McCurdy, 1997 Setting the tone for the collection NASA chief historian Roger D Launius and Howard McCurdy maintain that the nation's presidency had become imperial by the mid 1970s and that supporters of the space program had grown to find relief in such a presidency which they believed could help them obtain greater political support and funding Subsequent chapters explore the roles and political leadership vis vis government policy of presidents Eisenhower Kennedy Johnson Nixon Ford Carter and Reagan

To Reach the High Frontier Roger D. Launius, 2002 Most towns did not have hospitals of their own before the mid twentieth century and Kentucky towns were no exception Kentucky's first real hospital opened in 1823 but it was in Louisville too far away to serve many Kentucky communities especially in cases of emergency For this and other reasons the lifespan of the average Kentuckian in the 1800s was only 40 years Today it has grown to 75 and trained medical professionals are available to most communities throughout the state *Healing Kentucky* tells how medical care changed in Kentucky over 200 years and became the much safer and better system we know today It also describes early healing practices and methods used to care for the sick in the days before safe hospitals even on Civil War battlefields From cholera epidemics to polio and plastic surgery readers will learn much about the people who shaped medicine in Kentucky
