Solar Mystery:

The Codified Mysteries Vashisht Vaid,2012-08-19 This book The codified Mysteries may provide the reader the required conscious awareness related to normal looking literary text of ancient stories and the symbolic knowledge imbedded in the ancient buildings which is technically the secret knowledge of universe Brahmanda which was imbedded into these various symbolic structures erected upon planet earth as our planet earth is the most important planet in our solar system which is technically the center of our entire evolving universe Brahmanda thus existing subjectively and objectively in the Cosmic Vital Physical plane if looking at it from the spiritual aspect and not only from the normal physical aspect like most humans do

Mysteries of the Bridechamber Victoria LePage,2007-11-12 Jesus was an initiate and adept of the ancient Judaic mysteries who strove to reinstate the tradition of the bridechamber sacrament in his time Shows that Jesus sought to establish equity of masculine and feminine in both spiritual practice and social traditions particularly in the sacrament of marriage Reinterprets Jesus key teachings in light of the ancient tradition of sacred consortship Reveals what happened to the gnostic heart of Christianity that Jesus embodied Jesus was a high initiate and master adept of the ancient Judaic mysteries who strove to free people from the dead hand of the ritualists He was trained in a dissident Jewish brotherhood that arose in Egypt before he was born which sought to bring back the ancient Judaic mysteries outlawed by the Jerusalem temple At the heart of this movement was a yogic based practice known in the apocrypha as the Gnosis of the Heart which espoused the union of both sexes in a secret initiatic teaching As a fearless social reformer Jesus wanted to restore the authority of the feminine principle including asserting the equality of man and woman in the social contract of marriage He reinstated in his own life the tradition of sacred consortship a rite known to early Church fathers as the bridechamber sacrament whereby the marriage of the masculine and feminine energies was effected This rite Victoria LePage suggests was the primary focus of Jesus teachings the very heart of his exhortations to love thy neighbor and the source of his healing power Mysteries of the Bridechamber explains how as a master adept of the Temple of Solomon Jesus derived these teachings directly from ancient Judaic mystery traditions revealing both a life story for Jesus that differs markedly from the version the Church has offered as well as a spiritual practice based on a mystical wisdom tradition of self initiation and transformation

Greek Myths and Christian Mystery Hugo Rahner,1971 **The Secret Doctrine: Occultism** Helena Petrovna Blavatsky,1897 *The Prophets and the Goddess* Dionysious Psilopoulos,2017-11-06 This text discusses how W B Yeats Aleister Crowley Ezra Pound and Robert Graves had access to the forbidden knowledge of the Goddess These four poets experienced a confrontation with their unconscious and let the grace of the Goddess touch their heart strings Consequently through this surrendering they created avant garde poetry and were inspired to write seditious manifestos that would teach humanity an esoteric creed This creed based on humans eternal divine essence aspires to liberate the eternal feminine These poets became the instruments of the Goddess As defenders of the Light they took arms against the forces of

inertia and proclaimed the eleusis of a new faith This creed pledges to overthrow the anachronistic religious and social institutions and initiate a new world order and a new divinity based on the ancient rites of the Great Goddess No matter how disparate these four were in character they shared the vision of transmitting esoteric knowledge to profane humanity They were specifically chosen by the Goddess as Her troubadours and they pave Her way to the religious consciousness of the people

The Seven Rays of the Sun Helena Petrovna Blavatsky, 2017-07-31 The physical Sun is a mirror of Spiritual Fire The Seven Rays of the Spiritual Sun are Luminous Sons from which will emanate all other luminous and non luminous lives They are the fiery tongues representing the potency of formative creation inherent Logos The First Solar Ray is the most important It is Voice of the Silence It is potentially in everyman s heart Space and Time are One and Nameless the incognisable That which can be sensed only through its Rays A bright star dropped from the Heart of Eternity a beacon of hope on whose Seven Rays hang Seven Worlds of Being Seven Wise Ones the Dhyani Chohans of the Secret Doctrine fashion seven beams of light falling on paths leading to wisdom Seven Lights whose reflections are the human immortal monads each in charge of seven distinct groups of humanity They all proceed from the First Logos and from thence in innumerable series of Hierarchies Thus the Hierarchy of Compassion lights up the torch of Truth The Seven Rays or Divine Hierarchies are symbolised as concentric circles of prismatic colours in their natural order Heptactys stands for the Seven Rishis of the Second Ray the informing souls of the Seven Stars of the Great Bear and their shaktis symbolised by Pleiades or Atlantis Seven Root Races The Seven Rays and their shaktis vibrate everywhere They are personified as Motion Sound Heat Light Cohesion Electric Fluid and Nerve Force When the hour of the Solar Pralaya strikes the Eternal Avyaya First Logos will enter into the Seven Rays of the Sun and drink up all the waters of the Universe Thus fed the Seven Rays will expand to Seven Suns whose radiance will glow above below and on every side and will set the World on fire

The real meaning of the first line of Genesis Helena Petrovna Blavatsky, 2019-09-17 There are two ways of rendering the first line of Genesis one way is exoteric by Christian Bible interpreters the other Kabbalistic divided into the Rabbinical and the purely Kabbalistic or Occult method Why Christians sing never ceasing laudations to the Mosaic Jews who repudiated all the other Gods preserved the most phallic and then most impudently proclaimed themselves Monotheists Jesus ever steadily ignored Jehovah and went against the Mosaic commandments He recognized his Heavenly Father alone and prohibited public worship Ralston Skinner s numerical analysis of the first sentence of Genesis on which hung in blind faith the whole Christian religion shows that the Bible was made to yield Phallicism and that alone To know the full septenary significance of the Primordial Circle the Pyramid and the Kabbalistic Bible must be read in the light of the figure on which the temples of India are built Genesis cannot yield anything higher or more sublime than phallic elements the root and the cornerstone of its dead letter meaning Anthropomorphism and Revelation dig an impassable chasm between the material world and the ultimate spiritual truths The so called creation of Genesis is not the Primary Creation and the Elohim are not God not even the higher Planetary Spirits

but the Architects of this physical planet and of man's material body or encasement The Elohim far from being supreme or even exalted powers in Nature are only lower Angels This was the teaching of the Gnostics the most philosophical of all the early Christian Churches They correspond to the Prajapatis of the Hindus the fashioners of man's material and astral form only Mathers censures the translators of the Bible who have suppressed every single reference to the feminine form of Deity With the Occultists of the East the One and Changeless Parabrahman the Absolute All the ONE and Secondless cannot be conceived as standing in any relation to things finite and conditioned But what especially strikes the student of the Kabbalah is the malicious persistency with which the translators of the Bible have jealously crowded out of sight and suppressed every reference to the feminine form of the Deity They have as we have just seen translated the feminine plural Elohim by the masculine singular God They also concealed the fact that Ruah Spirit is feminine It then follows that the Holy Ghost of the New Testament is a feminine Potency In the Hebrew as in the Greek alphabet there are no distinct numeral characters and consequently each letter has a certain numerical value attached to it From this circumstance results the important fact that every Hebrew word constitutes a number and every number a word The conclusion of Mathers analysis of the Elohim is that they are not one nor two nor even a trinity but an army of Creative Powers Madame Blavatsky names the true Creators The First Born or Logos is not an Emanation but an Energy inherent in and co eternal with Parabrahman the ONE Thus it is not the ONE and Unconditioned nor even Its reflection that creates but only the Seven Gods who fashion the Universe out of primordial Matter vivified into objective life by the reflection into it of the One and only Reality Jehovah is at best the Heavenly Man or Adam Kadmon used by the self created Spirit Logos as a chariot a vehicle in His descent to the phenomenal world of gross matter The Secret Doctrine and the Kabbalah are in perfect concordance in St Paul's Epistles The Zohar is not a genuine production of the Hebrew mind It is a veil over the Secret Doctrine The Zohar is the repository and compendium of the oldest doctrines of the East transmitted orally at first and then written down in independent treatises during the Captivity at Babylon and finally brought together by Rabbi Shimon ben Yohai toward the beginning of the Christian era Modern Christianity is Paganism pure and simple exoterically and transcendental and practical Magic or Occultism esoterically The Solar Trinity is not Mazdean but Universal and as old as man All temples in Antiquity were invariably made to face the Sun their portals opening to the East The last of the Solar Priests in Europe was the Imperial Initiate Julian now called the Apostate He tried to benefit the world by revealing a portion of the great mystery of the Solar Trinity and died for the same crime as Socrates The Roman Catholic Church stands accused not of worshipping under other names the Divine Beings worshipped throughout Antiquity but of declaring idolatrous not only the Pagans ancient and modern but every Christian nation that has freed itself from the Roman yoke Only the Philosophers who studied Astrology and Magic knew that the Last Word was to be sought in the Occult forces emanating from those constellations that are the physical bodies of Divine Beings

DYING EARTH AND LIVING COSMOS RUDOLF STEINER, 2015-06-15

These authoritative lectures delivered during a period of deep crisis and conflict in world history present a comprehensive spiritual teaching for contemporary humanity Despite the raging world war Rudolf Steiner was still actively touring Central Europe whilst simultaneously completing work on his architectural masterpiece the first Goetheanum in neutral Switzerland The building of the Goetheanum undertaken by a community of people from seventeen nations at war forms a thematic backdrop to the lectures In speaking of the walls in the new building for example Rudolf Steiner describes how their forms are not confining but rather express an openness to the surrounding cosmos Likewise the carved motifs on the architraves of the wooden pillars are not fixed symbols but are alive and continually metamorphosing These observations are reflected in Steiner's broader discussions He speaks of extending and deepening our connection with the world and the cosmos going beyond our usual narrow limits and definitions to engage in community with the realities of existence We can do this for example with the so called dead who find it difficult to relate to sense bound thinking Rudolf Steiner explains how we can connect with them greatly enriching our lives and making an enormous difference to their souls The distinction between

fixed symbols and living motifs takes us to the core of anthroposophy striving never to rest in inert forms of thought In the field of education Steiner thus warns about external measuring of pupils and linear models of cognitive learning Throughout the three lecture courses included here which together form a kind of compendium of anthroposophy at the time Steiner touches upon a wealth of absorbing themes including the discovery of America the contrast between East and West the qualities of European folk souls Valentin Andreae s Chymical Wedding and Darwinism Regardless of his topic however Steiner consistently makes the urgent appeal that we grasp reality looking further than abstract schemes of all kinds such as social and political programmes to participate in the cosmos as conscious and fully human co creators
