**The Entangled God** Kirk Wegter-McNelly, 2012-03-12 In *The Entangled God* Kirk Wegter McNelly addresses the age old theological question of how God is present to the world by constructing a novel scientifically informed account of the God world relation Drawing on recent scientific and philosophical work in quantum entanglement Wegter McNelly develops the metaphor of divine entanglement to ground the relationality and freedom of physical process in the power of God's relational being *The Entangled God* makes a three fold contribution to contemporary theological and religious discourse First it calls attention to the convergence of recent theology around the idea of relationality Second it introduces theological and religious readers to the fascinating story of quantum entanglement Third it offers a robust plerotic alternative to kenotic accounts of God's suffering presence in the world Above all this book takes us beyond the view of theology and science as adversaries and demonstrates the value of constructively relating these two important areas of intellectual investigation

**Chemicals for the Mind** Ernest Keen, 2000-02-28 Silently orienting us to the world are traditions embedded in our language These traditions shape how we understand the necessities and possibilities of life and truth Dualism a metaphysical theory is such a tradition and in Keen's view the separate discourses of science and morality create double meanings in our experience Psychopharmacology is a critical intersection of these two worlds where physical compounds are used to change mental life Increasingly the language of neurochemistry formulates that treatment To control

ennui with chemicals is to direct our attention away from what is wrong in our lives and to focus instead on what we can control easily by taking a pill Mental life has become marginal in biologically reductionistic discourse While the demystification of human consciousness is surely a cornerstone of modernity in excess it indulges a world design where nothing is sacred and everything becomes just another phenomenon to which we owe nothing Our practice of manipulating consciousness as an object surrenders the complex reflections of moral ambiguity and struggle Following the example of our doctors Keen asserts we the population neglect what is wrong in our lives Like the rest of nature our minds become exploitable And properties of consciousness become commodities sold by prescription in drug stores A provocative analysis of psychopharmacology this will be of interest to treatment professionals from psychologists psychiatrists and nurses to social workers as well as the interested public

**Academic Life** John B. Bennett, 2008-04-01 In this profound look at the academy John Bennett reminds us that our leadership decisions always presuppose our philosophies of life and that understanding precedes practice How we understand the communities we lead informs the many practical judgments we make about directions to take structures to create processes to initiate and values to uphold Bennett argues that faculty may understand their departments or institutions in one of two ways as simply aggregations of individuals or as communities of intertwined persons From these views two different leadership values and positions emerge The first disposes us toward seeing academic conflict as inevitable and elevates heroic leadership styles where power is understood in terms of advancing one agenda over competitors The second underwrites leadership as supposing openness to others and emphasizes the vital contributions that can follow By providing specific illustrations of the two modes of leadership and the nature of hospitality and openness *Academic Life* presents a strong platform from which to build a rich and rewarding academic community Contents include The nature of insistent individualism Why the prevalence of insistent individualism Hospitality as an essential virtue Self others institutions and the common good Conversation as an essential metaphor The uses of conversation Community and covenant Engaged but not heroic leadership

**Resilience Process and Its Personal and Social Bases** Chau Kiu Cheung, 2024-10-30 This book is to elucidate personal and social bases for personal resilience thus addressing the issue concerning the predominance of social factors in shaping resilience Essentially the book starts with a clarification of resilience as a phenomenon rather than a trait The clarification also identifies the personal bases in terms of the resilience process which specifies belief about resilience as a precursor to learning about resilience action for resilience and resilience successively To justify the personal and social bases the book expounds the analytical functionalist framework to specify voluntaristic and deterministic mechanisms to perform the four requisite functions of goal attainment adaptation integration and latency Equipped with the conceptual and theoretical grounds the book proceeds to scrutinize the effects of personal and social factors on resilience and its process The personal factors include personal background characteristics personality functional disability and various beliefs whereas the social factors include experiences of caring peace violence and social

exclusion in society kindness sociability and aid from other people and social capital The scrutiny engages five databases about 6 948 Chinese people in Hong Kong and neighboring Chinese cities composed of the public service users older adults students and people with visual impairment Overall the book presents ample theoretical and empirical substances to clarify the genesis of resilience *Women's Rights and the Bible* Richard H. Hiers, 2012-05-03 In this volume Richard Hiers challenges the popular assumption that the Bible has a low view of women and that biblical law either ignores women or requires them to be subject and subservient to men He does so by identifying and carefully examining hundreds of biblical texts and allowing them to speak for themselves Among the findings that biblical tradition generally represents women positively as strong and independent persons that no text represents wives as subject to their husbands and that no biblical law requires such subjection that biblical laws provide many protections for women's rights and interests in several instances rights equal to those enjoyed by men The book focuses particularly on the Old Testament and Old Testament law and argues that Old Testament laws and their underlying values provide important resources for Christian ethics and social policy today

Clashing Worldviews in the U.S. Supreme Court James Davids, Erik Gustafson, Sherena Arrington, 2021-10-19 Contrasting two Protestant justices who hold distinctively different worldviews Chief Justice William H Rehnquist and Justice Harry A Blackmun this book explores how each came to hold his worldview how each applied it in Supreme Court rulings and how it led them to differing outcomes for liberty equality and justice This clash of worldviews between Rehnquist whose religious and philosophical influences were anchored in the Reformation and Blackmun whose Reformation theology was modified by Enlightenment philosophy provide the context to examine the true nature of justice liberty and equality and to consider how such ideals can be maintained in a society with increasingly divergent worldviews Nature and Creation Richard H. Hiers, 2023-04-18 People have lived on Earth since before recorded history depending on nature to provide for and clean up after them But Nature cannot do it all anymore Too many people too much trash and too much toxic waste People have long lived in interdependence with other living things Yet humans now degrade and destroy the global environment that nurtures all species including human beings Human activities contaminate earth air and sea causing thousands of species to go extinct Rising global heat produces vicious cycles of catastrophic drought fires horrific storms floods famines and massive migrations by desperate climate refugees We don't hear much anymore about man's conquest of nature Nature God's creation now clearly has the last word Contrast the theocentric faith and ethics embedded in the Old and New Testaments Here the good world that God created and continues to create was made to be shared with all other living things All alike are made from the earth and destined to return to it Humans were meant to till the soil appreciate enjoy and care for life around them and trust their Creator for what is yet to be
