Sovietology Rationality Nationality Coming To Grips With Nationalism In The U S S R:

Sovietology, Rationality, Nationality Alexander J. Motyl, 1990-01 **Nationalism and Communism in Eastern Europe and the Soviet Union** W. Kemp, 1999-02-08 Nationalism and Communism in Eastern Europe and the Soviet Union looks at communism's attempts to come to terms with nationalism between Marx and Yeltsin how the inability of communist theorists and practitioners to achieve an effective synthesis between nationalism and communism contributed to communism's collapse and what lessons that holds for contemporary Europe *Ukrainian Nationalism in the 1990s* Andrew Wilson, 1997 The complex interrelationship between Russia and Ukraine is arguably the most important single factor in determining the future politics of the Eurasian region In this book Andrew Wilson examines the phenomenon of Ukrainian nationalism and its influence on the politics of independent Ukraine arguing that historical ethnic and linguistic factors limit the appeal of narrow ethno nationalism even to many ethnic Ukrainians Nevertheless ethno nationalism has a strong emotive appeal to a minority who may therefore undermine Ukraine's attempts to construct an open civic state Ukraine is therefore a fascinating test case for alternative nation building strategies in countries of the former Soviet Union and Eastern Europe *Ethnicity, Nationalism and Conflict in and After the Soviet Union* Valery Tishkov, 1997 Valery Tishkov is a well known Russian historian and anthropologist and former Minister of Nationalities in Yeltsin's government This book draws on his inside knowledge of major events and extensive primary research Tishkov argues that ethnicity has a multifaceted role it is the most accessible basis for political mobilization a means of controlling power and resources in a transforming society and therapy for the great trauma suffered by individuals and groups under previous regimes This complexity helps explain the contradictory nature and outcomes of public ethnic policies based on a doctrine of ethno nationalism *Post-Soviet Political Order* Barnett Rubin, Jack Snyder, 2002-11-01 Post Soviet Political Order asks what is shaping the institutional pattern of the post Soviet political order what the new order will be like what patterns of conflict are emerging and what can be done about stabilising the region In considering these questions the contributors converge on four common themes the institutional legacy of empire the social processes unleashed by imperial collapse patterns of bargaining within and between states to resolve conflicts arising out of the imperial collapse the impact of the wider international setting on the pattern of post imperial politics Focusing on the former Soviet Union and Eastern European countries the contributors show how strong state institutions are essential if conflict and political instability are to be avoided Peoples and International Law James Summers, 2014-04-09 Peoples and International Law is a detailed survey of the law of self determination with a focus on the concept of nations and peoples It engages with different aspects of this law with particular emphasis on the drafting and implementation of international instruments The second edition includes new coverage of the Declaration on the Rights of Indigenous Peoples and the African and Arab charters It considers recent practice by the Human Rights Committee Committee on Economic Social and Cultural Rights and African Commission on Human and Peoples Rights dealing with the

emerging political economic and environmental aspects of the right The book looks at the interaction of international law nationalism and liberalism in theories of nationhood and self determination as well as the historical development of the right and the decisions of international bodies Lastly it examines practice in this area including new developments in remedial independence and international territorial administration Also available in hardback *Azerbaijan* Suha Bolukbasi, 2013-10-01 Azerbaijan's Soviet and post Soviet political history has been tumultuous and varied particularly with regard to the struggle for independence democracy and sovereignty Suha Bolukbasi here illustrates how post Stalin resilience the tolerance shown toward subtle nationalist expression and Gorbachev's relaxation of central control from Moscow were all in part responsible for the initial emergence of a more liberal atmosphere in Azerbaijan As a result issues such as Moscow's responsibility for environmental degradation the depletion of Azerbaijan's oil and unfavourable terms of trade have all begun to be freely discussed However the Azerbaijan Armenia dispute over Karabagh has had a dramatic impact on the political discourse The dispute has become not only an international conflict but one which involves the lives of more than one million refugees This book shows how Azerbaijan's recent political history both domestic and international has influenced the development of the country and the history of the surrounding region **Right-sizing the State** Brendan O'Leary, Ian S. Lustick, Thomas Callaghy, 2001-11-22 Strategic decisions to reduce the size scope or ambitions of organizations including states in order to enhance future prospects are among the most difficult and least well understood choices made in collective life This volume makes a bold effort to identify the conditions in which less really is more Each contributor to the volume analyzes the possibilities for institutional redesign including state contraction for responding effectively to destabilizing and often violence laden conflicts Among the countries discussed in detail are Turkey Pakistan Morocco Congo Jordan Indonesia Russia and the former Soviet Union Iraq and India An impressive array of experts assess strategies that go against the grain strategies to rightsize and even downsize states by changing their external and internal borders Typically this means opposing prevailing prejudices against partition and separatist solutions as well as paying high political costs in the short run for more manageable political problems in the long run Understanding the conditions under which such strategies can be entertained and successfully implemented is as difficult and as important as making this kind of option available to beleaguered states in a complex and rapidly changing world Georgia from National Awakening to Rose Revolution Jonathan Wheatley, 2017-05-15 Jonathan Wheatley examines the tortuous process of regime change in Georgia from the first pro independence protests of 1988 to the aftermath of the so called Rose Revolution in 2004 It is set within a comparative framework that includes other transition countries particularly those in the former Soviet Union The book provides two important theoretical innovations the notion of a regime which is an under theorized concept in the field of transition literature and O'Donnell Schmitter and Karl's notion of a dynamic actor driven transition The volume turns to the structural constraints that framed the transition in Georgia and in other republics of the former Soviet Union by looking at

the state and society in the USSR at the close of the Soviet period It examines the evolution and nature of the Georgian regime and ultimately addresses the theoretical and empirical problems posed by Georgia's so called Rose Revolution following the falsification of parliamentary elections by the incumbent authorities *Regime Transition in Central Asia* Dagikhudo Dagiev, 2013-10-30 Presenting a study of regime transition political transformation and the challenges that faced the post Communist republics of Central Asia on independence this book focuses on the process of transition in Tajikistan and Uzbekistan and the obstacles that these newly independent states are facing in the post Communist period The book analyses how in the early stages of their independence the governments of Central Asia declared that they would build democratic states but that in practice they demonstrated that they are more inclined towards authoritarianism With the declaration of independence Tajikistan and Uzbekistan like many other former Soviet national republics were faced with the issues of nationalism ethnicity identity and territorial delimitation This book looks at how the discourse of patrimonial nationalism in post Communist Tajikistan and Uzbekistan has been the elites strategy to address all these issues to maintain the stateness of their respective countries to preserve the unity of their nation to fill the ideological void of post Communism to prevent the rise of Islam and to legitimize their authoritarian practice Arguing against the claim that the Central Asian states have undergone divergent paths of transition the book discusses how they are in fact all authoritarian although exhibiting different degrees of authoritarianism This book provides a useful contribution to studies on Central Asian Politics and International Relations **European Coasts of Bohemia** Jiri Janac, 2013-08-01 The Danube Oder Elbe Canal promised to create an integrated waterway system across Europe linking Black Sea ports to Atlantic markets and giving landlocked Czech nation its own connections to the ocean The fascinating history of this never completed project *European Coasts of Bohemia* tells the story of the experts who confronted and contributed to different and often conflicting geopolitical visions of Europe Jiri Janac shows how the canal backers adapted themselves to various political developments such as the break up of the Austrian Hungarian Empire and the integration into the Soviet Bloc while still managing to keep the canal project alive

Institutions of Isolation Andrea Chandler, 1998-04-23 Chandler provides a comprehensive examination of border controls from the Bolshevik Revolution of 1917 to the collapse of the U S S R in 1991 and shows the continued importance of border controls for the newly independent Soviet successor states She reveals the changing nature of Soviet border control policy from the extreme Stalinist isolation of the 1930s to liberalization and eventual instability during perestroika in the late 1980s Chandler argues that Communist ideology was not the only reason for the self imposed isolation of the state and explores a complex ever changing set of political inter bureaucratic and economic factors that combined to influence the Soviet Union's closed border policies She draws on social science theories of comparative institutional change and state formation to illuminate policies within the Soviet state which has often been regarded as a unique case By exploring why a political system that originally prided itself on its internationalism devoted such intense efforts to seal its society from the

outside world Institutions of Isolation provides a revealing case study of the strengths and weaknesses of the Soviet state

The Rise of Nations in the Soviet Union Council on Foreign Relations,1991 In this collection of essays five experts on the Soviet Union describe the disintegration of the Soviet empire and its implications for American policy It begins with a historical overview of the multinational character of Russia and the Soviet Union with special attention to the similarities and differences between the present moment and the years immediately following the revolution of 1917 Other essays assess the strength of nationalism in the Soviet West the Baltics the Slavic republics of Belorussia Ukraine and Russia and Moldova and the Soviet South including Armenia Azerbaijan Georgia and the five largely Muslim republics of Central Asia Kazakhstan Uzbekistan Tajikistan Turkmenistan and Kirghizia The volume concludes with a look at the issues that the upheaval in the 15 republics presents for U S foreign and security policy ISBN 0 87609 100 1 pbk 14 95 **The Prospects for Liberal**

Nationalism in Post-Leninist States Cheng Chen,2010-11-01 **European Coasts of Bohemia** Jirí Janác,2025-10-01

The Danube Oder Elbe Canal attracted a great deal of attention throughout the twentieth century Its promoters The Danube Oder Elbe Canal attracted a great deal of attention throughout the twentieth century and defined it as a tool for integrating a divided Europe Although the canal was situated almost exclusively on Czech territory it promised to create an integrated waterway system across the Continent that would link Black Sea ports to Atlantic markets In return the landlocked Czechoslovakian state would have its own connections to the sea Today the canal is an important building block of the European Agreement on Main Inland Waterways This book provides a fascinating story of the experts who confronted and contributed to different and often conflicting geopolitical visions of Europe The canal was never completed yet what is more remarkable is the fact that the canal remained on various agendas and attracted vast resources throughout the twentieth century *The Politics of the Caspian Oil* B. Gokay,2001-01-19 The Caspian Caucasus region has received considerable

attention over the past eight years The old potential of this colossal territory is so significant that the analytical centres of the world s largest oil and refining companies consider it to be more long term than the unstable Persian Gulf The Politics of Caspian Oil is a collection of essays presenting the results of recent research which should serve as a reference book for the politics of Caspian oil **Russia and Its New Diasporas** Igor' Aleksandrovich Zevelëv,2001 Includes statistics

European Cosmopolitanism Gurminder K. Bhambra,John Narayan,2016-10-26 This book provides a fresh examination of the cosmopolitan project of post war Europe from a variety of perspectives It explores the ways in which European cosmopolitanism can be theorized differently if we take into account histories which have rarely been at the forefront of such understandings It also uses neglected historical resources to draw out new and unexpected entanglements and connections between understandings of European cosmopolitanism both in Europe and elsewhere The final part of the book places European cosmopolitanism in tension with contemporary postcolonial configurations around diaspora migration and austerity Overall it seeks to draw attention to the ways in which Europe s posited others have always been very much a part of Europe

s colonial histories and its postcolonial present The Germans of the Soviet Union Irina Mukhina, 2007-03-06 Using rarely seen archival information this book provides an account of the experiences of the Germans living in the Soviet Union from the early post revolution period to the post Soviet era following the collapse of communism **The New Cold War?** Mark Juergensmeyer, 2023-04-28 Will the religious confrontations with secular authorities around the world lead to a new Cold War Mark Juergensmeyer paints a provocative picture of the new religious revolutionaries altering the political landscape in the Middle East South Asia Central Asia and Eastern Europe Impassioned Muslim leaders in Egypt Palestine and Algeria political rabbis in Israel militant Sikhs in India and triumphant Catholic clergy in Eastern Europe are all players in Juergensmeyer's study of the explosive growth of religious movements that decisively reject Western ideas of secular nationalism Juergensmeyer revises our notions of religious revolutions Instead of viewing religious nationalists as wild eyed anti American fanatics he reveals them as modern activists pursuing a legitimate form of politics He explores the positive role religion can play in the political life of modern nations even while acknowledging some religious nationalists proclivity to violence and disregard of Western notions of human rights Finally he situates the growth of religious nationalism in the context of the political malaise of the modern West Noting that the synthesis of traditional religion and secular nationalism yields a religious version of the modern nation state Juergensmeyer claims that such a political entity could conceivably embrace democratic values and human rights Will the religious confrontations with secular authorities around the world lead to a new Cold War Mark Juergensmeyer paints a provocative picture of the new religious revolutionaries altering the political landscape in the Middle East South Asia Centr
