led the author to the provocative conclusion that town settlements and their civil governments were even more important than the more glamorous missions and presidios in establishing Spanish dominion over the northern Borderlands
