from being discrete political trajectories racist and antiracist politics were closely connected as activists worked across groups to develop their visions for queer politics Ewing describes not only how AIDS workers gay tourists white lesbians queer immigrants and Black feminists were connected in unexpected ways but also how they developed contradictory concerns that comprised the full landscape of queer politics Out of these connections which often exceeded the bounds of the Federal Republic arose new forms of queer fascism as well as their multiple antiracist contestations Both unsettled the appeals to national belonging or homonationalism on which many white queer activists based their claims Thus the story of the making of homonationalism is also the story of its unmaking The Color of Desire explains how the importance of racism to queer politics cannot and should not be understood without also attending to antiracism Actors worked across different groups making it difficult to chart separable political trajectories At the same time antiracist activists also used the fractures and openings in groups that were heavily invested in the logics of whiteness to formulate new antiracist organizations and albeit in constrained ways shifted queer politics more generally *Spartacus Berlin Gay Guide 2014 (English Edition)*
