Soviet Impact On The Western World:

The Soviet Impact on the Western World Edward Hallett Carr, 1954 Cuban-Soviet impact on the Western Hemisphere Myles R. R. Frechette, 1980 *The Global Impact of the Russian Revolution* Aaron Retish, Matthew Rendle, 2021-05-13 This book explores the global impact of the Russian Revolution arguably the most influential revolution of the modern age It explores how the Revolution influenced political movements on the radical Left and Right across the world and asks whether the Russian Revolution remains relevant today In Part one four leading historians debate whether or not the Russian Revolution s legacy endures today Part two presents examples of how the Revolution inspired political movements across the world from Latin America and East Asia to Western Europe and the Soviet Union The Revolution inspired both sides of the political spectrum from anarchists and leftist radicals who fought for a new socialist reality and dreamed of world revolution to those who on the far Right who tried to stop them Part three an interview with the historian S A Smith gives a personal account of how the Revolution influenced a scholar and his work This volume shows the complexity of the Russian Revolution in today s political world The chapters in this book were originally published as a special issue of the journal *Revolutionary Russia* **E.H.Carr: A Critical Appraisal** M. Cox, 2016-04-30 E H Carr 1892 1982 was born into security but lived a life of controversy Attacked for appeasing both Hitler and Stalin he was not only one of the most productive writers of the Twentieth century but one of its most provocative as well In this book the first ever to deal critically but fairly with Carr s contribution to international relations Soviet Studies and the study of history sixteen internationally respected authors grapple with his complex intellectual legacy For those seriously interested in understanding the life and times of this most English of establishment radicals this is the place to begin **Problems of Communism** , 1975 1917 and the Consequences Gerhard Besier, Katarzyna Stokłosa, 2019-09-30 The Russian Revolution of 1917 has been one of the most important events of modern history It changed the course of the events not only in Russia but on a wider scale across the world while it influenced the flow of history throughout the twentieth century until the fall of the Soviet Union and to some extent well beyond this time Radical change in Russia triggered social revolutions and reformations across Europe while authoritarian systems shaped their societies according to the Russian model This book analyses these forces particularly at the European periphery which has been underexplored until this volume *The Long Night of Dark Intent* Irving Louis Horowitz, 2011 The Cuban Revolution of 1959 was a benchmark of triumph and a harbinger of tragedy to come Rather than herald a new era of Cuba joining the world community of nations as a paragon of democracy as many fervently hoped and believed it would it became instead a new stage in authoritarian rule in the Western hemisphere For more than a half century since then Cuba has been defined by the capacity of a single family to command and determine the fate of a nation and to do so with a minimum of opposition Incredibly even those professing adherence to democratic norms have been ready to forgive the dictator his excesses This volume explains the theory and practice of this absence of internal opposition and the

persistence of external support for the Castro family and its entourage The Long Night of Dark Intent is chronological in order with the author indicating major points in each of the five decades covered The volume covers five centers of system analysis economics politics society military and ideology Who or what determines events and decisions is the stuff of real history It is precisely due to variability in causal chains in society that we have huge variance in levels of predictability The course of the Cuban Revolution gives strong support for such an approach to the Castro Era This is a unique unflinching account with a strong emphasis on the importance of U S policy decisions over time Recueil Des Cours 1961 Academie De Droit International De La Ha,1968-12-01 The Academy is a prestigious international institution for the study and teaching of Public and Private International Law and related subjects The work of the Hague Academy receives the support and recognition of the UN Its purpose is to encourage a thorough and impartial examination of the problems arising from international relations in the field of law The courses deal with the theoretical and practical aspects of the subject including legislation and case law All courses at the Academy are in principle published in the language in which they were delivered in the Collected Courses of the Hague Academy of International Law *The Power in the People* Felix Morley, This book is a searching study of the meaning maintenance and results of liberty *Roots of Realism* Benjamin Frankel,2013-10-11 Political realism sees politics as a permanent struggle for power and security The essays in this volume examine the tradition of realist political analysis of international relations from the Sophists and Thucydides to the modern era **Dreamworld and Catastrophe** Susan Buck-Morss,2002 This study develops the notion of dreamworld as both a poetic description of a collective mental state and an analytical concept Stressing the similarities between East West the book examines extremes of mass utopia dreamworld and catastrophe **Encyclopedia of Historians and Historical Writing** Kelly Boyd,2019-10-09 The Encyclopedia of Historians and Historical Writing contains over 800 entries ranging from Lord Acton and Anna Comnena to Howard Zinn and from Herodotus to Simon Schama Over 300 contributors from around the world have composed critical assessments of historians from the beginning of historical writing to the present day including individuals from related disciplines like Jürgen Habermas and Clifford Geertz whose theoretical contributions have informed historical debate Additionally the Encyclopedia includes some 200 essays treating the development of national regional and topical historiographies from the Ancient Near East to the history of sexuality In addition to the Western tradition it includes substantial assessments of African Asian and Latin American historians and debates on gender and subaltern studies **The Twenty Years' Crisis, 1919-1939** E.H. Carr,2016-12-02 E H Carr's Twenty Years Crisis is a classic work in International Relations Published in 1939 on the eve of World War II it was immediately recognized by friend and foe alike as a defining work in the fledgling discipline The author was one of the most influential and controversial intellectuals of the twentieth century The issues and themes he develops in this book continue to have relevance to modern day concerns with power and its distribution in the international system Michael Cox's critical introduction provides the reader with background

information about the author the context for the book its main themes and contemporary relevance Written with the student in mind it offers a guide to understanding a complex but crucial text Now updated with a new preface from Michael Cox

The Vices of Integrity Jonathan Haslam, 2000-11-17 In Edward Hallet Carr s definitive biography Jonathan Haslam paints a compelling portrait of a man torn between a vicarious identification with the romance of revolution and the ruthless realism of his own intellectual formation *Socialism and American Life, Volume II* Donald Drew Egbert, Stow Persons, 2015-12-08 Easily the most comprehensive and useful work on American socialism including its history theories and impact on life culture and economic and political parties in the United States Volume 2 bibliography is as important a contribution as the essays Hereafter students of practically all phases of American life will turn to it for help and guidance U S Quarterly Book Review Originally published in 1952 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 **International Impacts on**
