Robert A. Heinlein

Space Family Stone:

The Rolling Stones Robert Anson Heinlein, 1985 When the Stone twins made up their minds to leave Lunar City in a secondhand spaceship they hadn't planned on having their whole family accompany them But the Stones were not your ordinary Lunar family no way and their voyage through the solar system sure proved it What began as a simple business expedition to Mars soon mushroomed into a dangerous situation when Grandma Stone was lost in space Then just when everything seemed to be getting better a Martian flatcat came aboard and fouled up the works But the real trouble didn't get underway until the Stones headed for the asteroid belt to take up a mining proposition they somehow couldn't refuse The Rolling Stones Robert A. Heinlein, 1977 Though it doesn't seem likely for twins to have the same middle name it's clear that Castor and Pollux Stone both have Trouble in that spot on their birth certificates But anyone who's met their grandmother Hazel will know they came by it honestly Join the Stone twins for a laugh-filled ride as they connive cajole and bamboozle their way across the Solar System in the company of the most high spirited and hilarious family in all of science fiction This light-hearted tale has some of Heinlein's sassiest dialogue Oddly enough it's also a true example of family values for when you're a Stone your family is your highest priority **The Rolling Stones** Robert A.
