**When the Soviet Union Entered World Politics** Jon Jacobson, 1994-11-07 The dissolution of the Soviet Union has aroused much interest in the USSR's role in world politics during its 74 year history and in how the international relations of the twentieth century were shaped by the Soviet Union Jon Jacobson examines Soviet foreign relations during the period from the end of the Civil War to the beginning of the first Five Year Plan focusing on the problems confronting the Bolsheviks as they sought to promote national security and economic development He demonstrates the central importance of foreign relations to the political imagination of Soviet leaders both in their plans for industrialization and in the struggle for supremacy among Lenin's successors Jacobson adopts a post Cold War interpretative stance incorporating glasnost and perestroika era revelations He also considers Soviet relations with both Europe and Asia from a global perspective integrating the two modes of early Soviet foreign relations revolution and diplomacy into a coherent discussion Most significantly he synthesizes the wealth of information that became available to scholars since the 1960s The result is a stimulating work of international history that interfaces with the sophisticated existing body of scholarship on early Soviet history

Contemporary World Politics Francis James Brown, 1939

*Czechoslovakia and the Czech Republic in World Politics* Ladislav Cabada, Šárka Waisová, 2011-01-01 The book focuses on the description and analysis of the historical formation of the Czechoslovak and Czech positions in the international system during the course of the 20th century The first part of the book presents a brief

outline of the history of Czechoslovak foreign policy between the First World War and the end of the Cold War The authors focus on the key periods and turning points in the role of the small Central European state in the international system as well as on the significant actors formulating Czechoslovak foreign policy from the inside and influencing it from the outside The second analytical part of the book focuses on the key issues connected to the change of the position of Czechoslovakia and the Czech Republic after 1993 in world politics and on the formulation of Czech foreign policy priorities and strategies in the globalized world after the end of bipolar confrontation The authors analytically investigate the activities of the Czech Republic in Central European regional integration processes and the integration of the state in the global system of development cooperation A great deal of attention is paid to the key political actors of the Czech foreign policy discussion and their impact on the formulation of foreign policy goals Special attention is paid to the dilemmas of Czech foreign policy the hesitation between the role of a small state and a medium power and also the span of Czech foreign policy between Atlanticism anti Americanism and Europeanization

**World Politics** Jeffrey Haynes, Peter Hough, Shahin Malik, Lloyd Pettiford, 2013-09-13 From the war on terror to the global financial crisis traditional concepts of world politics are being challenged on a daily basis In these uncertain times the study of international relations and the forces that shape them have never been more important Written specifically for students who are approaching this subject for the first time World Politics is the most accessible coherent and up to date account of the field available It covers the historical backdrop to today's political situations the complex interactions of states and non state actors the role of political economy human security in all its forms and the ways in which culture religion and identity influence events World Politics takes a new approach that challenges traditional interpretations and will equip students with the knowledge and the confidence needed to tackle the big issues

The Interregnum: Controversies in World Politics 1989-1999 Michael Cox, Ken Booth, Timothy Dunne, 1999 The Interregnum Controversies in World Politics 1989 1999 is a series of critical reflections on

the major controversies in and about world politics in the 1990s We are living in an era which seemingly defies description in social and political theory our age is frequently referred to as post modern in international relations we remain in the post Cold War age The age is only characterised by what it is not This collection of critical reflections written by leading scholars in the field sheds light on the meanings of world politics in what we are calling The Interregnum The central question of the Special Issue might be put as follows what do the major controversies in world politics in the 1990s tell us about the characteristics of the age who we are and where world politics might be going

**Political Leadership in the Soviet Union** Archie Brown, 1989-10-13 The central leadership of the Soviet political system in Moscow is analyzed by a group of Western political researchers The text covers the entire Soviet period from 1917 to the present day but special emphasis is placed on the post Stalin years and new developments of the 1980s

**Counterfactual Thought Experiments in World Politics** Philip E. Tetlock, Aaron Belkin, 2020-06-30 Political scientists often ask themselves what might have been if history had unfolded differently if Stalin had been ousted as General Party Secretary or if the United States had not dropped the bomb on Japan Although scholars sometimes scoff at applying hypothetical reasoning to world politics the contributors to this volume including James Fearon Richard Lebow Margaret Levi Bruce Russett and Barry Weingast find such counterfactual conjectures not only useful but necessary for drawing causal inferences from historical data Given the importance of counterfactuals it is perhaps surprising that we lack standards for evaluating them To fill this gap Philip Tetlock and Aaron Belkin propose a set of criteria for distinguishing plausible from implausible counterfactual conjectures across a wide range of applications The contributors to this volume make use of these and other criteria to evaluate counterfactuals that emerge in diverse methodological contexts including comparative case studies game theory and statistical analysis Taken together these essays go a long way toward establishing a more nuanced and rigorous framework for assessing counterfactual arguments about world politics in particular and about the social sciences more broadly

*The Indigenous Voice in World Politics* Franke Wilmer, 1993-09-10 Indigenous peoples represent the unfinished business of decolonization In this fascinating volume Franke Wilmer examines how indigenous activists are cultivating international support for a program of self determination and legal protection as well as how the indigenous voice in world politics is transforming civic discourse within the international community With the United Nations designation for 1993 as the Year of Indigenous Peoples this book could not be more timely in its subject matter or in its scale of coverage The Indigenous Voice in World Politics will serve as a benchmark text for students in ethnic studies political science development studies sociology and international relations The topic area that Dr Wilmer has defined is a vital one that will appeal to a broad and growing audience It is not only of great importance and interest morally and politically but in Wilmer's hands of great significance intellectually Indeed Wilmer's ability to combine the moral political with the intellectual theoretical is exceptional and a great source of this project's originality and power This book will find readers among human rights activists ethnologists sociologists cultural

Shaw,1989-07-17 Africa's international relations are in a state of transition as the continent enters the last decade of the twentieth century Old assumptions about development security diplomacy and dependence are being challenged by new realities of debt drought devaluation and destabilisation Collective self reliance remains elusive despite the demise of nationalism This collection identifies the major issues in Africa's foreign and development policies and prospects as she enters the 1990s **Transparency and American Primacy in World Politics** Professor James J Marquardt,2013-03-28 At a time when greater transparency is needed this book advances a novel explanation of America's efforts to advance greater transparency in international relations Marquardt argues that American statesmen have long sought to secure an American dominated international system to encourage states to be more open and forthcoming about their internal affairs Yet the United States routinely uses its calls for military transparency in particular as a policy instrument to discipline its rivals and therefore paradoxically contributes to greater tension in international relations In contrast to conventional thinking about transparency in relation to overcoming power politics and promoting international cooperation this book explores the relationship between America's power and international security competition Though analytically distinct openness and transparency have served the same strategic goal ensuring America's position of preponderance in the international system

World Health and World Politics Javed Siddiqi,1995 Using internal documents meeting records personal interviews and secondary sources Siddiqi analyses WHO policies and programmes from a non medical perspective He examines charges of politicization and traces their rise over the past two decades including their recent link to fears about a complete breakdown of multilateral cooperation Siddiqi also chronicles the Malaria Eradication Programme from its enthusiastic inauguration in the 1950s to its demise and substitution by less ambitious initiatives after 1969 Through this case study he illumines a strategic shift in WHO policy from the vertical approach of targeting a single disease to a horizontal multi pronged attack on a spectrum of health problems **When the Soviet Union Entered World Politics** Jon Jacobson,1994 The dissolution of the

Soviet Union has aroused much interest in the USSR's role in world politics during its 74 year history and in how the international relations of the twentieth century were shaped by the Soviet Union. Jon Jacobson examines Soviet foreign relations during the period from the end of the Civil War to the beginning of the first Five Year Plan focusing on the problems confronting the Bolsheviks as they sought to promote national security and economic development. He demonstrates the central importance of foreign relations to the political imagination of Soviet leaders both in their plans for industrialization and in the struggle for supremacy among Lenin's successors. Jacobson adopts a post Cold War interpretative stance incorporating glasnost and perestroika era revelations. He also considers Soviet relations with both Europe and Asia from a global perspective integrating the two modes of early Soviet foreign relations: revolution and diplomacy into a coherent discussion. Most significantly, he synthesizes the wealth of information that became available to scholars since the 1960s. The result is a stimulating work of international history that interfaces with the sophisticated existing body of scholarship on early Soviet history.
