Factionalism in Social Movements Nadia Aboushady,2023-06-30 This research unpacks the reasons of the Muslim Brotherhood s factionalism post 2013 and defines the scope of disagreements within the group by applying an interactionist approach to factionalism This approach analyzes the interplay between the macro meso and micro dimensions The research re constructs the narrative of Muslim Brotherhood s factionalism post 2013 and includes the implicit micro structural dimensions of the factional process thereby proposing a more comprehensive narrative to the conflict *The Persistence of the Particular* Dennis Wrong,2017-07-12 Definitions of human beings as symbolic animals emphasize our capacity to form theories and general laws that can be applied to common social experience This is balanced by an equally strong will to define events and conditions that are particular to specific times places and individuals In this volume Dennis H Wrong

argues that the scientific standard of universal laws and propositions has only limited relevance to human historical phenomena Wrong identifies the essential questions for social science as the place of nature and nurture in forming personality the sources of variation in human conduct and culture the causes of deviations from social norms how human motivations are socially shaped and controlled to make society possible and finally the causes of social change Because successive generations of thinkers have given varying answers to these questions no cumulative progress can be said to have occurred Wrong argues that the unity of theory and research sought by American sociologists cannot be obtained in social theory In terms of sociological practice this has created a disparity between the canonical theories of Marx Durkheim and Weber and the empirically oriented methodologies of current social research especially questionnaires fieldwork and statistical research Wrong attributes this disparity to postmodern skepticism about the potential of the social sciences to create a body of knowledge that might positively reshape human society Between the large scale theoretical constructs of classical theory and the overly particularistic tendencies associated with postmodernism Wrong argues for a historically oriented approach emphasizing unforeseen accidental agents as a foundation for modestly conceived theories Wrong emphasizes that the capacity to avoid predictable standardized responses whether they are based on instinct or ingrained habit is the source of human creativity Homo sapiens is as m

Status and Sacredness Murray Milner Jr.,1994-06-16 *Status and Sacredness* provides a new theory of status and sacral relationships and a provocative reinterpretation of the Indian caste system and Hinduism Milner shows how in India and many other social contexts status is a key resource and that sacredness can be usefully understood as a special form of status By analyzing the nature of this resource Milner is able to provide powerful explanations of the key features of the social structure culture and religion He argues against the widely held view that the Indian caste system is best understood as a unique cultural development demonstrating that many of the seemingly exotic features are variations on themes common to other societies Milner's analysis is rooted in a new theoretical framework called resource structuralism that helps to clarify the nature and significance of power and symbolic capital The book thus provides a bold new analysis of India an innovative approach to the analysis of religion and an important contribution to social theory

The Making of an African Working Class Pnina Werbner,2014-07-20 It is now 50 years since E P Thompson published his classic *The Making of the English Working Class* *The Making of an African Working Class* follows Thompson in exploring the formation of working class identity among low paid African workers In arguing for a radical public anthropology of worker identity the book seeks to analyse the cultural legal ideological and experiential dimensions of labour activism often neglected in other labour studies Pnina Werbner shows that by fusing cosmopolitan and local popular cultural forms of protest unionists have created a distinctive vernacular way of being a worker in Botswana one that does not deny workers roots at home or in the countryside while being cognisant of a wider world of cosmopolitan labour rights The assertion of working class dignity honour and respect Pnina argues is a powerful motivating force for manual

workers Against legal sceptical approaches The Making of an African Working Class argues that in challenging the government their employer in court manual workers protests and mobilisation are deeply embedded in ethics social justice and the law

The Making of a Sociologist John H. Goldthorpe, 2025-04-14 This book offers a journey through the problems and the progress of the discipline of sociology in the UK and Europe throughout the second half of the twentieth century via an exploration of seven social settings from the life of a now eminent sociologist It conceptualises the complex relation that exists between being and knowing and between the personal knowledge that comes from lived experience and the essentially impersonal knowledge that any science seeks to pursue The seven very contrasting settings are described in detail together with reference to some of their leading personalities such as David Glass Karl Popper Norbert Elias Sebastian Sprott Richard Hoggart Noel Annan E M Forster G sta Rehn Chelly Halsey Fred Hirsch and J rgen Habermas In each case the author shows how his lived experience within these settings formed a substratum of his sociology and how he navigated the line between personal knowledge as a creative resource and personal knowledge as potential bias using methodological discipline It will ultimately appeal to those with interests in sociology philosophy of science sociological histories and biographical methods

Problem of Order Dennis Wrong, 1994-01-31 At the end of the twentieth century many fear that the bonds holding civil society together have come undone Yet as the noted scholar Dennis Wrong shows us our generation is not alone in fearing a breakdown of social ties and a descent into violent conflict
