The South African Tradition of Racial Capitalism Zachary

Levenson, Marcel Paret, 2024-06-28 This book documents the emergence and development of the theory of racial capitalism in apartheid South Africa It interrogates the specificity of this theory in the South African context and draws lessons for its global applicability The volume was originally published as a special issue of Ethnic and Racial Studies

Hierarchies at Work Karen Engle, Neville Hoad, 2025-06-10 This book challenges dominant understandings of both economic inequality and the future of work Leading scholars in law social sciences and the humanities consider the production and reproduction of global hierarchies by revisiting and deploying three critical approaches that emerged in the late twentieth century racial capitalism world systems theory and critical legal distributional analysis They demonstrate that these methods especially when brought together offer new insights into the forces that entrench the asymmetries of power and wealth that are too often shorthanded as inequality They also uncover elisions and erasures of the past and present in prevailing technological determinist narratives about the future of work Hierarchies at Work features powerful grounded studies of the dynamics of work and livelihood in sites ranging from garment factories in Jordan and palm oil fields in Colombia to dairy farms in the United States These studies underscore the necessity of thinking about the future of work and livelihoods through their racialized past and present and recognizing the systemic role of law in unequal distribution Highlighting alternative imaginaries that contest systems of domination and subordination this timely book offers resources to spur more just futures across local and global levels

Pluralizing Humanism Slavica Jakelić, 2025-02-28 Humanism is appealed to today whenever we want to tackle the conditions of dehumanization in the contemporary world But for humanism to be viable in the twenty first century this book argues it needs to be pluralized Employing theoretical historical and sociological arguments this book moves beyond the discourse of critique It engages theories of religion and secularism as well as postmodern postcolonial and decolonial critiques of Western humanist projects to uncover the ideas and practices of religious and secular humanisms when they challenge dehumanization in the pursuit of conditions of flourishing for all Through studies of the Solidarity movement in Poland and the anti apartheid movement in South Africa the book demonstrates the centrality of humanist traditions to the emergence of religious secular solidarities that transformed the political landscapes of the world By highlighting the instances in which humanisms functioned as checks on each other's absolutist claims the book contends that humanisms supply a constructive path for addressing the challenges of our time a time of radically divided societies and intolerant even violent forms of nationalism A challenge to the critiques of humanism that seek to identify it solely as the legacy of the West as anti religious discourse or relegate it to the domain of power constellations Pluralizing Humanism highlights the rich plurality of humanist discourses and the need for their mutual engagements It points to humanist ideals as constitutive of politics that can guide our human power because they are

irreducible to it As such this book will appeal to social scientists social theorists religious studies scholars and ethicists with interests in religion secularism social movements and humanist thought and practice **Biko Lives!** A. Mngxitama,A. Alexander,N. Gibson,2008-07-07 This collection looks at the on going significance of Black Consciousness situating it in a global frame examining the legacy of Steve Biko the current state of post apartheid South African politics and the culture and history of the anti apartheid movements **Black Political Thought in the Making of South African Democracy** C.R.D. Halisi,1999 a comprehensive analytical survey of the multidimensional evolution of black political thought in South Africa s politicization process Choice Many citizens experience a sense of reluctance to share a single national identity with all of those who are defined by law to be their compatriots This problem can be explained and surmounted but it cannot be evaded by those who aspire to build a stable democracy in South Africa Richard L Sklar from the Foreword What will it mean to be a citizen in the new South Africa This penetrating study analyzes the issues of dual citizenship black consciousness populism racial proletarianization and their interaction with various political ideologies Halisi s analysis has practical implications for the development of political identity in the new South Africa Why Race Matters in South Africa Michael MacDonald,2006 This book tells the story of how the transition to democracy in South Africa enfranchised blacks politically but without raising most of them from poverty Although democratic South Africa is officially non racial the book shows that racial solidarities continue to play a role in the country s political economy A Future South Africa Peter L. Berger,2019-08-22 This book identifies the key actors whose visions and strategies are crucial to the pattern which change will take in South Africa These actors their visions and strategic logic were subjected to a critique by their researchers in the light of contemporary South African realities *Race, Ethnicity And Nation* Peter Ratcliffe,2005-08-17 An international and comparative analysis of social division rooted in race ethnicity and national identity It provides an overview of the key issues underlying ethnic conflict which has now risen to the top of the international political agenda *The Opening of the Apartheid Mind* Heribert Adam,Kogila Moodley,2023-12-22 Refusing to be governed by what is fashionable or inoffensive Heribert Adam and Kogila Moodley frankly address the passions and rationalities that drive politics in post apartheid South Africa They argue that the country s quest for democracy is widely misunderstood and that public opinion abroad relies on stereotypes of violent tribalism and false colonial analogies Adam and Moodley criticize the personality cult surrounding Nelson Mandela and the accolades accorded F W de Klerk They reject the black versus white conflict and substitute sober analysis and strategic pragmatism for the moral outrage that typifies so much writing about South Africa Believing that the best expression of solidarity emanates from sympathetic but candid criticism they pose challenging questions for the African National Congress and Nelson Mandela They give in depth coverage to political violence the ANC South African Communist Party alliance Inkatha and other controversial topics as well The authors do not propose a solution that will guarantee a genuinely democratic South Africa What they offer is an understanding of the country s social conditions and political constraints and

they sketch options for both a new South Africa and a new post Cold War foreign policy for the whole of southern Africa The importance of this book is as immediate as today s headlines Refusing to be governed by what is fashionable or inoffensive Heribert Adam and Kogila Moodley frankly address the passions and rationalities that drive politics in post apartheid South Africa They argue that the country s quest for democracy is widely Debating African Philosophy George Hull,2018-11-21 In African countries there has been a surge of intellectual interest in foregrounding ideas and thinkers of African origin in philosophy as in other disciplines that have been unjustly ignored or marginalized African scholars have demonstrated that precolonial African cultures generated ideas and arguments which were at once truly philosophical and distinctively African and several contemporary African thinkers are now established figures in the philosophical mainstream Yet despite the universality of its themes relevant contributions from African philosophy have rarely permeated global philosophical debates Critical intellectual excavation has also tended to prioritize precolonial thought overlooking more recent sources of home grown philosophical thinking such as Africa s intellectually rich liberation movements This book demonstrates the potential for constructive interchange between currents of thought from African philosophy and other intellectual currents within philosophy Chapters authored by leading and emerging scholars recover philosophical thinkers and currents of ideas within Africa and about Africa bringing them into dialogue with contemporary mainstream philosophy foreground the relevance of African theorizing to contemporary debates in epistemology philosophy of language moral political philosophy philosophy of race environmental ethics and the metaphysics of disability make new interventions within on going debates in African philosophy consider ways in which philosophy can become epistemically inclusive interrogating the contemporary call for decolonization of philosophy Showing how foregrounding Africa its ideas thinkers and problems can help with the project of renewing and improving the discipline of philosophy worldwide this book will stimulate and challenge everyone with an interest in philosophy and is essential reading for upper level undergraduate students postgraduate students and scholars of African and Africana philosophy **Rethinking the South African Crisis** Gillian Hart,2014-03-15 Since the end of apartheid South Africa has become an extreme yet unexceptional embodiment of forces at play in many other regions of the world intensifying inequality alongside wageless life proliferating forms of protest and populist politics that move in different directions and official efforts at containment ranging from liberal interventions targeting specific populations to increasingly common police brutality Rethinking the South African Crisis revisits long standing debates to shed new light on the transition from apartheid Drawing on nearly twenty years of ethnographic research Hart argues that local government has become the key site of contradictions Local practices conflicts and struggles in the arenas of everyday life feed into and are shaped by simultaneous processes of de nationalization and re nationalization Together they are key to understanding the erosion of African National Congress hegemony and the proliferation of populist politics This book provides an innovative analysis of the ongoing unstable and unresolved crisis in South Africa today It also suggests how Antonio Gramsci s concept of passive

revolution adapted and translated for present circumstances with the help of philosopher and liberation activist Frantz Fanon can do useful analytical and political work in South Africa and beyond
