Petzell, 2022-03-16 This volume explores morphosyntactic change in the Late Modern Swedish period from the 18th century and onwards This period is interesting for a number of reasons This is when Swedish is established as a national standard language New genres emerge and the written language becomes more generally available to all speakers We also sometimes find diverging developments in the different North Germanic languages and some of the much discussed differences between Danish Norwegian and Swedish are established during this period In addition during the 19th and 20th centuries the traditional dialects undergo more dramatic changes than ever Yet the Late Modern Swedish period has previously received fairly little attention in the syntactic literature This volume aims to remedy this with studies that cover several different grammatical domains including case and

verbal syntax word order and agreement and grammaticalization in the nominal domain The study by Cecilia Falk investigates the possibility of promoting an indirect object to subject in a passive that emerges during the period A chapter by Fredrik Valdeson studies change in the use of ditransitive verbs from a constructional perspective Three chapters are concerned with word order change The study by Ida Larsson and Björn Lundquist investigates the development of a strict word order in particle constructions Adrian Sangfelt studies the possibility of having adverbials and other constituents between the separate verbal heads in complex VPs in the final stages of the shift from OV to VO order Erik M Petzell investigates embedded verb placement and agreement morphology in the Viskadalian dialect which on the surface seems to contradict the Rich Agreement Hypothesis Mikael Kalm discusses the emergence of different kinds of adverbial infinitival clauses in the standard written language compared to vðalian Finally the study by Lars Olof Delsing is concerned with a case of grammaticalization in the nominal domain specifically the development of the gradable adjectives *mycket* much and *lite* little into quantifiers
