Soviet Rubian Dialectical Materialism:

Soviet Russian Dialectical Materialism (Diamat) Joseph M. Bochenski,1963 **The Industrialisation of Soviet Russia Volume 4: Crisis and Progress in the Soviet Economy, 1931-1933** R. W. Davies,2016-07-27 The profound economic crisis of 1931-33 undermined the process of industrialisation and the stability of the regime In spite of feverish efforts to achieve the over ambitious first five year plan the great industrial projects lagged far behind schedule These were years of inflation economic disorder and of terrible famine in 1933 In response to the crisis policies and systems changed significantly Greater realism prevailed more moderate plans reduced investment strict monetary controls and more emphasis on economic incentives and the role of the market The reforms failed to prevent the terrible famine of 1933 in which millions of peasants died But the last months of 1933 saw the first signs of an industrial boom the outcome of the huge investments of previous years Using the previously secret archives of the Politburo and the Council of People s Commissars the author shows how during these formative years the economic system acquired the shape which it retained until the collapse of the Soviet Union in 1991 Dialectical Materialism Gustav Andreas Wetter,1973 *The Dialectics of Ecology* John Bellamy Foster,2024-04-01 Explores ecological socialism s potential against capitalist environmental degradation Today the fate of the earth as a home for humanity is in question and yet contends John Bellamy Foster the reunification of humanity and the earth remains possible if we are prepared to make revolutionary changes As with his prior books *The Dialectics of Ecology* is grounded in the contention that we are now faced with a concrete choice between ecological socialism and capitalist exterminism and rooted in insights drawn from the classical historical materialist tradition In this latest work Foster explores the complex theoretical debates that have arisen historically with respect to the dialectics of nature and society He then goes on to examine the current contradictions associated with the confrontation between capitalist extractivism and the financialization of nature on the one hand and the radical challenges to these represented by emergent visions of ecological civilization and planned degrowth on the other The product of contemporary ecosocialist debates *The Dialectics of Ecology* builds on earlier works by Foster including *Marx s Ecology* and *The Return of Nature* aimed at the development of a dialectical naturalism and the formation of a path to sustainable human development **Dialectics of the Ideal** ,2013-11-28 In *Dialectics of the Ideal* Evald Ilyenkov and Creative Soviet Marxism Levant and Oittinen provide a window into the subterranean tradition of creative Soviet Marxism which developed on the margins of the Soviet academe and remains largely outside the orbit of contemporary theory in the West With his activity approach E V Ilyenkov its principal figure in the post Stalin period makes a substantial contribution toward an anti reductionist Marxist theory of the subject which should be of interest to contemporary theorists who seek to avoid economic and cultural reductionism as well as the malaise of postmodern relativism This volume features Levant s translation of Ilyenkov s *Dialectics of the Ideal* 2009 which remained unpublished until thirty years after the author s tragic suicide in 1979 Contributors include Evald Ilyenkov Tarja Knuuttila

Alex Levant Andrey Maidansky Vesa Oittinen Paula Rauhala and Birger Siebert *Soviet Psychology* John McLeish, 2015-12-22 Originally published in 1975 this title sets out to show us the differences between Soviet and other ways of thinking about nature man and society The basic factor distinguishing Soviet psychology is that it views phenomena from the perspective of a highly articulated body of theoretical assumptions and rejects the inductive eclecticism of Western psychology The theoretical framework within which Soviet psychology functions is the product of a distinctive socio political and cultural development in Russia profoundly shaped by the institutions of autocracy and Orthodox religion and the economic system of serfdom and the radical revolt which grew up in opposition to this and advocated materialism secularism and atheism This radical philosophic tradition in Russia best represented by the writings of Chernishevski fused with the doctrines of Marxism and the new science of behaviour developed by Sechenov and Pavlov to create the theoretical framework of Soviet psychology The book also analyses the discussions controversies and decrees which are at the root of the contemporary science of behaviour in the Soviet Union and points to the impressive body of empirical knowledge which has arisen Soviet Psychology is unique in presenting Soviet psychology from an inside point of view and in making us appreciate the strongly theoretical stance of Soviet psychology which Professor McLeish claims is unlikely to be much influenced by the new atmosphere of détente

Jews in Soviet Culture Jack Miller, *Jews in Soviet Culture* is the first authoritative book on Jewish contributions to Soviet culture covering the fields of literature painting sculpture music philosophy and Oriental studies Unlike other works on Jews in the Soviet Union that deal mainly with political history especially with discrimination and repression this book focusses on the creative role of Jews in various aspects of Soviet culture and civilization This is a substantial contribution to modern Jewish studies Soviet studies and European cultural history The contributors several of whom have recently emigrated to the West are experts from a variety of cultural fields The volume is a painful but useful reminder that the cultural life of a people and a nation continues sometimes in harmony other times at odds but it continues

Russia's Muslim Heartlands Dominic Rubin, 2018-05-15 Moscow has the largest Muslim population of any city in Europe In 2015 some 2 million Muslim Muscovites celebrated the opening of the continent's biggest mosque One quarter of the Soviet population was ethnically Muslim and today their grandchildren living in the lands between Bukhara Kazan and the Caucasus once again have access to their historical traditions But they also suffer the effects of civil war mass migration and political instability At the highest levels Islam has been swept up into Russia's broader search for identity as the old question of eastern versus western takes on new force Dominic Rubin has spent the last three years interviewing Muslims across Russia from Sufi shaykhs in Dagestan new Muslim artists on the Volga and professionals in Kyrgyzstan to guest workers commuting between Russia and

Wolfe,John Symons,2024-11-26 Materialism the view that facts are dependent upon or reducible to physical processes is one of the most long standing and controversial of all philosophical theories Originating in antiquity its proponents include Epicurus Hobbes Diderot Darwin and Marx whilst its impact on modern physics and consciousness debates reverberates strongly today It is also an important yet generally overlooked feature of Indian Chinese and Islamic thought This major collection the first of its kind explores the fascinating philosophical history of materialism from the ancient world to the twenty first century Comprising thirty one chapters by an international team of contributors the volume is divided into six clear parts Ancient Non Western and Medieval Philosophy Renaissance and Early Modern Philosophy Enlightenment Materialisms Nineteenth Century Philosophy Twentieth Century Philosophy Contemporary Philosophy Philosophy of Mind Metaphysics and Critique Within these sections key topics are covered including materialism in classical Greece India and China and Aztec metaphysics Renaissance materialism and anti materialism materialism and Islamic philosophy materialism in the French and German Enlightenment atheism and materialism nineteenth century materialist controversies and debates in physics Marxism and materialism physicalism and the new materialism The History and Philosophy of Materialism is ideal for those studying and researching the history of this vital philosophical movement especially those with an interest in the history and philosophy of science ancient and early modern philosophy and the Enlightenment It will also be valuable reading for those in related disciplines such as history sociology and religion

Patterns of Soviet Thought Richard T. De George,1970 *Soviet Psychology; Philosophical, Theoretical, and Experimental Issues* Levy Rahmani,1973 **Soviet Historiography of Philosophy** Evert van der Zweerde,2013-06-29 Scientific history of philosophy was one of the professional branches of Soviet philosophy and a place where philosophical culture was preserved in an often hostile environment Situated between the ideological exigencies of the Soviet system with its Marxist Leninist theoretical foundation and the need for an objective account of philosophy's past Soviet history of philosophy displays the characteristic features of Soviet philosophy as a whole including a forceful reappearance of its Hegelian background This book is the only Western monograph on this important part of Soviet philosophy thus filling the last main gap in Western Philosophical Sovietology At the same time it offers the first survey of Soviet philosophy after the disappearance of the Soviet system itself embarking on an historical and meta philosophical investigation of Soviet philosophical culture The book will be of interest to students of Soviet and Russian philosophy historians of philosophy and
