**The Insecure City** Kristin V. Monroe, 2016-03-15 Fifteen years after the end of a protracted civil and regional war Beirut broke out in violence once again forcing residents to contend with many forms of insecurity amid an often violent political and economic landscape Providing a picture of what ordinary life is like for urban dwellers surviving sectarian violence The Insecure City captures the day to day experiences of citizens of Beirut moving through a war torn landscape While living in Beirut Kristin Monroe conducted interviews with a diverse group of residents of the city She found that when people spoke about getting around in Beirut they were also expressing larger concerns about social political and economic life It was not only violence that threatened Beirut's ordinary residents but also class dynamics that made life even more precarious For instance the installation of checkpoints and the rerouting of traffic set up for the security of the elite forced the less fortunate to alter their lives in ways that made them more at risk Similarly the ability to pass through security blockades often had to do with an individual's visible markers of class such as clothing hairstyle and type of car Monroe examines how understandings and practices of spatial mobility in the city reflect social differences and how such experiences led residents to be bitterly critical of their government In The Insecure City Monroe takes urban anthropology in a new and meaningful direction discussing traffic in the Middle East to show that when people move through Beirut they are experiencing the intersection of citizen and state of the more and less privileged and in general the city's politically polarized geography

dynamics of strategic interventions in local space and tactical acts of the migrants in producing their locality are intertwined processes The ethnic identities through sectarian and hometown affiliations have constituted the main means by which the migrants have developed certain tactics in dealing with the strategical acts on the vertical level relations with the actors of urban planning and local politics and other tactical acts on the horizontal level relations with other sectarian and hometown groups in the locality

migration The micro lens allows for the reconstruction of the itineraries interactions and representations of the tenement s occupants in both their singularity and their structural context Through its many individual stories the book restores a degree of complexity that is often overlooked by historical accounts at broader levels *Rethinking the Asian American Movement* Daryl Maeda,2012-02-20 Although it is one of the least known social movements of the 1960s and 1970s the Asian American movement drew upon some of the most powerful currents of the era and had a wide ranging impact on the political landscape of Asian America and more generally the United States Using the racial discourse of the black power and other movements as well as antiwar activist and the global decolonization movements the Asian American movement succeeded in creating a multi ethnic alliance of Asians in the United States and gave them a voice in their own destinies Rethinking the Asian American Movement provides a short accessible overview of this important social and political movement highlighting key events and key figures the movement s strengths and weaknesses how it intersected with other social and political movements of the time and its lasting effect on the country It is perfect for anyone wanting to obtain an introduction to the Asian American movement of the twentieth century **The Sensation of Security** Erika Robb Larkins,2023-05-15 The Sensation of Security explores how private security guards are a permanent conspicuous fixture of everyday life in the Brazilian city of Rio de Janeiro Drawing on long term ethnographic research with security laborers managers company owners and elite global consultants Erika Robb Larkins examines the provision of security in Rio from the perspective of security personnel providing an analysis of the racialized logics that underpin the ongoing work of securing the city Larkins shows how guards communicate a *sensa o de seguran a* a sensation of security to clients and customers who have the capital to pay for it Cultivated through performances by security laborers the sensation of security is a set of culturally shaped racialized and gendered impressions related to safety order well being and cleanliness While the *sensa o de seguran a* indexes an outward facing task of allaying fears of crime and maintaining order in elite spaces it also refers to the emotional labor and embodied worlds that security workers navigate Under Construction Freek Colombijn,2013-11-29 Freek Colombijn examines the social changes in Indonesian cities during the process of decolonization That process had major repercussions for urban society These social changes are studied from the angle of urban space in general and the provision of housing in particular This provides fresh insight into how people experienced decolonization The author challenges the idea that a shift from ethnic to class differences was the overriding social change during decolonization He argues instead that class differences had already formed the predominant dividing lines in colonial urban society Colombijn also focuses on the shifting balance of power between the main agents in the urban arena Through the use of hitherto unused historical sources the book presents a wealth of new data about the Indonesian city and the decolonization process Published in cooperation with the Netherlands Institute of War Documentation NIOD Originally published with imprint KITLV ISBN 9789067182911 **Trespassers?** Willow S Lung-Amam,2017-05-16 Beyond the gilded gates of Google little has been

consider the spatial dimensions of security and particularly how the relationship between space and security varies across cultures This volume explores spaces of security not only by attending to how security is produced by and in spaces but also by emphasizing the ways in which it is constructed in the contemporary landscape The book explores diverse contexts ranging from biometrics in India to counterterrorism in East Africa to border security in Argentina The ethnographic studies demonstrate the power of a spatial lens to highlight aspects of security that otherwise remain hidden while also adding clarity to an elusive and dangerous way of managing the world      *Comparing Asian Politics* Sue Ellen M.
