(Kees) van Dijk,Jean Gelman Taylor,2011-01-01 Recent years have shown an increase in interest in the study of cleanliness from a historical and sociological perspective Many of such studies on bathing and washing on keeping the body and the streets clean and on filth and the combat of dirt focus on Europe In Cleanliness and Culture attention shifts to the tropics to Indonesia in colonial times as well as in the present Subjects range from the use of soap and the washing of clothes as a pretext to claim superiority of race and class to how references to being clean played a role in a campaign against European homosexuals in the Netherlands Indies at the end of the 1930s Other topics are eerie skin diseases and the sanitary measures to eliminate them and how misconceptions about lack of hygiene as the cause of illness hampered the finding of a cure Attention is also drawn to differences in attitude towards performing personal body functions outdoors and retreating to the privacy of the bathroom to traditional bathing ritual and to the modern tropical Spa culture as a manifestation of a New Asian lifestyle With contributions by Bart Barendregt Marieke Bloembergen Kees van Dijk Mary Somers Heidhues David Henley George Quinn and Jean Gelman Taylor

Green Consumption Bart Barendregt,Rivke Jaffe,2014-02-27 Green lifestyles and ethical consumption have become increasingly popular strategies in moving towards environmentally friendly societies and combating global poverty Where previously environmentalists saw excess consumption as central to the problem green consumerism now places consumption at the heart of the solution However ethical and sustainable consumption are also important forms of central to the creation and maintenance of class distinction Green Consumption scrutinizes the emergent phenomenon of what this book terms eco chic a combination of lifestyle politics environmentalism spirituality beauty and health Eco chic connects ethical sustainable and elite consumption It is increasingly part of the identity kit of certain sections of society who seek to combine taste and style with care for personal wellness and the environment This book deals with eco chic as a set of activities an ideological framework and a popular marketing strategy offering a critical examination of its manifestations in both the global North and

South The diverse case studies presented in this book range from Basque sheep cheese production and Ghanaian Afro chic hairstyles to Asian tropical spa culture and Dutch fair trade jewellery initiatives The authors assess the ways in which eco chic with its apparent paradox of consumption and idealism can make a genuine contribution to solving some of the most pressing problems of our time
