Sparta and Laconia University of Nottingham, 2009 This conference celebrated 100 years since the beginning of work in Laconia by the British School at Athens It aimed to carry forward from that original work a broad spirit of enquiry the research of those early scholars ranged over every aspect of the archaeology epigraphy history architecture and art history of the region What has changed over the century since is the even greater internationalisation of the scholarly enterprise and the great contribution made today by the members of the Greek

Archaeological Service Their energetic contribution to the archaeology of the region is underlined by the number of papers in this volume written by them The papers published here have been arranged chronologically and they cover an immense span from the Palaeolithic to recent times But there are other disciplinary and thematic connections which form junctures across the chronological order material culture religion and belief cultural identity epigraphy topography architectural studies iconography historiography anthropology the economy and the history of Laconia The very variety of these themes is a tribute to the broad tradition of enquiry which those pioneering scholars of the early 20th century British Greek and other nationalities brought to the study of Sparta and Laconia As Paul Cartledge stresses in his introduction to the volume the different images of Sparta have deeply influenced the European tradition Sparta lives in the mind's eye and is constantly redrawn in the light of new discoveries and new insights The papers presented here provide both

The Hero Cults of Sparta Nicolette A. Pavlides, 2023-09-07 This book examines the hero cults of Sparta on the basis of the archaeological and literary sources Nicolette Pavlides explores the local idiosyncrasies of a pan Hellenic phenomenon which itself can help us understand the place and function of heroes in Greek religion Although it has long been noted that hero cult was especially popular in Sparta there is little known about the cults both in terms of material evidence and the historical context for their popularity The evidence from the cult of Helen and Menelaos at the Menelaion the worship of Agamemnon and Alexandra Cassandra the Dioskouroi and others who remain anonymous to us is viewed as a local phenomenon reflective of the developing communal and social consciousness of the polis What is more through an analysis of the typology of cults it is concluded that in Sparta the boundaries of the divine heroic mortal were fluid which allowed a great variation in the expression of cults The votive patterns topography and architectural evidence permit an analysis of the kinds of offerings to hero cults and an evaluation of the architecture that housed such cults Due to the material and spatial distribution of the votive deposits it is argued that Sparta had a large number of hero shrines scattered throughout the polis which attests to an enthusiastic and long lasting local votive practice at a popular level

The Last Shades of Scarlet William Lamon, 2019-08-29 Under the united leadership of Athens and Sparta Greece is able to repel the Persian invaders on land and at sea Athens and Sparta remain the dominant powers in Greece but their different political and military philosophies have led to an intense political and military rivalry that threatens stability With Athenian power and wealth growing many Greek city states turn to Sparta for assistance Greece is now choosing sides causing an ideological rift that festers within each city state The division is manifesting itself in the form of violent political polarization Revolts are becoming common and vicious resulting in frequent shifts in allegiance All feel insecure and suspicious One's friend today could be your enemy tomorrow

The year is 422 BC and for a group of Spartan youths the morning was supposed to be a day of celebration A ceremony that would see them graduate from an education system that took them as seven year old boys and trained them to be the world's most feared warriors Instead they find themselves on a secret mission at the request of an exiled king While Sparta feasts Greece takes one last breath The peace with Athens is failing War is inevitable Honor compels Athens and Sparta to uphold their treaty but the wolves of war are already on the move and neither city can afford to lose their advantage The Last Shades of Scarlet Wolves of Laconia is the tale of a young Spartan Adronikos and his mentor Gylippus during the Peloponnesian War In youth Adronikos is formally educated in the arts of hoplite warfare survival and assassination Informally he learns love from a childhood companion Yet she is not Spartan and his feelings for her are becoming dangerous While he navigates this forbidden affair Greece begins its steady descent back into chaos Now Adronikos is about to be thrust into battle and called upon to aid his mentor on pivotal assignments that will decide the fate of Greece Through these trials both will experience the physical and emotional tolls of the war learning many lessons on love betrayal death and destiny
