S. Containment Policy and the Conflict in Indochina William Duiker, 1994-07-01 From the end of World War II down to the dissolution of the Soviet Union the primary objective of U S foreign policy has been to prevent the expansion of communism Indeed that objective was directly embodied in the so called strategy of containment a global approach to the pursuit of U S national security interests that was first adumbrated by George F Kennan in 1947 and later became the guiding force in U S foreign policy At first the concept of containment was applied primarily to Europe It was there that the threat to U S interests from international communism directed from Moscow was first perceived in the form of Soviet efforts to dominate the nations of Eastern Europe and extend Soviet influence into the eastern Mediterranean and the Middle East Other areas of the world Asia Africa and Latin America were considered to be less threatened by forces hostile to the free world or more peripheral to U S foreign policy concerns At least that was the view initially proclaimed by George Kennan himself who identified five areas in the world as vital to the United States North America Great Britain Central Europe the USSR and Japan Only the latter was located in Asia By the end of the decade however the focus of U S containment strategy was extended to include East and Southeast Asia primarily because of the increasing likelihood of a communist victory in the Chinese Civil War which in the minds of some U S policymakers would be tantamount to giving the Soviet Union a dominant position on the Asian mainland Added to the growing threat in China was the increasingly unstable situation in Southeast Asia where the long arc of colonies that had been established by the imperialist powers during the last half of the nineteenth century was gradually but inexorably being replaced by independent states The emergence of such colonial territories into independence was generally viewed as a welcome prospect by foreign policy observers in Washington but when combined with the impending victory of communist forces in China it raised the unsettling possibility that the entire region might be brought within the reach of the Kremlin *The Soviet Bloc And The Third World* Brigitte Schulz, William W. Hansen, Robin A Remington, Istvan Dobozi, 2019-07-11 This volume deals with the nature of the relationship between the countries of Eastern Europe and the Soviet Union and those of the Third World offering some background to the decline in the Soviet Union s international position both politically and economically *The Soviet Union In The Third World* Carol R Saivetz, 2019-07-09 This book examines the crucial role that Soviet policy toward the Third World played in Soviet efforts to influence the development of the international system in competition with the United States It traces the evolution of Soviet policy toward

Campbell,S. Neil Macfarlane,2022-12-28 Gorbachev s Third World Dilemmas 1989 examines the strategic political and ideological criteria which shaped Soviet policies toward the developing world Organized around particular themes and issues it pays attention to both theoretical fundamentals in Soviet doctrine and to Soviet actions in specific regions The topics range widely and include the Soviet conception of regional security Soviet arms transfers and military aid to the developing world the developing world in Soviet military thinking the USSR and crisis in the Caribbean Soviet policy towards Southern Africa notably Angola and Mozambique and Soviet policy towards Southwest Africa It looks at the activist foreign policy that Gorbachev inherited and explores the elements of change and continuity that Gorbachev and the Soviets faced **The Red Sea Region** Roberto Aliboni,2015-07-16 Since the late 1970s the Red Sea has become extremely important both in international politics and regional affairs This situation came about because of the growing Soviet presence in the Horn of Africa and Saudi efforts to have the Red Sea treated as an Arab Lake This book first published in 1985 examines the development of the Red Sea as a significant problem in superpower relations and assesses its relative importance in the context of other conflicts in the Gulf and elsewhere in the Third World It analyses Soviet interests in the Red Sea area and examines its record in seeking to intervene in the domestic politics of the region The book also discusses the degree of regional stability in the Red Sea both in terms of inter Arab relations and Afro Arab regulations This issue is considered

against the background of the security of the Nile valley In conclusion the book argues that Saudi Arabia s regional policies aimed at enhancing internal and external security have proved destabilizing and in a way even adventurous By fermenting Somali nationalism Saudi Arabia hoped to push the Soviets out of the Red Sea In fact this policy reinforced the Soviet presence in the Horn of Africa Similarly Saudi Arabia s regular interference in the domestic affairs of North Yemen may well prove extremely counter productive The book argues that the West s preoccupation with the region would lessen considerably if Saudi Arabia and Egypt would promote policies of cooperation rather than destabilization at both inter Arab and Afro Arab levels *The New International Economic Order* Jeffrey A Hart,1983-10-06
