Soviet Legacy In Central Asia:

The Soviet Legacy in Central Asia J. Glenn, 1999-08-05 This book analyses the new pattern of security concerns of the Central Asian successor states. This region is said to encompass Kazakhstan, Uzbekistan, Tadzhikistan, Kirghizstan and Turkmenistan. The main contention of the book is that the security problems of these states are similar to those that faced other Third World countries after they attained independence. That is due to the arbitrary creation of these states by external powers; they lack a certain degree of societal cohesiveness arising from the fact that several ethnic communities reside within their borders. It is this so-called insecurity dilemma of each of the Central Asian states that is therefore examined. *Social and Cultural Change in Central Asia* Sevet Akyildiz, Richard Carlson, 2013-10-15 Focusing on Soviet culture and its social ramifications both during the Soviet period and in the post-Soviet era, this book addresses important themes associated with Sovietisation and socialisation in the Central Asian states of Kazakhstan, Kyrgyzstan, Tajikistan, Turkmenistan and Uzbekistan. The book contains contributions from scholars in a variety of disciplines and looks at topics that have been somewhat marginalised in contemporary studies of Central Asia, including education, anthropology, music, literature and poetry, film history and state identity construction and social transformation. It examines how the Soviet legacy affected the development of the republics in Central Asia and how it continues to affect the society, culture and polity of the region. Although each state in Central Asia has increasingly developed its own way, the book shows that the states have, in varying degrees, retained the influence of the Soviet past or else are busily establishing new political identities in reaction to their Soviet legacy and, in doing so, laying claim to re-defining and reinventing pre-Soviet and Soviet images and narratives. Throwing new light and presenting alternate points of view on the question of the Soviet legacy in the Soviet Central Asian successor states, the book is of interest to academics in the field of Russian and Central Asian Studies. *The Soviet Legacy in Central Asia* John Glenn, 1999. [The Soviet Legacy in Central Asia](#), 1999. *Politics of Modern Central Asia* Bhavna Dave, 2010. The focus for this set encompasses the region as a whole as well as each individual country, comprising the Soviet legacy, cultural and social institutions, modern economic and political transition and geopolitics and security. [Identities in Transition](#) John Glenn, 1996. *Language Politics in Contemporary Central Asia* Jacob M. Landau, Barbara Kellner-Heinkele, 2011-12-18. Nationalist leaders in the former Soviet states strive for national identity in both the political and cultural domains. Their language policies contend with Russian-speaking intelligentsias, numerous ethnic minorities and sizeable Russian communities backed by the Russian Federation, all presenting major challenges to facing the legacy of Soviet rule. Drawing on many years of research, interviews with educators and officials and visits to the region, Barbara Kellner-Heinkele and Jacob M. Landau explore the politics of language and its intersection with identity in Azerbaijan, Kazakhstan, Kyrgyzstan, Tajikistan, Turkmenistan and Uzbekistan. With special attention to language education in schools and universities within each state and debates over bilingualism versus multilingualism, their insights offer researchers of politics, linguistics and Central Asian

History of civilizations of Central Asia Adle, Chahryar, UNESCO, 2005-10-03 This major six volume project co published with Macmillan covers the historical experience of the peoples and societies of the Caribbean region from the earliest times to the present day The sixth volume brings this series to an end as it takes in the whole of the modern period from colonial conquest and domination to decolonization the Cold War from start to finish the disintegration of the Soviet Union and the renewed instability in certain areas Not only did the colonial regimes lay a new patina over the region but nationalism remoulded all old identities into a series of new ones That process of the twentieth century was perhaps the most transformative of all after the colonial subjugation of the nineteenth While it has been the basis of remarkable stability in vast stretches of the region it has been a fertile source of tension and even wars in other parts The impact and the results of such changes have been astonishingly variable despite the proximity of these states to each other and their being subject to or driven by virtually the same compulsions
