Julian Scott Robert J. Titterton, Julian Scott, 1997-01-01 The art of Julian Scott 1846ndash 1901 is admired by historians and critics alike for its authenticity and for his attention to detail

His paintings and drawings came directly from his own experiences he was a Civil War hero whose earliest recorded actions include the saving of nine soldiers and the capture of a Confederate officer for which he was awarded the Congressional Medal of Honor He also took part in the Indian census of 1890 and witnessed firsthand the demise of the old Native American West This first ever biography of Scott focuses on how his experiences were reflected in his art from the oil paintings of Civil War soldiers in the field to pencil sketches of Native Americans There are almost 100 reproductions some in color

North Carolina Civil War Monuments Douglas J. Butler, 2013-05-21 Monuments honoring leaders and victorious armies have been raised throughout history Following the American Civil War however this tradition expanded and by the early twentieth century the Confederate dead and surviving veterans although defeated in battle ranked among the world's most commemorated troops This memorialization described in *North Carolina Civil War Monuments* evolved through a challenging and contentious process accomplished over decades Prompted by the need to rebury wartime dead memorialization led by women first expressed regional grief and mourning then expanded into a vital aspect of Southern memory In North Carolina 109 Civil War monuments 101 honoring Confederate troops and eight commemorating Union forces were raised prior to the Civil War centennial Photographs showcase each memorial while committee records legal documents and contemporaneous accounts are used to detail the difficult process through which these monuments were erected Their design location and funding reflect not only the period's sculptural and cultural milieu but also reveal one state's evolving grief and the forging of public memory

The Scars We Carve Allison M. Johnson, 2019-04-10 In *The Scars We Carve* Bodies and Wounds in Civil War Print Culture Allison M Johnson considers the ubiquitous images of bodies white and black male and female soldier and civilian that appear throughout newspapers lithographs poems and other texts circulated during and in the decades immediately following the Civil War Rather than dwelling on the work of well known authors *The Scars We Carve* uncovers a powerful archive of Civil War era print culture in which the individual body and its component parts marked by violence or imbued with rhetorical power testify to the horrors of war and the lasting impact of the internecine conflict The Civil War brought about vast changes to the nation's political social racial and gender identities and Johnson argues that print culture conveyed these changes to readers through depictions of nonnormative bodies She focuses on images portrayed in the pages of newspapers and journals in the left handed writing of recent amputees who participated in penmanship contests and in the accounts of anonymous poets and storytellers Johnson reveals how allegories of the feminine body as a representation of liberty and the nation carved out a place for women in public and political realms while depictions of slaves and black soldiers justified black manhood and citizenship in the midst of sectional crisis By highlighting the extent to which the violence of the conflict marked the physical experience of American citizens as well as the geographic and symbolic bodies of the republic *The Scars We Carve* diverges from narratives of the Civil War that stress ideological abstraction showing instead that the era's print culture contains a literary and visual record of the war that is embodied and
