Space City And Social Theory:

Space, the City and Social Theory Fran Tonkiss, 2005 Taking a thematic approach this book covers the main aspects of modern urban life taught on undergraduate courses The key approaches to the city within contemporary social theory are assessed Tonkiss adopts an international perspective with examples drawn from places such as New York Paris and Sydney

Space and Social Theory Andrzej J L Zieloniec, 2007-10-29 The importance of the spatial dimension of the structure organization and experience of social relations is fundamental for sociological analysis and understanding Space and Social Theory is an essential primer on the theories of space and inherent spatiality guiding readers through the contributions of key and influential theorists Marx Simmel Lefebvre Harvey and Foucault Giving an essential and accessible overview of social theories of space this book shows why it matters to understand these theorists spatially It will be of interest to upper level students and researchers of social theory urban sociology urban studies human geography and urban politics Social

Theory of Modern Societies David Held, John Brookshire Thompson, John B. Thompson, 1989-12-07 This book offers a comprehensive appraisal of the work of Anthony Giddens who is known worldwide as one of the leading figures in social theory and the social sciences During the last decade Giddens has published a series of substantial volumes which have defined a distinctive and original theoretical approach The twin focal points of his approach are the theory of structuration and the analysis of modernity Giddens's writings on these and related themes are widely recognized as among the most important contributions to theoretical debate in the social sciences Social Theory of Modern Societies is the first volume to provide a systematic and critical assessment of Giddens's contributions The volume includes eleven critical essays all of which were specially commissioned for this volume by authors who are well known in their own fields Zygmunt Bauman Richard J Bernstein Derek Gregory Nicky Gregson David Held Bob Jessop Linda Murgatroyd Peter Saunders Martin Shaw John B Thompson and Erik Olin Wright In a long concluding chapter Anthony Giddens responds to the criticisms raised by these and other authors clarifying and elaborating his current views The result is a unique and engaging book which gives both a critical evaluation of Giddens's work and a guide to some of the theoretical issues which are at the forefront of the social sciences today It will be of interest to students and academics in sociology politics and geography and to students in the social sciences and humanities generally **The SAGE Handbook of the 21st Century City** Suzanne Hall, Ricky

Burdett, 2017-10-16 The SAGE Handbook of the 21st Century City focuses on the dynamics and disruptions of the contemporary city in relation to capricious processes of global urbanisation mutation and resistance An international range of scholars engage with emerging urban conditions and inequalities in experimental ways speaking to new ideas of what constitutes the urban highlighting empirical explorations and expanding on contributions to policy and design The handbook is organised around nine key themes through which familiar analytic categories of race gender and class as well as binaries such as the urban rural are readdressed These thematic sections together capture the volatile processes and intricacies of

urbanisation that reveal the turbulent nature of our early twenty first century Hierarchy Elites and Evictions Productivity Over investment and Abandonment Authority Governance and Mobilisations Volatility Disruption and Adaptation Conflict Vulnerability and Insurgency Provisionality Infrastructure and Incrementalism Mobility Re bordering and De bordering Civility Contestation and Encounter Design Speculation and Imagination This is a provocative inter disciplinary handbook for all academics and researchers interested in contemporary urban studies **The ^AOxford Handbook of Cognitive Sociology** Wayne H. Brekhus,Gabe Ignatow,2019-06-26 The Oxford Handbook of Cognitive Sociology will serve as a resource for social researchers interested in how cognitive sociology can contribute to research within their substantive areas of focus and for faculty and graduate students interested in cognitive sociology s main contributions and the central debates within the field In particular the volume includes a broad range of cognitive sociological perspectives as the classical sociological and newer interdisciplinary approaches to cognition are often covered separately by scholars **Havana** Susan Fitzgerald,2022-05-01 Following the crisis of the Special Period Cuba promoted urban agriculture throughout its towns and cities to address food sovereignty and security Through the adoption of state recommended design strategies these gardens have become places of social and economic exchange throughout Cuba This book maps the lived experiences surrounding three urban farms in Havana to construct a deeper understanding about the everyday life of this city Using narratives and drawings this research uncovers these sites as places where education intimacy entrepreneurship wellbeing and culture are interwoven alongside food production Henri Lefebvre s latent work on rhythmanalysis is used as a research method to capture the everyday beats particular to Havana surrounding these sites This book maps the many ways in which these spaces shift power away from the state to become places that are co created by the community to serve as a crucial hinge point between the ongoing collapse of the city and its future wellbeing **Seeing the City Digitally** Gillian Rose,2025-10-01 This book explores what s happening to ways of seeing urban spaces in the contemporary moment when so many of the technologies through which cities are visualised are digital Cities have always been pictured in many media and for many different purposes This edited collection explores how that picturing is changing in an era of digital visual culture Analogue visual technologies like film cameras were understood as creating some sort of a trace of the real city Digital visual technologies in contrast harvest and process digital data to create images that are constantly refreshed modified and circulated Each of the chapters in this volume examines a different example of how this processual visuality is reconfiguring the spatial and temporal organisation of urban life **Social Theory and the Environment** David Goldblatt,2013-05-28 This book establishes whether contemporary social theory can help us understand the structural origins of environmental degradation and environmental politics **The Routledge Handbook of Henri Lefebvre, The City and Urban Society** Michael E. Leary-Owhin,John P. McCarthy,2019-11-21 The Routledge Handbook of Henri Lefebvre The City and Urban Society is the first edited book to focus on Lefebvre s urban theories and ideas from a global perspective making use of recent theoretical and empirical

developments with contributions from eminent as well as emergent global scholars The book provides international comparison of Lefebvrian research and theoretical conjecture and aims to engage with and critique Lefebvre s ideas in the context of contemporary urban social and environmental upheavals to use Lefebvre s spatial triad as a research tool as well as a point of departure for the adoption of ideas such as differential space to reassess Lefebvre s ideas in relation to nature and global environmental sustainability and to highlight how a Lefebvrian approach might assist in mobilising resistance to the excesses of globalised neoliberal urbanism The volume draws inspiration from Lefebvre s key texts The Production of Space Critique of Everyday Life and The Urban Revolution and includes a comprehensive introduction and concluding chapter by the editors The conclusions highlight implications in relation to increasing spatial inequalities increasing diversity of needs including those of migrants more authoritarian approaches and asymmetries of access to urban space Above all the book illustrates the continuing relevance of Lefebvre s ideas for contemporary urban issues and shows via global case studies how resistance to spatial domination by powerful interests might be achieved The Handbook helps the reader navigate the complex terrain of spatial research inspired by Lefebvre In particular the Handbook focuses on the series of struggles globally for the right to the city and the collision of debates around the urban age cityism and planetary urbanisation It will be a guide for graduate and advanced undergraduate teaching and a key reference for academics in the fields of Human Geography Sociology Political Science Applied Philosophy Planning Urban Theory and Urban Studies Practitioners and activists in the field will also find the book of relevance

Migration and Domestic Space Paolo Boccagni, Sara Bonfanti, 2023-03-24 This open access book provides insight into the domestic space of people with an immigrant or refugee background It selects and compares a whole spectrum of dwelling conditions with ethnographic material covering a variety of national backgrounds Latin America North and West Africa Eastern Europe South Asia and an equally broad range of housing household and legal arrangements It provides a fine grained understanding of migrants lived experience of their domestic space and shows the critical significance of the lived space of a house as a microcosm of societal constellations of identities values and inequalities The book enhances the connection between migration studies and research into housing social reproduction domesticity and material culture and provides an interesting read to scholars in migration studies policy makers and practitioners with a remit in local housing and integration policies This wonderful edited collection extends our understanding of migration not only into the confines of the domestic space but also into the territory of the ethnographer What does it mean to be a guest in a migrant home This collection of chapters traverses this question in diverse settings and circumstances of homemaking Boccagni and Bonfanti have skilfully created an intricate lace of ethnographic accounts that provides a nuanced understanding of the built environments where migrants live how they relate to their homes and how this is articulated in their attitudes toward majority society The chapters each on its own and together as a collection advance our understanding of the researcher being a guest in the migrant home just like the migrant

being a guest in the host country This complexity of ethnography and positionality makes this edited book an essential reading for migration scholars and ethnographers alike Iris Levin Lecturer in Urban Studies RMIT University Melbourne Australia This book demonstrates how ethnographies of home and dwelling can bear on the study of migration and its manifestation in domestic space Entering someone's home as a researcher challenges our ethical registers the researcher moves between being a stranger and a guest The authors point to the dilemmas researchers encounter in intimate settings and how they might be resolved A valuable and timely book for researchers on dwelling home and movement Cathrine Brun Professor of Human Geography Centre for Lebanese Studies Oxford UK This excellent collection delves into the relationship between migration domesticity and material culture It is ethnographically rich and impressively varied in its geographical scope with insights that will prove extremely useful to scholars and practitioners alike The great strength of the volume lies in the fascinating diversity granular detail and methodological care of the contributions with authors deploying concepts and arguments that prepare a great deal of fertile ground for future work Tom Scott Smith Associate Professor of Refugee Studies and Forced Migration University of Oxford This insightful collection departs from the simple yet significant question of roles What happens when the researcher participant relationship becomes guest host instead By seeing and interpreting domestic spaces as ethnographic field sites the contributions shed light on refugees and other migrants lived experiences of home and housing Drawing on empirical evidence from diverse types of homes across geographic locations Migration and domestic space Ethnographies of home in the making offers valuable and fresh perspective encouraging new connections between material and emotional public and private in migration research Marta Bivand Erdal Research Professor in Migration studies Peace Research Institute Oslo PRIO

The Routledge Handbook of the Byzantine City Nikolas Bakirtzis, Luca Zavagno, 2024-01-31 The Byzantine world contained many important cities throughout its empire Although it was not urban in the sense of the word today its cities played a far more fundamental role than those of its European neighbors This book through a collection of twenty four chapters discusses aspects of and different approaches to Byzantine urbanism from the early to late Byzantine periods It provides both a chronological and thematic perspective to the study of Byzantine cities bringing together literary documentary and archival sources with archaeological results material culture art and architecture resulting in a rich synthesis of the variety of regional and sub regional transformations of Byzantine urban landscapes Organized into four sections this book covers Theory and Historiography Geography and Economy Architecture and the Built Environment and Daily Life and Material Culture It includes more specialized accounts that address the centripetal role of Constantinople and its broader influence across the empire Such new perspectives help to challenge the historiographical balance between margins and metropolis and also to include geographical areas often regarded as peripheral like the coastal urban centers of the Byzantine Mediterranean as well as cities on islands such as Crete Cyprus and Sicily which have more recently yielded well excavated and stratigraphically sound urban sites The Routledge Handbook

of the Byzantine City provides both an overview and detailed study of the Byzantine city to specialist scholars students and enthusiasts alike and therefore will appeal to all those interested in Byzantine urbanism and society as well as those studying medieval society in general

Illuminating Social Life Peter Kivisto, 2012-11-02 The sixth edition of Peter Kivisto's popular anthology *Illuminating Social Life* continues to demonstrate to students how social theories can help them make sense of the swirling events and perplexing phenomena that they encounter in their daily lives A perfect complement for sociological theory courses this updated edition includes 13 original essays by leading scholars in the field that help students better understand and appreciate the relevance of social theory Once again Peter Kivisto's collection illuminates the connection between sociological theory and the realities that students are faced with every day from the Internet alcohol use and body building to shopping malls the working world and fast food restaurants Contributor to the SAGE Teaching Innovations and Professional Development Award

Class and Space (RLE Social Theory) Nigel Thrift, Peter Williams, 2014-09-04 This book is about the place of space in the study of class formation It consists of a set of papers that fix on different aspects of the human geography of class formation at different points in the history of Britain and the United States over the course of the last 200 years The book shows that the geography of class formation is a valuable and cross disciplinary tool in the study of modern societies integrating the work of human geographers with that of social historians sociologists social anthropologists and other social scientists in an enterprise which emphasises the essential unity of social science

Urban Theory John Rennie Short, 2017-08-24 This wide ranging and state of the art new edition reviews the classic contributions to understanding modern and post modern cities and is comprehensively updated to take account of the issues and concepts at stake in 21st century urban theory

Approaching Transnationalisms Brenda Yeoh, Michael W. Charney, Tong Chee Kiong, 2011-06-28 The term transnationalism has gained considerable academic and popular currency despite a lack of clear definitions in part because its overall form changes as its influence incorporates additional spheres of daily life on a variety of scales and contexts The purpose of this volume is to bring together different perspectives on this phenomenon using case studies that represent some of the most current thinking on transnationalism in a wide range of disciplines Central themes which this book explores include legal and economic reactions to transnational migration the re negotiation of identities in the context of changing national social and cultural identities and the emergence of new imaginings of home and social space in transnational communities *Approaching Transnationalisms Studies on Transnational Societies Multicultural Contacts and Imaginings of Home* foregrounds powerful transnational forces crossing the boundaries of nation states and at the same time gives attention to the continued significance of the nation state and the diversity of localized reactions to transnational challenges

Henri Lefebvre Chris Butler, 2012-10-12 While certain aspects of Henri Lefebvre's writings have been examined extensively within the disciplines of geography social theory urban planning and cultural studies there has been no comprehensive consideration of his work within legal studies *Henri Lefebvre Spatial Politics Everyday Life and the Right to*

the City provides the first serious analysis of the relevance and importance of this significant thinker for the study of law and state power Introducing Lefebvre to a legal audience this book identifies the central themes that run through his work including his unorthodox humanist approach to Marxist theory his sociological and methodological contributions to the study of everyday life and his theory of the production of space These elements of Lefebvre s thought are explored through detailed investigations of the relationships between law legal form and processes of abstraction the spatial dimensions of neoliberal configurations of state power the political and aesthetic aspects of the administrative ordering of everyday life and the right to the city as the basis for asserting new forms of spatial citizenship Chris Butler argues that Lefebvre s theoretical categories suggest a way for critical legal scholars to conceptualise law and state power as continually shaped by political struggles over the inhabitation of space This book is a vital resource for students and researchers in law sociology geography and politics and all readers interested in the application of Lefebvre s social theory to specific legal and political contexts

Murder in Space City Henry Peder Lundsgaarde,1977 **Telecommunications and the City** Steve Graham,Simon Marvin,2002-11-01 Telecommunications and the City provides the first critical and state of the art review of the relations between telecommunications and all aspects of city development and management Drawing on a range of theoretical approaches and a wide body of recent research the book addresses key academic and policy debates about technological change and the future of cities with a fresh perspective Through this approach the complex and crucial transformations underway in cities in which telecommunications have central importance are mapped out and illustrated Key areas where telecommunications impinge on the economic social physical environmental and institutional development of cities are illustrated by using boxed extracts and wide range of case study examples from Europe Japan and North America Rejecting the extremes of optimism and pessimism in current hype about cities and telecommunications Telecommunications and the City offers a sophisticated new perspective through which city telecommunications relations can be understood *The Algorithmic Society* Marc Schuilenburg,Rik Peeters,2020-12-29 We live in an algorithmic society Algorithms have become the main mediator through which power is enacted in our society This book brings together three academic fields Public Administration Criminal Justice and Urban Governance into a single conceptual framework and offers a broad cultural political analysis addressing critical and ethical issues of algorithms Governments are increasingly turning towards algorithms to predict criminality deliver public services allocate resources and calculate recidivism rates Mind boggling amounts of data regarding our daily actions are analysed to make decisions that manage control and nudge our behaviour in everyday life The contributions in this book offer a broad analysis of the mechanisms and social implications of algorithmic governance Reporting from the cutting edge of scientific research the result is illuminating and useful for understanding the relations between algorithms and power Topics covered include Algorithmic governmentality Transparency and accountability Fairness in criminal justice and predictive policing Principles of good digital administration Artificial
