Six Perspectives On New Religions:

Six Perspectives on New Religions, 1981 This work aims to offer a reminder that the external validity of our concepts such as religious cults is more limited than most of us realize Perspectives on New Religious Movements John A. Saliba, 2016-10-06 This book provides a dispassionate analysis of new religious movements charting their growth and examining them from a variety of perspectives sociological psychological legal and theological Saliba then questions whether or not membership harms those who join these new movements and assesses the charge that they brainwash their adherents

Six Perspectives on New Religions, 1981 **Routledge Library Editions: Sociology of Religion** Various, 2021-07-14 This set collects together in 19 volumes a wealth of texts on Sociology of Religion An invaluable reference resource it contains classic books on a wide range of topics including religion and violence religion and family life religion and society culture and class A Primal Perspective on the Philosophy of Religion Arvind Sharma, 2006-09-09 What am I trying to accomplish through the exercise which I have undertaken namely to examine the philosophy of religion in the light of primal religions If to choose someone else's expression to characterize one's own intellectual endeavour is an indication of one's own lack of imagination then I must plead guilty to that charge but not to that of lack of gratitude for I have to thank Robin Horton for describing better than I can what I have attempted in the book It is an exercise in what he calls translational understanding I quote him now By translational understanding I mean the kind of understanding of a particular thought system that results from the successful translation of the language and conceptual system that embody it into terms of a language and conceptual system that currently enjoy world status In talking of translation of course I am not just talking of the provision of dictionary equivalents for individual words or sentences I am talking about finding a world language equivalent for a whole realm of discourse and of showing in world language terms what the point of that realm of discourse is in the life of the people who use it Translation in this broader sense can be very arduous There may be no realm of discourse in the world language that exactly fits the bill We may have to bend and refashion existing realms and even redefine their guiding intentions Agents of Discord Susan E. Darnell, 2017-12-02 It is widely acknowledged that the United States has always provided fertile ground for the growth of new religious movements and cults but modern organized efforts to oppose and restrict them have been less well understood In *Agents of Discord* Anson Shupe and Susan E Darnell offer a groundbreaking analysis of the operations and motives of these oppositional groups which they generally group under the umbrella term of the anticult movement Historically there have always been parallel groups opposed to certain religious movements whether these be anti Quaker anti Roman Catholic or anti Mormon The authors establish the cultural context of such movements in the nineteenth century They point out the link between modern anticult movements and nativist movements in American history Turning to the postwar era the authors discuss the rise of anticult movements and focus specifically on one of the most prominent the Cult Awareness Network CAN CAN was a two tiered organization Partly

composed of volunteers donors and families affected by cult movements it also included what the authors call an inner sanctum of behavioral science professionals attorneys and deprogrammers Using never before reported data on CAN s activities the authors cite an extensive history of financial impropriety that finally led to the organization s bankruptcy They offer a pointed critique informed by current scholarship of the brainwashing model of mental enslavement presented by the anticult movement that has been a central assumption undergirding its activities At the same time they show how increasing professionalization has gradually begun a shift of such movements to a therapeutic model of exit counseling that rejects the crude methods of earlier intervention strategies In their analysis of the anticult movement nationally and internationally Shupe and Darnell merge sociological concepts and social history to make unique sense of a hereto

Encyclopedic Handbook of Cults in America J. Gordon Melton,1992 First Published in 1993 Routledge is an imprint of Taylor Francis an informa company

An Examination of the Problems of Inclusive Language in the Trinitarian Formula of Baptism Thomas J. Scirghi,2000 The recent attempts to change the traditional Trinitarian formula in baptism in order to rid it of masculine language raises questions concerning the nature of revelation and tradition The study also examines the work of feminist theology which has provided a means for a radical rethinking of religious experience

Constructing Jesus Dale C. Allison,2010-11 An internationally renowned Jesus scholar rethinks our knowledge of the historical Jesus in light of recent progress in the scientific study of memory

Social Science and the Cults John A. Saliba,2019-03-20 This book first published in 1990 brings together descriptive comparative and theoretical materials on cults and sects in Western culture focusing on literature published since 1970 A historical section links the rise of the new movements to similar past phenomena in Western culture Other sections examine the methodology of studying religious movements and the various theories which have been brought to explain them current studies on traditional sects that are sometimes compared to the new religions and many studies of individual contemporary cults

Six Perspectives On New Religions Introduction

In the digital age, access to information has become easier than ever before. The ability to download Six Perspectives On New Religions has revolutionized the way we consume written content. Whether you are a student looking for course material, an avid reader searching for your next favorite book, or a professional seeking research papers, the option to download Six Perspectives On New Religions has opened up a world of possibilities. Downloading Six Perspectives On New Religions provides numerous advantages over physical copies of books and documents. Firstly, it is incredibly convenient. Gone are the days of carrying around heavy textbooks or bulky folders filled with papers. With the click of a button, you can gain immediate access to valuable resources on any device. This convenience allows for efficient studying, researching, and reading on the go. Moreover, the cost-effective nature of downloading Six Perspectives On New Religions has democratized knowledge. Traditional books and academic journals can be expensive, making it difficult for individuals with limited financial resources to access information. By offering free PDF downloads, publishers and authors are enabling a wider audience to benefit from their work. This inclusivity promotes equal opportunities for learning and personal growth. There are numerous websites and platforms where individuals can download Six Perspectives On New Religions. These websites range from academic databases offering research papers and journals to online libraries with an expansive collection of books from various genres. Many authors and publishers also upload their work to specific websites, granting readers access to their content without any charge. These platforms not only provide access to existing literature but also serve as an excellent platform for undiscovered authors to share their work with the world. However, it is essential to be cautious while downloading Six Perspectives On New Religions. Some websites may offer pirated or illegally obtained copies of copyrighted material. Engaging in such activities not only violates copyright laws but also undermines the efforts of authors, publishers, and researchers. To ensure ethical downloading, it is advisable to utilize reputable websites that prioritize the legal distribution of content. When downloading Six Perspectives On New Religions, users should also consider the potential security risks associated with online platforms. Malicious actors may exploit vulnerabilities in unprotected websites to distribute malware or steal personal information. To protect themselves, individuals should ensure their devices have reliable antivirus software installed and validate the legitimacy of the websites they are downloading from. In conclusion, the ability to download Six Perspectives On New Religions has transformed the way we access information. With the convenience, cost-effectiveness, and accessibility it offers, free PDF downloads have become a popular choice for students, researchers, and book lovers worldwide. However, it is crucial to engage in ethical downloading practices and prioritize personal security when utilizing online platforms. By doing so, individuals can make the most of the vast array of free PDF resources available

and embark on a journey of continuous learning and intellectual growth.
