Soviet Ideologies In The Period Of Glasnost:

Soviet Ideologies in the Period of Glasnost Vladimir Shlapentokh, 1988-11-02 The mid 1970s found almost all spheres of Soviet society in economic social and moral decline a decline that generated conflicting ideologies offering solutions This text provides an examination of these ideologies both historically and analytically The Course of Russian History, 5th Edition Melvin C. Wren, Taylor Stults, 2009-01-08 Now in its fifth edition this definitive history of the Russian land and people builds on its success as a fascinating survey of two thousand years of struggle to harness vast resources and talents into a powerful and cohesive nation From its beginning as a savage and exotic land Russia underwent a complex evolution of political social and religious forces the barbarism of its internal conflicts in seeming contradiction with its goals to advance in the realms of technology art education and high culture From the conflicts of the fantastically wealthy ruling class to the poor and oppressed masses emerged the Communist party and the enigmatic figures whose charismatic manipulation of political power reflected the myriad rulers before them Finally as the modern world watched this great entity collapsed in a devastatingly brief time millennia of precarious conflict proving too much for the tenuous coalescence of twentieth century politics Written in an engaging and accessible style this text presents students with a comprehensive look at the momentous events and legendary figures which helped shape Russia's turbulent history *Socialism in Russia* J. Gooding, 2001-12-03 This book asks three fundamental questions about the socialist experiment in twentieth century Russia How did Marxist ideas come to be implemented in Russia a country entirely unsuited to them Why did the experiment lead to such suffering and upheaval and prove so fruitless And why did the attempt to return to a proper Marxism Leninism bring about the rapid collapse of the experiment In its answers this book pays special attention to the shadow cast by Lenin throughout the entire Soviet era **1978-1989** Heinz-Dietrich Fischer, 2020-01-20 No detailed description available for 1978 1989 *Problems of Communism*, 1987 *Mending Fences* Elizabeth Wishnick, 2014-07-01 Mending Fences illuminates the forces driving Moscow's China policy from the Ussuri River clashes in 1969 to the strategic partnership of the 1990s Elizabeth Wishnick analyzes the efforts of Soviet leaders simultaneously to maintain their supremacy in the international communist movement defend their borders from a perceived Chinese threat and ensure the compliance of regional authorities in enforcing China policy **Ideology And Policy** Terry L Thompson, 2019-05-20 Representing a milestone of further accomplishment in scholarly investigation of the dialectics for ideological evolution in the USSR this book will be a treasure for all who are interested in the development of Soviet ideology and should merit the attention of all specialists in Soviet studies It is uniquely valuable because it is the first exte *The Soviet Union*, 1990 **Ethnic Conflict and International Politics: Explaining Diffusion and Escalation** S. Lobell, P. Mauceri, 2004-01-16 Combining theoretical analyzes with case studies this book increases understanding of the internationalization diffusion and escalation of ethnic conflict The essays stand at the nexus of comparative politics and international relations examining the influence on ethnic conflict of the weakening of

state institutional structures the role of non state regional and international actors changes in the ethnic balance of power and the degree of economic social and cultural integration within the regional or global system The variety of approaches provides useful analytical tools for students while the diversity of cases from different regions gives the reader a sense of the scope of such problems

Performing Political Opposition in Russia Laura Lyytikainen,2016-10-04 Drawing on fieldwork conducted in Moscow and St Petersburg among the political opposition s youth group Oborona Defence this ground breaking work brings forward a multifaceted and colourful image of the life of political opposition activists in a restricted political environment Existing studies on youth political activism in Russia have mainly dealt with the pro Kremlin youth movements such as Nashi while youth opposition activism has been studied very little Lyytik inen contributes to this gap by showing how youth are also actively organizing against the current government and how Russian oppositional youth activist practices are diverse and constantly evolving Theoretically this book contributes to discussions on activist identities as well as to an understanding of social movements and protest by analysing political protests as social performances The research illustrates how Soviet continuities and liberal ideas are entangled in Russian political activism to create new post socialist political identities and practices It also questions the idea of Russian democratization being tied to its totalitarian past and that of western type liberal democracy being the goal of this process Instead the book proposes that Russian political culture should be analysed on its own and as an entanglement of various interacting systems of thought

Culture and Global Change Tim Allen,Tracey Skelton,2005-06-27 Culture and Global Change presents a comprehensive introduction to the cultural aspects of third world development It contains 25 chapters from leading writers in the field who each explore a particular aspect of culture and the significance and meaning of cultural issues for different people in throughout the contemporary world With chapters dealing with the importance of Third World cultures but also with changes in Russia Japan the USA and the UK this book considers the relationship between culture and development within a truly global context

Russia in the Twentieth Century David R. Marples,2014-01-14 The history of Russia as the natural successor to the Soviet Union is of crucial importance to understanding why communism ultimately lost out to Western democracy and the free market system David Marples presents a balanced overview of 20th century Russian history and shows that although contemporary Russia has retained many of the practices and memories of the Soviet period it is not about to revert back to the Soviet example

Historical Dictionary of the Russian Federation Robert A. Saunders,2019-09-20 Straddling Europe and Asia the Russian Federation is the largest country in the world and home to a panoply of religious and ethnic groups from the Muslim Tatars to the Buddhist Buryats Over the past 40 years Russia has experienced the most dramatic transformation of any modern state The second edition of Historical Dictionary of the Russian Federation provides insight into this rapidly developing country This volume includes coverage of pivotal movements events and persons in the late Soviet Union 1985 1991 and contemporary Russia 1991 present This second edition of Historical Dictionary of the Russian Federation contains a

chronology an introduction and an extensive bibliography The dictionary section has over 700 cross referenced entries on important personalities politics economy foreign relations religion and culture This book is an excellent resource for students researchers and anyone wanting to know more about Russia

A Dictionary of Cultural and Critical Theory Michael Payne, Jessica Rae Barbera, 2013-05-06 Now thoroughly updated and revised this new edition of the highly acclaimed dictionary provides an authoritative and accessible guide to modern ideas in the broad interdisciplinary fields of cultural and critical theory Updated to feature over 40 new entries including pieces on Alain Badiou Ecocriticism Comparative Racialization Ordinary Language Philosophy and Criticism and Graphic Narrative Includes reflective broad ranging articles from leading theorists including Julia Kristeva Stanley Cavell and Simon Critchley Features a fully updated bibliography Wide ranging content makes this an invaluable dictionary for students of a diverse range of disciplines

Libraries in the early 21st century, volume 1 Ravindra N. Sharma, IFLA Headquarters, 2011-12-27 This unique volume gives a truly international overview over the modern history and development of libraries and library technology in selected countries of the world The careful selection of countries achieves good representation of library work on all continents covering examples of both the developed and the developing world A further volume with further national profiles is planned for 2012 This multivolume work represents an excellent contribution to international librarianship and allows comparative studies both at graduate and professional level Many of the contributors are well known authors closely involved in the work of IFLA or their own national library associations

Communication in Eastern Europe Fred L. Casmir, 2012-12-06 This volume represents a clear attempt to learn something from the events in Eastern European countries It does not start with simplistic or old assumptions based on convenient Western communication models but instead takes a new approach If chaos theory could fundamentally change how physicists looked at order in the universe then it may be of value for communication scholars to attempt to understand the diversity of chaos or order in the human universe rather than attempt to force existing models on it for their own explanatory purposes This book is not merely based on the study of select groups of university students or on laboratory settings created in the minds of social scientists It seeks to understand some of the real world including the historical backgrounds and the theoretical assumptions brought to studies of intercultural conflicts Using personal and professional insights developed during firsthand contacts with existing situations chapter authors illustrate some of the realities by using the complexity of changes in Eastern European states during the final decade of the 20th century From education to business from the role of women to the role of mass media from the impact of political systems to the impact of history communication between those who are culturally diverse though they may have been arbitrarily forced to live under the same political roof is the theme of these scholarly studies The editor's reason for developing this volume of original essays is his belief that diversity rather than assumed similarity or even sameness based on the use of inadequate terminology is necessary for learning from contemporary human experiences He further believes that diversity and the significant roles of cultural values

as well as of history need to become key concepts in the model with which to begin when it comes to the study of various aspects of intercultural communication. It is therefore vital that scholars who represent various points of view and backgrounds contribute to that process. After all, understanding what is happening in the world is centrally anchored in or related to effective and successful intercultural communication between scholars who have different academic and personal backgrounds.

Politics, Society, And Nationality Inside Gorbachev's Russia Seweryn Bialer, 2019-06-04 The East West Forum is a New York based research and policy analysis organization sponsored by the Samuel Bronfman Foundation. Its goal is to bring together experts and policy leaders from differing perspectives and generations to discuss changing patterns of East West relations. It attempts to formulate long term analyses and recommendations. In p *Russian Nationalism Since 1856* Astrid S. Tuminez, 2000 This thoughtful book describes the range of nationalist ideas that have taken root in Russia since 1856. Drawing on a wide range of archival documents and unparalleled interview material from the post Soviet period, Tuminez analyzes two cases: Russian panslavism in 1856-1878 and great power nationalism in 1905-1914, when aggressive nationalist ideas clearly influenced Russian foreign policy and contributed to decisions to go to war. Yet not all forms of nationalism have been malevolent and the author assesses competing nationalist ideologies in the post Soviet period to clarify the conditions under which a particularly belligerent nationalism could flourish and influence Russian international behavior.

Moral Lessons of the Twentieth Century Mikhail Gorbachev, Daisaku Ikeda, 2005-05-11 Mikhail Gorbachev and Daisaku Ikeda are contemporaries raised in different cultures. Gorbachev is a statesman whose origins are the Marx inspired world of communism while Ikeda is Buddhist inspired by the thirteenth century Japanese sage Nichiren. Moral Lessons of the Twentieth Century emerged from a series of conversations between these two men. Together they explore their experiences of life amidst the turmoil of the twentieth century and together they search for a common ethical basis for future development. They conclude that values are born of culture and that peace, progress and social justice can only be achieved through sincere communication and cultural exchange. As the new century begins they have sought to turn the spotlight on the challenges which face humanity. The book is a call for dialogue in pursuit of values that bridge culture and time.

Restructuring Soviet Ideology Sylvia Babus Woodby, Alfred Evans, 2019-07-11 This book offers an analysis of the character and impact of ideological change, addresses a different arena of Soviet policy or social life and reflects somewhat different concerns about the role or significance of ideology. It summarizes the way in which Marxism-Leninism has been understood.

When people should go to the book stores, search instigation by shop, shelf by shelf, it is essentially problematic. This is why we offer the books compilations in this website. It will certainly ease you to see guide **Soviet Ideologies In The Period Of Glasnost** as you such as.

By searching the title, publisher, or authors of guide you in reality want, you can discover them rapidly.
