Global Perspectives on War, Gender and Health Hannah Bradby,2016-04-22 Rendering the suffering of the marginalized visible has been an important aspect of feminist sociological studies of health illness and medicine with the subjective experience of those without access to institutional power being at the forefront of the research This volume analyzes the links between the suffering caused by the intentional violence of war and the unintentional suffering engendered by modern medicinal processes By establishing a fitting tribute to the academic and campaigning work of Meg Stacey *Global Perspectives on War Gender and Health* responds to her challenge of why medical sociology had not yet turned its gaze upon the health consequences of war A selection of international case studies are used to create a volume of significant interest to sociologists and those working in the fields of anthropology social policy social work peace war and security studies and international development

Gender and International Security Laura Sjoberg,2009-10-16 This book defines the relationship between gender and international security analyzing and critiquing international security theory and practice from a gendered perspective Gender issues have an important place in the international security landscape but have been neglected both in the theory and practice of international security The passage and implementation of UN Security

Council Resolution 1325 on Security Council operations the integration of gender concerns into peacekeeping the management of refugees post conflict disarmament and reintegration and protection for non combatants in times of war shows the increasing importance of gender sensitivity for actors on all fronts in global security This book aims to improve the quality and quantity of conversations between feminist security studies and security studies more generally in order to demonstrate the importance of gender analysis to the study of international security and to expand the feminist research program in Security Studies The chapters included in this book not only challenge the assumed irrelevance of gender they argue that gender is not a subsection of security studies to be compartmentalized or briefly considered as a side issue Rather the contributors argue that gender is conceptually empirically and normatively essential to studying international security They do so by critiquing and reconstructing key concepts of and theories in international security by looking for the increasingly complex roles women play as security actors and by looking at various contemporary security issues through gendered lenses Together these chapters make the case that accurate rigorous and ethical scholarship of international security cannot be produced without taking account of women s presence in or the gendering of world politics This book will be of interest to all students of critical security studies gender studies and International Relations in general Laura Sjoberg is Assistant Professor of Political Science at the University of Florida She has a Phd in International Relations and Gender Studies from the University of Southern California and is the author of *Gender Justice and the Wars in Iraq* 2006 and with Caron Gentry *Mothers Monsters Whores Women s Violence in Global Politics* 2007 International Peacekeeping: The Yearbook of International Peace Operations Louise Olsson, 2009-05-15 This book expands the inquiry of United Nations peace operations to incorporate their effects on the equality of the host state To achieve this a mainstream based analytical framework additionally informed by suggestions from feminist research is formulated and applied to the case of Timor Leste The study makes two contributions Firstly it enhances our ability to trace changes in the power balance between men and women by developing the concept of gender power relations especially introducing security equality understood as the distribution of protection between men and women Secondly when the concept of gender power relations had been developed to enable a more fine grained analysis the project proceeds to systematically explore effects of peace operations on these power relations in the host state The results shows the importance of considering the differences in situation of men and women in order both to avoid doing harm and to obtain a more equal peace *Asian Cities in an Era of Decentralisation* Fiona Buckley, Yvonne Galligan, 2016-02-08 This book explores the relationship between women the state and democratic politics in Ireland today It highlights the conservatism of the political culture shared by all traditions on the island and how this culture circumscribes women s political agency in Northern Ireland and Ireland The book explores the opportunities and obstacles to women s participation and representation on each side of the border The chapters take the view that public decision making institutions and processes are subject to rules and practices that reinforce the gendered foundations of

democratic politics They document women s continuing quest for full participation and equal representation in these male gendered arenas The contributors focus on the marginalised experiences of women in modern politics in Ireland and detail their efforts to challenge the masculinized status quo The book addresses the classical issues of citizenship participation representation and equal rights in a sustained analysis of the political systems on the island It also deals with modern issues multiculturalism peace building the male gendered legislature and the unequal nature of women s citizenship in constitutional institutional and policy contexts The book is completed by a comprehensive appendix of all women elected to political office on the island from 1918 2013 This book was published as a special issue of Irish Political Studies *Circles on the Mountain* Janet M. Powers, Marica Prozo, 2016-07-25 This book combines scholarly research with first person interviews to examine the current state of women in Bosnia twenty years after the Balkan War their emotional recovery their economic situation and their prospects for the future It describes how two of the worst issues affecting Bosnian women today are domestic violence and trafficking Both are being addressed successfully by Bosnian women s organizations applying skills developed earlier in coping with rape and war trauma It demonstrates how these organizations shoulder a societal load that various levels of government have no will or budget to address and shows that in parts of central Bosnia feelings still run high between Christians and Muslims The authors argue that where ethnic hostility persists in rural areas successful peace building should include ethnic song and dance as well as dialog groups

Gender, Governance and International Security Nicola Pratt, Sophie Richter-Devroe, 2016-04-08 The United Nations Security Council in 2000 unanimously passed a resolution calling for women s increased participation in conflict prevention and peacebuilding as well as their protection during conflict This marked the first time that the UN Security Council explicitly addressed gender issues in conflict and post conflict situations But what difference has this international agenda on Women Peace and Security made to women s lives on the ground and to the governance of international peace and security This volume provides a critical evaluation of the mainstreaming of gender issues in matters of international peace and security resulting from the passage of Resolution 1325 in 2000 It considers how this agenda actually plays out in different contexts and with what implications for women s activism and for peace and security The picture that emerges is not uniform obliging us to reconsider the links between gender conflict different visions of peace and consequently different projects of peacebuilding Consequently the book poses new questions for transnational feminist scholars and activists This book was based on a special issue of the International Feminist Journal of Politics

Gender and Citizenship Maria-Adriana Deiana, 2018-04-30 This book examines the remaking of women s citizenship in the aftermath of conflict and international intervention It develops a feminist critique of consociationalism as the dominant model of post conflict governance by tracking the gendered implications of the Dayton Peace Agreement It illustrates how the legitimisation of ethnonationalist power enabled by the agreement has reduced citizenship to an all encompassing logic of ethnonational belonging and implicitly reproduced its attendant patriarchal

gender order Foregrounding women's diverse experiences the book reveals gendered ramifications produced at the intersection of conflict ethno nationalism and international peacebuilding Deploying a multidimensional feminist approach centred around women's narratives of belonging exclusion and agency this book offers a critical interrogation of the promises of peace and explores individual collective efforts to re imagine citizenship *Routledge Handbook of Peacebuilding* Roger Mac Ginty, 2024-08-20 This updated and revised second edition of the Routledge Handbook of Peacebuilding contains cutting edge analyses of contemporary attempts to reach and sustain peace The book covers the main actors and dynamics of peacebuilding as well as the main challenges that it faces with accessible chapters The volume is comprehensive covering everything from the main international institutions for peacebuilding to the links between peacebuilding and climate change or peacebuilding and trauma It is also firmly interdisciplinary with a number of chapters devoted to showcasing how different disciplines interpret peacebuilding and how they contribute to it Bringing together leading thinkers and practitioners on peacebuilding many from the Global South the handbook offers a valuable hands on perspective on how peace can be secured and sustained There is a significant emphasis on comparison and the book shows how peacebuilding is best examined from the vantage point of multiple cases The book is organised into six thematic sections Part I Architecture and Actors Part II Reading Peacebuilding Part III Issues and Approaches Part IV Violence and Security Part V Everyday Living Part VI Disciplinary Approaches This book will be essential reading for students of peacebuilding mediation and post conflict reconstruction and of great interest to students of statebuilding intervention civil wars conflict resolution war and conflict studies and IR in general Chapter 25 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution CC BY 4.0 license

will be an invaluable publication The three fold division into approaches themes and cases is a very solid and sensible one The editors have commissioned essays from leading scholars in the field and this handbook provides the best single volume overview of contemporary nationalism John Breuilly Professor of Nationalism and Ethnicity London School of Economics Nationalism has long excited debate in political social and cultural theory and remains a key field of enquiry among historians anthropologists sociologists as well as political scientists It is also one of the critical media issues of our time There are however surprisingly few volumes that bring together the best of this intellectual diversity into one collection This Handbook gives readers a critical survey of the latest theories and debates and provides a glimpse of the issues that will shape their future Its three sections guide the reader through the theoretical approaches to this field of study its major themes from modernity to memory migration and genocide and the diversity of nationalisms found around the globe The overall aim of this Handbook is to relate theories and debates within and across a range of disciplines illuminate themes and issues of central importance in both historical and contemporary contexts and show how nationalism has impacted upon and interacted with other political and social forms and forces This book provides a much needed resource for scholars in international relations political science social theory and sociology

Pankhurst, 2012-07-26 This volume contributes to the growing literature on women conflict and peacebuilding by focusing on the moments after a peace accord or some other official ending of a conflict often denoted as post conflict or post war Such moments often herald great hope for holding to account those who committed grave wrongs during the conflict and for a better life in the future For many women both of these hopes are often very quickly shattered in starkly different ways to the hopes of men Such periods are often characterized by violence and insecurities and the official ending of a war often fails to bring freedom from sexual violence for many women Within such a context efforts on the part of women and those made on their behalf to hold to account those who commit crimes against them and to access their rights are difficult to make are often dangerous and are also often deployed with little effect Gendered Peace explores international contexts and a variety of local ones in which such struggles take place and evaluates their progress The volume highlights the surprising success in the development of international legal advances for women but contrasts this with the actual experience of women in cases from Sierra Leone Rwanda South Africa Afghanistan Bangladesh East Timor Peru Central America and the Balkans
