Between Two Worlds László Török, 2009 The Egyptological literature usually belittles or ignores the political and intellectual initiative and success of the Nubian Twenty Fifth Dynasty in the reunification of Egypt while students of Nubian history frequently ignore or misunderstand the impact of Egyptian ideas on the cultural developments in pre and post Twenty Fifth Dynasty Nubia This book re assesses the textual and archaeological evidence concerning the interaction between Egypt and the polities emerging in Upper Nubia between the Late Neolithic period and 500 AD The investigation is carried out however from the special viewpoint of the political social economic religious and cultural history of the frontier region between Egypt and Nubia and not from the traditional viewpoint of the direct interaction between Egypt and the successive Nubian kingdoms of Kerma Napata and Meroe The result is a new picture of the bipolar acculturation processes occurring in the frontier region of Lower Nubia in particular and in the Upper Nubian centres in general The much debated issue of social and cultural Egyptianization is also re assessed *Ancient Nubia* Marjorie M. Fisher, Peter Lacovara, Salima Ikram, Sue D'Auria, 2012-09-06 A lushly illustrated gazetteer of the archaeological sites of southern Egypt and northern Sudan and named a 2012 American Publishers PROSE Awards winner for Best Archaeology Anthropology Book For most of the modern world ancient Nubia seems an unknown and enigmatic land Only a handful of archaeologists have studied its history or unearthed the Nubian cities temples and cemeteries that once dotted the landscape of southern Egypt and northern Sudan Nubia s remote setting in the midst of an inhospitable desert with access by river blocked by impassable rapids has lent it not only an air of mystery but also isolated it from exploration Over the past century particularly during this last generation scholars have begun to focus more attention on the fascinating cultures of ancient Nubia ironically prompted by the construction of large dams that have flooded vast tracts of the ancient land This book attempts to document some of what has recently been discovered about ancient Nubia with its remarkable history architecture and culture and thereby to give us a picture of this rich but unfamiliar African legacy *Causing His Name To Live* Peter Brand, Louise Cooper, 2009-10-08 William J Murnane 1945 2000 dedicated his life to the epigraphic recording and historical interpretation of the monuments of pharaonic Egypt In tribute to his important contributions to Egyptology a prominent group of his colleagues and students offer a range of new studies on Egyptian epigraphy and historiography Amarna studies loom large in the volume as they did in Murnane s own work Several chapters investigate the art history and chronology of the reigns of Akhenaten and his

immediate successors Other contributions deal with historical issues especially those connected with the epigraphic and archaeological aspects of the Theban temples of Karnak and Luxor The book is richly illustrated with photographs and drawings *Dotawo* Simmons Adam, 2019-12-23 *Dotawo* A Journal of Nubian Studies offers a platform in which the old meets the new in which archaeological papyrological and philological research into Meroitic Old Nubian Coptic Greek and Arabic sources confront current investigations in modern anthropology and ethnography Nilo Saharan linguistics and the critical and theoretical approaches of postcolonial and African studies *Dotawo* gives a common home to the past present and future of one of the richest areas of research in African studies It offers a crossroads where papyrus can meet the internet scribes meet critical thinkers and the promises of growing nations meet the accomplishments of older kingdoms Bringing together a collection of articles that were first presented as papers at the International Medieval Congress at the University of Leeds in 2016 and additional articles the sixth volume of *Dotawo* showcases a diverse richness of topics concerning Nubia The articles within this volume attest to the cultural linguistic geographic and demographic diversity witnessed throughout Nubian history nationally and internationally amongst its neighbours both near and far **Current Research in**

Fleming, 2020-12-03 *Yahweh* is the proper name of the biblical God His early character is central to understanding the foundations of Jewish Christian and Islamic monotheism As a deity the name appears only in connection with the peoples of the Hebrew Bible but long before Israel the name is found in an Egyptian list as one group in the land of tent dwellers the Shasu This is the starting point for Daniel E Fleming s sharply new approach to the god *Yahweh* In his analysis the Bible s people of *Yahweh* serve as a clue to how one of the Bronze Age herding peoples of the inland Levant gave its name to a deity initially outside of any relationship to Israel For 150 years the dominant paradigm for *Yahweh* s origin has envisioned borrowing from peoples of the desert south of Israel Fleming argues in contrast that *Yahweh* was not taken from outsiders Rather this divine name is evidence for the diverse background of Israel itself Studien zur Altägyptischen Kultur Band 49 Jochem Kahl, Nicole Kloth, 2020-11-17

Wilkinson, 2017-06-01 The concept of pharaonic Egypt as a unified homogeneous and isolated cultural entity is misleading Ancient Egypt was a rich tapestry of social religious technological and economic interconnections among numerous cultures from disparate lands In fifteen chapters divided into five thematic groups Pharaoh s Land and Beyond uniquely examines Egypt s relationship with its wider world The first section details the geographical contexts of interconnections by examining ancient Egyptian exploration maritime routes and overland passages In the next section chapters address the human principals of association peoples with the attendant difficulties of differentiating ethnic identities from the record diplomatic actors with their complex balances and presentations of power and the military with its evolving role in pharaonic expansion Natural events from droughts and floods to illness and epidemics also played significant roles in this ancient world as examined in the third section The final two sections explore the physical manifestations of interconnections between pharaonic Egypt and its neighbors first in the form of material objects and second in the powerful exchange of ideas Whether through diffusion and borrowing of knowledge and technology through the flow of words by script and literature or through exchanges in the religious sphere the pharaonic Egypt that we know today was constantly changing and changing the cultures around it This illustrious work represents the first synthesis of these cultural relationships unbounded by time geography or mode **Amun Temples in Nubia** Caroline Michelle Rocheleau, 2008 The aims of this study are to observe patterns in the spatial configuration of Egyptian and Kushite temples dedicated to Amun in Nubia to identify architectural models and finally to ascribe these models to certain historical periods or specific rulers The core of the work is a typological study based on the comparison of architectural plans of one type of building dedicated to a particular deity Although it used two earlier typological studies of Kushite architecture as a stepping stone this study differed in the definition of its assemblage the present corpus includes New Kingdom temples in an attempt to follow the architectural evolution of Kushite temples from their source of inspiration Because ancient Egyptian temples were undoubtedly the prototypes upon which Napatan and Meroitic temples were modelled it was necessary to include them in the study and classify them together with later temples in order to properly establish patterns Additionally the newly

uncovered temples at Doukki Gel Hugeir Gubli Usli Soniyat Dangeil and el Hassa offered new material that needed to be included in such a study As much as the study of Egyptian temples contributed to our understanding of ancient Egyptian civilisation the study of Napatan and Meroitic temples might just do the same for the Kushite kingdom
