Soviet Strategies In Southeast Asia:

Soviet Strategies in Southeast Asia Charles B. McLane, 2015-12-08 This study's main concern is with the growth of Communism within Burma Thailand Malaya Indonesia Indochina and the Philippines The author explores the origin and fate of these indigenous movements their role in domestic politics and relationship to the metropolitan parties in the case of colonial dependencies and to the Soviet Union and their success or failure under the conditions of independence He also assesses the influence of Communist experience in China the formation of Russian policy in Southeast Asia and the policies of the domestic Communist parties Originally published in 1966 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 Soviet Strategies in Southeast Asia Charles B. McLane, 1966 Soviet Strategies in Southeast Asia Richard S. Palais, 1966 **Asia In Soviet Global Strategy** Ray S. Cline, 2019-04-10 This book the final report of the Soviet Global Strategy Project describes the USSR's basic approach to the many states in Asia and the Pacific Basin including nations stretching from Japan to Australia

Soviet Strategies in Southeast Asia; an Exploration of Eastern Policy Under Lenin and Satlin Charles B. McLane, 1966 **South Asia and the Strategic Indian Ocean** Army Library (U.S.), 1973 **The Soviet Strategy in Southeast Asia** Vitvas Srivihok, 1985 **The Soviet Union and ASEAN** Thomas L. Wilborn, 1980 This memorandum considers whether Soviet foreign policy in the ASEAN countries has been a success or failure The author contends that after Vietnam invaded Kampuchea with Soviet support and the ASEAN area assumed greater importance to Moscow than ever before whatever influence the USSR had in ASEAN capitals was negated ASEAN countries forcefully have opposed Vietnamese and Soviet policy toward Kampuchea and the refugee problem and indirectly have supported China The author believes that Soviet strategy to contain China requires at least ASEAN neutrality and that Soviet moves to reverse current trends can be expected Author **Soviet Strategy in the Middle East** George W. Breslauer, 2015-07-16 Few regions of the world are as politically turbulent as the Middle East and nowhere is the potential for superpower conflict greater How does the Soviet Union view the Middle East conflict Can the USSR play a constructive role in the peace process In this volume first published in 1990 these questions and others central to an understanding of Soviet strategy in the region are addressed Previous analysts of Soviet Middle Eastern relations have tended to emphasize either the cooperative or the competitive aspects of Soviet behaviour Breslauer instead offers the multidimensional concept of collaborative competition to describe the mixed motives ambivalence and sometimes conflicting perspectives that have informed Soviet strategy in the region In such an unstable environment this strategy of collaborative competition has in turn encouraged approach avoidance

behaviour for example while the Soviets may seek to moderate their radical allies they remain fearful that these allies once moderated might defect to US patronage Under Gorbachev the Kremlin continues to pursue this same strategy but with increased attention to improving collaboration redefining the nature of the competition and easing the approach avoidance dilemma Breslauer argues that these changes could lead to more flexible Soviet behaviour in the region This volume combines new in depth research on Soviet policy with new interpretations including insights drawn from relevant theories of international relations USSR: Strategic Survey United States. Department of the Army,1969 Review of Soviet Strategies in Southeast Asia Thomas W. Robinson,1966 The paper reviews the book Soviet Strategies in Southeast Asia by Charles McLane Charles McLane Professor at Dartmouth College has written an exhaustive penetrating and lucid study of Soviet policy toward Southeast Asia through 1953 Although not written for the general reader since it presumes a general knowledge of the history of communism in that area the book breaks new ground in terms of the completeness of its survey and in its success in tying down more closely a number of factual points which were in doubt before McLane s book therefore complements the work done by others before him as well as serves as a sequel to his own previous work on Soviet policy toward the Chinese Communists Two particular features are first that McLane apparently used almost all of the Soviet sources on the subject available in the West and second that the author conducted a large number of interviews in Southeast Asia with governmental officials and current and ex Communist leaders Those features lend a degree of authority to the results which will not easily be overcome by subsequent research

Soviet Military Power and the Asia-Pacific Region Abdul Razak Abdullah Baginda,1989 **The Soviet Union in Southeast Asia** F. A. Mediansky,Dianne Court,1984 **The Cambridge History of Southeast Asia: Volume 2, Part 2, From World War II to the Present** Nicholas Tarling,2000-01-28 In these four volumes published in paperback in 2000 twenty two scholars of international reputation consider the whole of mainland and island Southeast Asia from Burma to Indonesia Each volume has a new preface which points to the relationships with the other volumes The prefaces also comment on some of the research into and thinking about the subject undertaken since the original contributions were completed for the first edition Volume 2 Part 2 covers the period from World War II to the present and examines the end of European colonial empires the emergence of political structures of the independent states economic and social change religious change in contemporary Southeast Asia Southeast Asia s role and identity in decolonisation and the ongoing weakening of links with the West

Soviet-Vietnam Relations and the Role of China 1949-64 Mari Olsen,2007-05-07 This new book analyzes how the Soviet leadership evaluated developments in Soviet Vietnamese relations in the years from 1949 to 1964 Focusing on how Soviet leaders actually perceived China s role in Vietnam relative to the Soviet role it shows how these perceptions influenced the Soviet Vietnamese relationship It also explains how and when Moscow s enthusiasm for the active Chinese role in Vietnam came to an end or in other words from what point was Beijing s involvement in Vietnam perceived as a liability rather than an asset in the

strategies of Soviet policy makers This book is an excellent resource for all students with an interest in Soviet Vietnamese relations and of strategic studies and international relations in general

The Cambridge History of Southeast Asia: Volume 2, The Nineteenth and Twentieth Centuries Nicholas Tarling, 1992 Southeast Asia has long been seen as a unity although other terms have been used to describe it Further India Little China the Nanyang The region has had a protracted maritime history Confucianism Buddhism Islam Hinduism Christianity are all represented It has seen a quintet of colonial powers Britain France The Netherlands Spain the United States Most recently it has become one of the fastest growing parts of the world economy The very term Southeast Asia is clearly more than a geographical expression The Cambridge History of Southeast Asia is a multi authored treatment of the whole of mainland and island Southeast Asia from Burma to Indonesia Unlike other histories of the region it is not divided on a country by country basis and is not structured purely chronologically but rather takes a thematic and regional approach to Southeast Asia s history This volume the second and final in the series takes us into the nineteenth and twentieth centuries from the late eighteenth century of the Christian era when most of the region was incorporated into European empires to the complexity and dramatic change of the post World War II period It covers the economic and social life as well as the religious and popular culture of the region as they develop over two centuries The political structures of the region are also closely examined from the insurgencies and rebellions of early this century to the modern Nationalist movements which challenged the control of the colonial powers and led to the formation of independent states Under the editorship of Nicholas Tarling Professor of History at the University of Auckland New Zealand each chapter is well integrated into the whole Professor Tarling has assembled a highly respected team of international scholars who have presented the latest historical research on the region and succeeded in producing a provocative and exciting account of the region s history

Soviet Strategy and the New Military Thinking Derek Leebaert, Timothy Dickinson, 1992 This book first published in 1991 analyses the unprecedented changes as well as the troubling continuities that characterized Soviet military thinking during the early 1990s

US-Singapore Relations, 1965-1975 Daniel Wei Boon Chua, 2017-06-23 At the height of the Cold War in Southeast Asia the foreign relations between the United States and Singapore demonstrated the interplay between America s strategy of containment and Singapore s efforts at a non aligned foreign policy But there is a deeper story American involvement in the Vietnam War not only held back the spread of communism in Southeast Asia but also catalysed economic and strategic cooperation between the United States and Singapore The author argues that Singapore might not have achieved its success so rapidly without the support of the US As the war in Vietnam raged on Singapore became a critical refueling point also providing ship and aircraft repair for the US military Commercial and strategic support from the United States lifted Singapore out of the economic doom predicted for the city state after secession from Malaysia cessation of Indonesian trade during Konfrontasi and Britain s military withdrawal By considering the importance of the US s role in Singapore s nation building this book provides an important

supplement to the well trodden narrative that attributes Singapore's success to good governance *Intentions and Capabilities: Estimates on Soviet Strategic Forces, 1950-1983*, 2000 **System And Process In Southeast Asia** Donald G McCloud, 2019-06-26 Southeast Asia although not garnering the headlines of ten to twenty years ago is important in global politics Vietnam's domination of Indochina for example has polarized the region given the Soviet Union new regional access and magnified the military threat to Thailand Insurgency movements supported by the radical Left or Right continue to plague governments The Strait of Malacca the major sea lane through Southeast Asia provides primary access for the U S Pacific fleet to the Indian Ocean and the Middle East and is Japan's oil lifeline U S commercial and military interests remain strong in the Philippines and are expanding in Indonesia the world's fifth largest country with a population approaching 170 million people whereas Thailand Malaysia and Singapore are sources for investment raw materials and potential markets Thailand once closely allied with the United States has again renewed those ties in the face of Vietnam's expansion This comprehensive up to date textbook analyzes Southeast Asia in the context of regional and global political systems both traditional and contemporary After looking at the traditional patterns of interstate relations in the region Professor McCloud shows that Southeast Asia has been and continues to be dependent on the global system However he also identifies a neotraditional current in contemporary Southeast Asian politics as elements of traditional beliefs and values reassert themselves in policy and practice redefine the patterns of interstate behavior in the region and set the limits to dependence on the global system The book is intended as a primary text for courses on the history or politics of Asia or Southeast Asia regional development and integration and the role of Southeast Asia in world politics It will also be useful in survey courses in Asian studies comparative politics and Third World development
