China Learns from the Soviet Union, 1949-Present Hua-Yu Li, 2010-01-05 It is well known that the Soviet Union strongly influenced China in the early 1950s since China committed itself both to the Sino Soviet alliance and to the Soviet model of building socialism What is less well known is that Chinese proved receptive not only to the Soviet economic model but also to the emulation of the Soviet Union in realms such as those of ideology education science and culture In this book an international group of scholars examines China's acceptance and ultimate rejection of Soviet models and practices in economic cultural social and other realms The chapters vividly illustrate the wide ranging and multi dimensional nature of Soviet influence which to this day continues to manifest itself in one critical aspect namely in China's rejection of liberal political reform *Military Review*, 2005 **The Global Revolution** Silvio Pons, 2014-08-28 The Global Revolution A History of International Communism 1917 1991 establishes a relationship between the history of communism and the main processes of globalization in the past century Drawing on a wealth of archival sources Silvio Pons analyses the multifaceted and contradictory relationship between the Soviet Union and the international communist movement to show how communism played a major part in the formation of our modern world The volume presents the argument that during the age of wars from 1914 to 1945 the establishment of the Soviet state in Russia and the birth of the communist movement had an enormous impact because of their promise of world revolution and international civil war Such perspective appeared even more plausible in the aftermath of the Second World War and of revolution in China which paved the way for the expansion

of communism in the post colonial world Communism challenged the West in the Cold War by means of anti capitalist modernization and anti imperialist mobilization showing itself to be a powerful factor in the politicization of global trends However the international legitimacy of communism declined rapidly in the post war era Soviet power exposed its inability to exercise hegemony as distinct from domination The consequences of Sovietization in Europe and the break between the Soviet Union and China were the primary reasons for the decline of communist influence and appeal Since communism lost its political credibility and cultural cohesion its global project had failed The ground was prepared for the devastating impact of Western globalization on communist regimes in Europe and the Soviet Union

Plural International Relations in a Divided World Stephen Chan, 2017-02-27 The world is troubled and full of misunderstandings It seems a new world order of fundamentalist violence and meaningless atrocity is upon us whilst civilised instruments for cooperation and compromise are becoming increasingly ineffective In this timely book Stephen Chan explores the historical and philosophical roots of difference and discord in the international system He begins with the introduction of the Westphalian system showing how throughout the 20th century new states from the Middle East Asia and Africa entered that system with reservations preconditions and great efforts to introduce new forms of concerts and congresses but without seriously challenging the international status quo By contrast the 21st century has brought turmoil and change in the form of militant Islam be it the Taleban Al Qaeda or ISIS whose varied roots and fluid emergence have so far prevented the West from being able to understand and combat it Developing Kissinger s suspicion of Saudi Arabia as an Islamic state in Westphalian dress Chan argues that what is at stake today is not the development of a new Caliphate or an old radicalism but the effort to supplant and replace the Westphalian system itself This is the complex and challenging reality to which a truly modern and persuasively relevant plural international relations must now adapt Whether it can do so remains to be seen

Mao and the Economic Stalinization of China, 1948-1953 Hua-Yu Li,2006-02-01 In the first systematic study of its kind Hua yu Li tackles one of the most important unresolved mysteries of the early history of the People s Republic of China _the economic policy shift of 1953 As a result of this policy shift the moderate economic policies of New Democracy were abruptly terminated _much sooner than specified by the official party line _and replaced with a radical Stalinist economic program called the general line for socialist transition Utilizing the rich archival materials released in China since the mid 1980s and Russian archival information released since the early 1990s Li presents a compelling explanation for the policy shift Placing the analysis within the larger context of the world communist movement communist ideology and Mao s complicated relationship with Stalin this book makes it clear that the policy shift was initiated by Mao and that he did so for two reasons First he was committed to a history text compiled under Stalin s guidance that purported to describe the Soviet experience of building socialism in the 1920s and 1930s Mao relied heavily on this text as a road map for China to follow in building socialism in the early 1950s Second Mao was driven by feelings of personal rivalry with Stalin and of national rivalry with the Soviet Union he wanted China to achieve socialism faster than the Soviet Union had The precise timing of the change Li argues resulted from Mao s belief that China was economically ready to build socialism and from his decision to interpret an ambiguous statement made by Stalin in October 1952 as a clear endorsement of a policy shift Li asserts that Mao was a

committed Stalinist that he dominated domestic policy decision making and that he skillfully maneuvered his way through his negotiations with Stalin in advancing his own agenda. Situating its analysis within the larger context of the world communist movement, this carefully researched book will have a profound impact on the fields of communist studies and Sino Soviet relations and in studies of Mao Stalin and their relationship.

The New Great Game Thomas Fingar, 2016-03-23 China's rise has elicited envy, admiration and fear among its neighbors. Although much has been written about this, previous coverage portrays events as determined almost entirely by Beijing. Such accounts minimize or ignore the other side of the equation, namely what individuals, corporate actors and governments in other countries do to attract, shape, exploit or deflect Chinese involvement. *The New Great Game* analyzes and explains how Chinese policies and priorities interact with the goals and actions of other countries in the region. To explore the reciprocal nature of relations between China and countries in South and Central Asia, *The New Great Game* employs numerous policy relevant lenses: geography, culture, history, resource endowments and levels of development. This volume seeks to discover what has happened during the three decades of China's rise and why it happened as it did, with the goal of deeper understanding of Chinese and other national priorities and policies and of discerning patterns among countries and issues.

In the Shadow of Fear Nick Bunker, 2023-10-03 An evocative portrait of a divided America at the dawn of the Cold War. Halfway through the twentieth century, the United States towered over the world in industrial might. After winning the 1948 election, Harry Truman hoped to use this economic strength to build on FDR's achievements with new liberal reforms. But then, in just ten months between September 1949 and June 1950, the president's ambitions were overtaken by events that left the country gripped by rage and fear. The Soviets tested an atomic bomb, Mao's army swept through China, and at home, Truman faced labor unrest and a Republican Party desperate for power. *In the Shadow of Fear* is an innovative and gripping history of this pivotal moment. Recounting the launch of Senator Joe McCarthy's anti-communist crusade, the defeat of Truman's liberal program, and the start of the Korean War, prizewinning historian Nick Bunker shows us a polarized nation facing crises at home and abroad, a story with deep resonances today.

Deng Xiaoping Alexander V. Pantsov, Steven I. Levine, 2015-04-01 Deng Xiaoping joined the Chinese Communist movement as a youth and rose in its ranks to become an important lieutenant of Mao's from the 1930s onward. Two years after Mao's death in 1976, Deng became the de facto leader of the Chinese Communist Party and the prime architect of China's post-Mao reforms. Abandoning the Maoist socio-economic policies he had long fervently supported, he set in motion changes that would dramatically transform China's economy, society and position in the world. Three decades later, we are living with the results: China has become the second largest economy and the workshop of the world. And while it is essentially a market economy, socialism with Chinese characteristics, Deng and his successors ensured the continuation of CCP rule by severely repressing the democratic movement and maintaining an iron grip on power. When Deng died at the age of 92 in 1997, he had set China on the path it is following to this day. Alexander Pantsov and Steven Levine's new biography of

Deng Xiaoping does what no other biography has done based on newly discovered documents it covers his entire life from his childhood and student years to the post Tiananmen era Thanks to unprecedented access to Russian archives containing massive files on the Chinese Communist Party the authors present a wealth of new material on Deng dating back to the 1920s In a long and extraordinary life Deng navigated one epic crisis after another Born in 1904 Deng like many Asian revolutionary leaders spent part of the 1920s in Paris where he joined the CCP in its early years He then studied in the USSR just as Stalin was establishing firm control over the Soviet communist party He played an increasingly important role in the troubled decades of the 1930s and 1940s that were marked by civil war and the Japanese invasion He was commissar of a communist dominated area in the early 1930s loyal henchman to Mao during the Long March regional military commander in the anti Japanese war and finally a key leader in the 1946 49 revolution During Mao s quarter century rule Deng oscillated between the heights and the depths of power He was purged during the Cultural Revolution only to reemerge after Mao s death to become China s paramount leader until his own death in 1997 This objective balanced and unprecedentedly rich biography changes our understanding of one of the most important figures in modern history **Avak Hakobian** Roy Weremchuk,2023-12-15 When conventional medicine fails reservations about alternative healing methods disappear This factor led to the young Armenian Persian faith healer Avak Hakobian being invited to the USA in 1947 His mission to heal a paralyzed Californian millionaire s son Then as now charismatic healers benefit from the assumption that they have access to a mystical source or transcendent energy Not a few people entrust such supposed healers with their physical as well as their spiritual well being Avak Hakobian From Fame to Failure is the previously untold story of one such healer who for a time made headline news
