## **Spark Of Life:**

**Understanding Erich Maria Remarque** Hans Wagener,1991 In this book Wagener presents the life and work of the German writer Erich Maria Remarque whose antiwar and exile novels have sold millions of copies worldwide The author tells of Remarque s fascinating life as a child in the Westphalian city of Osnabruck as a soldier in World War 1 as a newspaper editor in Hannover and Berlin as the famed author of All Quiet on the Western Front and as a German living in exile in Switzerland and the United States Wagener then provides an in depth analysis of Remarque s novels placing them in the context of 20th century history A discussion of their aesthetic merits as well as their reception in the United States and in Germany is also included

**Gaining an Awareness and an Understanding of Life** Thomas Kloeve Korn,Walter Eckert,2022-02-27 Life is a perfectly everyday thing to us We live our lives without knowing why How little do people know about why they are here on earth and about the mystery of life itself Why do we live What meaning do our lives have Many people today are no longer satisfied by the answers to these questions that the major religions offer Young people are looking for explanations doubt whether their lives have any meaning some of them slip away into the world of drugs or are otherwise led astray Thomas Kloeve Korn has been concerned with these issues for more than four decades and has now written a spiritual guidebook to share his experience with others On the basis of his collaboration with the medium Walter Eckert he explains where the human race comes from and the reason for its existence

**The Seeds of Life** Edward Dolnick,2017-06-06 Why cracking the code of human conception took centuries of wild theories misogynist blunders and ludicrous mistakes Throughout most of human history babies were surprises People knew the basics men and women had sex and sometimes babies followed But beyond that the origins of life were a colossal mystery The Seeds of Life is the remarkable and rollicking story of how a series of blundering geniuses and brilliant amateurs struggled for two centuries to discover where exactly babies come from Taking a page from investigative thrillers acclaimed science writer Edward Dolnick looks to these early scientists as if they were detectives hot on the trail of a bedeviling and urgent mystery These strange searchers included an Italian surgeon using shark teeth to prove that female reproductive organs were not failed male genitalia and a Catholic priest who designed ingenious miniature pants to prove that frogs required semen to fertilize their eggs A witty and rousing history of science The Seeds of Life presents our greatest scientists struggling against their perceptions their religious beliefs and their deep seated prejudices to uncover how and where we come from
