Sociology Inquiring Into Society:

Global Pentecostalism: An Inquiry into the Cultural Dimensions of Globalization Matthias Deininger, 2014-02-01 The rapid global expansion of Pentecostal Christianity is one of the most striking religious phenomena in our contemporary world Today Pentecostalism is by no means some marginal or peculiar denomination within world Christianity It is not simply a niche product in the global religious market but the most dynamic and fastest growing religious movement within the contemporary Christian world From Singapore over Brazil to Ghana Pentecostal Christians are historically and presently rooted in many cultural contexts throughout the world As such Pentecostalism is a religious movement that is both shaped by globalization processes but also a major contributor to the globalization of religion Until recently social scientific approaches to Christianity have often been informed by a rather selective understanding of Christianity stressing its ascetic components premised on a body spirit dualism and seeing its importance mainly as a harbinger of secular modernity Hence where Christianity was studied outside the West it has usually been peripheral and viewed as an alien intrusion undermining local cosmologies However rather than a religious rejection of the world Pentecostalism accommodates to the world and modernity It transcends locality by promulgating a universal imaginary of the world while at the same time incorporating itself successfully into the socio cultural contexts of any new cultures it encounters The fundamental fluidity of the transnational Pentecostal network is conducive for its flexibility to react on the enormous upheavals and changes in a globalized world and to accommodate to them in constructive ways Thus Pentecostalism can be regarded as a paradigmatic case of a glocalized religion it has the ability to adapt itself to local conditions while maintaining and preserving its distinct religious features at the same time This study focuses on the different theoretical attempts made to explain the massive global expansion of Pentecostalism and its relation to broader processes of globalization It discusses to what extent and in what complex ways the Pentecostal movement is interrelated to processes of cultural globalization By looking at the internal religious characteristics of Pentecostal discourse and discursive practices and their articulations within the external circumstances of globalization it tries to untangle some of the complexities that emerge when theorizing the globalization of Pentecostalism

A Sociotheological Approach to Catholic Social Teaching Vivencio O. Ballano, 2022-10-31 This book introduces Catholic social teaching CST and its teaching on the common good to the reader and applies them in the realm of public health to critically analyze the major global issues of COVID 19 that undermine public interest It uses the sociotheological approach that combines the moral principles of CST and the holistic analysis of modern sociology and also utilizes the secondary literature as the main source of textual data Specifically it investigates the corporate moral irresponsibility and some unethical business practices of Big Pharma in the sale and distribution of its anti COVID vaccines and medicines the injustice in the inequitable global vaccine distribution the weakening of the United States Congress s legislative regulation against the pharmaceutical industry s overpricing and profiteering the inadequacy of the World Health

Organization s WHO law enforcement system against corruption and the lack of social monitoring in the current public health surveillance system to safeguard the public good from corporate fraud and white collar crime This book highlights the contribution of sociology in providing the empirical foundation of CST s moral analysis and in crafting appropriate Catholic social action during the pandemic It is hoped that through this book secular scholars social scientists religious leaders moral theologians religious educators and Catholic lay leaders would be more appreciative of the sociotheological approach to understanding religion and COVID 19 This book brings into dialogue two bodies of literature documents of Catholic social teaching and modern sociology and its core thinkers and texts The author does especially well to describe how taking the sociotheological turn will benefit the credibility and dissemination of Catholic social thought Rev Fr Thomas Massaro S J Professor of Moral Theology Jesuit School of Theology Santa Clara University Berkeley California

An Introduction to W. E. B. Du Bois Kalasia S. Ojeh, Earl Wright II, 2024-02-29 An Introduction to W E B Du Bois examines the historical contributions to social science and the continuing relevance of the work of W E B Du Bois in an accessible manner The first volume of its kind it places the theories of Du Bois in context showing how the socio racial environment in which he grew up and came of age influenced the development of his thought In addition to covering well known concepts such as double consciousness the veil and religious fatalism the authors discuss Du Bois uncoined theories emanating from the Atlanta University Studies as well as his contributions to the development of Black sociology and research methodology A groundbreaking contextualization and summary of the importance of Du Bois work to sociology and sociological theory this book constitutes a much needed resource for scholars and students seeking to understand this scholar s significance to the social sciences beyond the elementary level

Urban Geography in America, 1950-2000 Brian J.L Berry, James Wheeler, 2014-05-01 Urban Geography in America offers a comprehensive historiography of this major field Compiling the best essays from the flagship journal Urban Geography it shows the evolution of the field from the 1950s to 2000 as it shifted from data driven social science modeling in the 1960s to the more critical perspectives of the 1970s to postmodernism in the 1980s to feminism and globalization in the 1990s It covers all the major trends and figures and features some of the most important names in the field Ultimately this will be a necessary reference for all scholars in the field and all graduate students taking introductory courses and preparing for their comprehensive exams

[The Conduct of Inquiry in International Relations](#) Patrick Thaddeus Jackson, 2016-03-31 The Conduct of Inquiry in International Relations first edition was winner of the ISA Northeast s Yale H Ferguson Award and the ISA Theory Section s Best Book of the Year award The Conduct of Inquiry in International Relations provides an introduction to the philosophy of science issues and their implications for the study of global politics The author draws attention to the problems caused by the misleading notion of a single unified scientific method and proposes a framework that clarifies the variety of ways that IR scholars establish the authority and validity of their empirical claims Jackson connects philosophical considerations with concrete issues of

research design within neopositivist critical realist analyticist and reflexive approaches to the study of world politics
Envisioning a pluralist science for a global IR field this volume organizes the significant differences between methodological stances so as to promote internal consistency public discussion and worldly insight as the hallmarks of any scientific study of world politics In this second edition Jackson has centralised the philosophical history of the science question into a single chapter providing a clearer picture of the connections between contemporary concerns about the status of knowledge and classic philosophical debates about the relationship between human beings and the world they inhabit The central chapters feature more detailed and pedagogically useful illustrations of the methodological positions discussed making the book even better suited to clarify the philosophical distinctions with respect to which a scientific researcher must locate herself The second edition will continue to be essential reading for all students and scholars of International Relations Political Science and Philosophy of Science Towards a science of ideas: An inquiry into the emergence, evolution and expansion of ideas and their translation into action Guido Enthoven, Seweryn Rudnicki, Rico Sneller, 2022-08-02

Ideas are the basic building blocks that construct the world we live in Yet despite the abundance of literature on creativity and innovation there has been little reflection on ideas as such their nature and their working mechanisms This book provides foundations for a reflection focused specifically on ideas what they are how they emerge develop interact gain acceptance and become translated into actions In doing so the book moves beyond the mainstream approaches offering new promising theoretical angles presenting original findings and initiating a research agenda for a science of ideas This book provides a fresh perspective on how to conceptualize and study ideas and their working mechanisms by treating ideas as the main object of the study and by bringing together a group of original thinkers scholars and philosophers to move beyond the mainstream academic discourse on creativity and innovation *Qualitative Inquiry in Everyday Life* Svend Brinkmann, 2012-07-23

This book is a survival guide for students and researchers who would like to conduct a qualitative study with limited resources Brinkmann shows how everyday life materials such as books television the internet the media and everyday conversations and interactions can help us to understand larger social issues As living human beings in cultural worlds we are constantly surrounded by data that call for analysis and as we cope with the different situations and episodes of our lives we are engaged in understanding and interpreting the world as a form of qualitative inquiry The book helps its reader develop a disciplined and analytic awareness informed by theory and shows how less can be more in qualitative research Each chapter introduces theoretical tools to think with and demonstrates how they can be put to use in working concretely with everyday life materials **An**

Invitation to Reflexive Sociology Pierre Bourdieu, Loïc J. D. Wacquant, 1992-07-15 Preface by Pierre Bourdieu Preface by Loïc J D Wacquant I Toward a Social Praxeology The Structure and Logic of Bourdieu's Sociology Loïc J D Wacquant 1 Beyond the Antinomy of Social Physics and Social Phenomenology 2 Classification Struggles and the Dialectic of Social and Mental Structures 3 Methodological Relationalism 4 The Fuzzy Logic of Practical Sense 5 Against Theoreticism and

Methodologism Total Social Science 6 Epistemic Reflexivity 7 Reason Ethics and Politics II The Purpose of Reflexive Sociology The Chicago Workshop Pierre Bourdieu and Loic J D Wacquant 1 Sociology as Socioanalysis 2 The Unique and the Invariant 3 The Logic of Fields 4 Interest Habitus Rationality 5 Language Gender and Symbolic Violence 6 For a Realpolitik of Reason 7 The Personal is Social III The Practice of Reflexive Sociology The Paris Workshop Pierre Bourdieu 1 Handing Down a Trade 2 Thinking Relationally 3 A Radical Doubt 4 Double Bind and Conversion 5 Participant Objectivation Appendixes Loic J D Wacquant 1 How to Read Bourdieu 2 A Selection of Articles from Actes de la recherche en sciences sociales 3 Selected Recent Writings on Pierre Bourdieu The ^AOxford Handbook of Sport and Society Lawrence A. Wenner,2022-09-27 The Oxford Handbook of Sport and Society is the premier comprehensive and interdisciplinary work for readers looking to understand key areas of inquiry about the role and impacts of sport in contemporary culture Through fifty seven chapter treatments from leading international scholars on sport s impact on key aspects of our lives the Handbook is essential reading for any reader trying to understand the outsized ways in which sport has become more than a game

Durkheim & Critique Nicola Marcucci,2021-08-03 This book investigates the relation between Durkheim s sociology Critical Theory and the philosophy of social sciences The book is organized in four sections confronting Durkheim and other critical traditions inquiring his social and critical ontology interrogating the relation between social practices and justice and discussing his relevance in contemporary politics and political theory An international group of philosophers sociologists and critical theorists contribute to show Durkheim s reflection as an important complement or an alternative to the Hegelian Marxist and post structuralist conceptions of social critique In this way the book intends to inaugurate a new reflection on social critique at the intersection between philosophy and sociological theory

The Enigmatic Realm of **Sociology Inquiring Into Society**: Unleashing the Language is Inner Magic

In a fast-paced digital era where connections and knowledge intertwine, the enigmatic realm of language reveals its inherent magic.
