Soviet Foreign Policy Academy of Political Science (U.S.), 1987 **The Domestic Context Of Soviet Foreign Policy**

Seweryn Bialer, 2019-07-15 This volume highlights those aspects of Soviet internal dynamics that influence foreign policy and international relationships It reflects a growing awareness of the importance of internal factors as a critical determinant shaping the making and effectiveness of Soviet foreign policy Foreign Policy in Comparative Perspective Ryan K.

Beasley, Juliet Kaarbo, Jeffrey S. Lantis, Michael T. Snarr, 2012-04-25 Widely regarded as the most comprehensive comparative foreign policy text *Foreign Policy in Comparative Perspective* has been completely updated in this much anticipated second edition Exploring the foreign policies of thirteen nations both major and emerging players and representing all regions of the world chapter authors link the study of international relations to domestic politics while treating each nation according to individual histories and contemporary dilemmas The book's accessible theoretical framework is designed to enable comparative analysis helping students discern patterns to understand why a state acts as it does in foreign affairs **The**

Treaty on Conventional Armed Forces in Europe Mark Wilcox, 2024-03-04 This work examines the CFE Treaty as a factor in Russia's foreign and security policy Moscow showed amazing persistence in their relationship with the cornerstone of European security Their approach to the treaty was a genuine attempt to shape the security environment in Europe and the former USSR The treaty also enabled the dismantling of large conventional forces as they returned from Eastern Europe and transitioned into the armies of the newly independent states of the former USSR The CFE Treaty though proved ineffective at constraining the enlargement of NATO Simultaneously Moscow's foreign and security policy evolved from one that focused on the domestic development of the country to that of a more confident state reasserting itself as a great power Drawing extensively on primary sources and analyses by Russian authors this book employs two historical narratives case studies and a conceptual framework to show that while Moscow remained engaged with the CFE Treaty undesired effects on Russia's national interests gradually accrued at the expense of desired ones leading Vladimir Putin to withdraw Russia from the treaty as an act of decoupling from the collective West This book is relevant to scholars and policymakers who want to understand Russia's approach to arms control as an element of military security **Great Powers, Small Wars** Larisa

Deriglazova, 2020-03-03 A sophisticated appraisal of the problem of asymmetric conflict in the post World War II period In a sophisticated combination of quantitative research and two in depth case studies Larisa Deriglazova surveys armed conflicts post World War II in which one power is much stronger than the other She then focuses on the experiences of British decolonization after World War II and the United States in the 2003 Iraq war *Great Powers Small Wars* employs several large databases to identify basic characteristics and variables of wars between enemies of disproportionate power Case studies examine the economics domestic politics and international factors that ultimately shaped military events more than military

capacity and strategy *Proceedings of the Academy of Political Science*, 1983 Soviet Pol Perspect W Europe Neil Malcolm, 2013-09-13 In the light of perestroika this paper reviews Soviet specialist writing and leadership statements and looks in particular at how Soviet authors understand the interplay of cooperation and conflict inside the EC and the Western world **The USSR and Marxist Revolutions in the Third World** Mark N. Katz, 1990 This book looks at the role the Soviet Union under Mikhail Gorbachev's leadership played in providing assistance to Marxist revolutionaries *The Federal Republic of Germany since 1949* Klaus Larres, Panikos Panayi, 2014-08-27 Today the problems of reunification seem to feature more often in the international spotlight than the benefits This timely volume offers a reassessment of Germany's postwar development from its inception through to reunification including a thorough examination of the implications for economic political and social policies The impressive team of contributors include leading names in the history of modern Germany together with some of the ablest younger scholars in the field They are Hartmut Berghoff David Childs Immanuel Geiss Graham Hallett Klaus Larres Terry McNeill Torsten Opelland Richard Overly Stephen Padgett Panikos Panayi and Mathias Siekmeier Gorbachev's New Thinking and Third World Conflicts Jiří Valenta, Frank Cibulka, Some of the most crucial changes inspired by Gorbachev and perestroika concern Soviet and East European policies toward Third World countries Despite countless studies of Soviet U S relations and U S relations with the Third World the area of Soviet relations with the Third World has been left relatively undeveloped This is the first of several volumes intended to add to our knowledge of what the series editor Jiri Valenta characterizes as East South relations In this new era of cooperation and diplomacy the superpowers are working to resolve regional conflicts in and around Afghanistan Nicaragua Angola and Cambodia Such efforts are exceedingly complex since they necessarily involve not only the Soviet Union but Third World nations that may operate independently such as Cuba and Vietnam This volume addresses a number of such conflicts In addition to those already mentioned conflicts in Ethiopia Namibia and the Philippines are discussed and their implications for Western policy makers are reviewed As the contributors emphasize despite current Soviet emphasis on peaceful solutions to regional conflicts Gorbachev's New Thinking in foreign affairs is still decidedly selective In some cases the Soviet Union will actually encourage close ties with regional Third World powers as it has with India It is also too much to expect that the Soviet Union much less Cuba and Vietnam will completely cut ties to revolutionary allies worldwide That said the 1990s will undoubtedly be characterized by new Soviet foreign policy styles Their shape and form is the subject of this book It will be of immense interest to policymakers and researchers concerned about current developments in relations between the superpowers and with the Third World Contributors include Vernon Aspaturian Bhabani Sen Gupta William E Griffith Jerry F Hough Douglas Pike Howard Wiarda AH T Sheikh Sabahuddin Kushkaki Colin Legum H de V du Toit Khien Theeravit Frank Cibulka Alvaro Taboada Charles William Maynes W Bruce Weinrod Jiri Valenta Russia and Latin America M. Astrada, 2013-04-26 Today extensive interconnected global processes provide non state actors with a degree of agency that a System of States paradigm

cannot account for alone Using Russia Latin America relations as a case study and applying a Complex Adaptive Systems perspective this work explores alternative international mechanisms of order and organization Decolonization and the Cold War Leslie James, Elisabeth Leake, 2015-02-26 The Cold War and decolonization transformed the twentieth century world This volume brings together an international line up of experts to explore how these transformations took place and expand on some of the latest threads of analysis to help inform our understanding of the links between the two phenomena The book begins by exploring ideas of modernity development and economics as Cold War and postcolonial projects and goes on to look at the era s intellectual history and investigate how emerging forms of identity fought for supremacy Finally the contributors question ideas of sovereignty and state control that move beyond traditional Cold War narratives Decolonization and the Cold War emphasizes new approaches by drawing on various methodologies regions themes and interdisciplinary work to shed new light on two topics that are increasingly important to historians of the twentieth century **United States Political Science Documents** ,1988 *Annapolis, the United States Naval Academy Catalog* United States Naval Academy,1973 **Zeki Kuneralp and the Turkish Foreign Service** Yücel Güçlü,2015-06-18 This book is not a conventional biography It is not only a portrait of a larger than life Turkish diplomat whose Foreign Service career spanned almost four decades from 1941 to 1979 but also offers a glimpse into the evolution of the organization of the Turkish Ministry of Foreign Affairs and provides an account of the attitudes and methods of the Ministry s officials A good biography should cast light upon its subject s times as well as his or her life upon the way things were done as much as upon the way a particular individual reacted and behaved As such in this book not only is Zeki Kuneralp the man addressed but also the great developments of his time are explored extensively The book blends biographical narrative with explorations of various aspects of the foreign policy issues with which Kuneralp was involved The book treats in detail the major problems with which Kuneralp was directly concerned at each of his postings that is meeting the right people abroad promoting Turkish interests reporting to the Ministry of Foreign Affairs subordinating local matters to the political and economic goals of Turkey and conducting diplomacy so as always to be in accord with Ankara s policy makers whose big picture he always kept in mind *Negotiating START* Kerry M. Kartchner, The United States and the Soviet Union have been negotiating nuclear arms control agreements for over twenty years yet radical differences remain in the two sides concept of and approaches to strategic stability and arms control This book compares and contrasts those approaches using START Strategic Arms Reduction Treaty as a case study Throughout two decades of negotiation U S policy has been directed toward dialogue that would encourage convergence of American and Soviet thought on nuclear deterrence In Kartchner s view that hope is belied not only by continuing asymmetries in the development and deployment of their strategic nuclear arsenals but by differing U S and Soviet negotiating positions The Reagan administration viewed START as a means of repudiating SALT II restoring a measure of balance in the U S Soviet strategic competition and as a way of closing the so called window of vulnerability In

contrast Kartchner analyzes the Soviets differing views of nuclear balance emphasizing their satisfaction with SALT II and a strategic equilibrium shaped by a decade of bilateral arms control Kartchner offers a detailed exposition of the major negotiating issues in START contrasting concerns of U S and Soviet negotiators Not surprisingly each side s agenda was dominated by weapon systems that figure prominently in the other s development program The author concludes by summarizing and comparing American and Soviet quests for stability and drawing up an assessment of U S efforts in both SALT and START to use arms control negotiations as a kind of classroom for instructing Soviet officials in American notions of stabilizing versus destabilizing weapon technology and America s own ethnocentric view of stability START will profoundly affect the acquisition operation maintenance and cost of U S strategic nuclear forces well into the next century The history and analysis presented here will provide an essential source to policymakers and students of military political relations for much needed further study of this treaty s implications *Cultural Cold Wars and UNESCO in the Twentieth Century* W.

John Morgan,2024-09-30 *Cultural Cold Wars and UNESCO in the Twentieth Century* addresses the now considerable interest in the concept of cultural cold war as a means of advancing ideologies The book charts the development of the concept in the twentieth century Structured in two parts Part I considers the League of Nations idealist attempts at international intellectual cooperation It discusses also the first cultural cold war with the Communist International s attempts to advance communism It also analyses the ideological and cultural appeal of Italian fascism German national socialism and Japanese nationalist militarism and the transition from a wartime alliance to a new cold war Part II examines the renewal of international intellectual co operation through the United Nations Educational Scientific and Cultural Organization UNESCO in the context of a second cultural cold war between the capitalist democracies and the communist bloc The book shows that UNESCO became a site of this ideological competition and an example of its tensions Based on original research and a comprehensive review of the literature including in Russian German and French the book will appeal to academics postgraduate researchers advanced undergraduates and others interested in recent international history and the comparative politics of ideas **Annual Catalog - United States Air Force Academy** United States Air Force
